Transmittal No. 09-18

Mexico – Bell 412EP Helicopters

WASHINGTON, March 13, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Mexico of five Bell 412EP Helicopters, spare and repair parts, support equipment, ferry services, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$93 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve Mexico's fight against criminal organizations, drugs, and gang activities. This proposed sale directly supports the Mexican government and serves the interests of the Mexican people and the U.S.

The proposed sale of the helicopters will increase the Mexican Air Force's air capabilities to support its interdiction activities, rapid response of law enforcement in Mexico, and support for the civilian population in natural disasters.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is Bell Helicopter in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U. S. Government personnel in country. One U.S. Government and one contractor representative will travel to Mexico three times per year, one week per trip for a period of three years to provide logistic support services.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Mexico – Persuader Maritime Patrol Aircraft

WASHINGTON, April 3, 2009 – On April 3, the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Mexico of the Persuader Maritime Patrol Aircraft and other related services and support. The estimated cost is \$60 million.

The Government of Mexico has requested a possible sale of one Persuader Maritime Patrol Aircraft, CASA type CN235-300M-M01, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support.

This proposed sale contributes to the foreign policy and national security of the United States by helping to improve Mexico's fight against criminal organizations, drugs, and gang activities. This proposed sale directly supports the Mexican government and serves the interests of the Mexican people and the U.S.

The proposed sale of the patrol aircraft will allow the Mexican Navy to perform enhanced surveillance missions, which will support its interdiction activities and rapid response of law enforcement in Mexico.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor is EADS North America in Arlington, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U. S. Government personnel in country. One contractor representative is requested for a period of four years to provide logistic support services.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Transmittal No. 09-17

AUSTRALIA – CH-47F CHINOOK HELICOPTERS

WASHINGTON, April 23, 2009 – On April 6 the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Australia of seven CHINOOK Helicopters and other related equipment, services and support. The estimated cost is \$560 Million.

The Government of Australia has requested a possible sale of seven CH-47F CHINOOK Helicopters with 14 (2 per aircraft) T55-GA-714A Turbine engines, 7 M134D Dillon Aero Miniguns, 16 AN/ARC-201D Single Channel Ground and Airborne Radios (SINCGARS), 7 Force XXI Battle Command Brigade and Below Blue Force Trackers (FBCB2/BFT), 2 spare T-55-GA-714A Turbine engines, mission equipment, communication and navigation equipment, ground support equipment, spare and repair parts, special tools and test equipment, technical data and publications, personnel training and training equipment, contractor technical and logistics personnel services, and other related elements of logistics support. The estimated cost is \$560 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have had a significant impact on regional political and economic stability and have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

The proposed sale of the CH-47F CHINOOK helicopters and components to Australia will contribute to U.S. security objectives by providing a coalition partner with significantly improved airlift capability. This will improve the Royal Australian Army's ability to participate in coalition operations, enhance the capacity of Australia's Defense Forces to provide lift for ground forces and supplies in support of humanitarian assistance/disaster relief, and to contribute to stability operations in the Asia-Pacific region. Australia will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be: Boeing Integrated Defense Systems in St. Louis, MO; Rockwell Collins in Cedar Rapids, IA; and ITT in Fort Wayne, IN. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two contractor representatives to Australia for approximately 3 years to support delivery of the CH-47F helicopters in-country. Also, approximately 6 U.S. Government personnel will participate in program management and/or technical reviews in-country for one to two-week intervals annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Morocco – Gulfstream G-550 Aircraft

WASHINGTON, May 18, 2009 – On May 18, the Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the government of Morocco of one Gulfstream G-550, related services and spare parts. The estimated cost is \$142 million.

The government of Morocco has requested a possible sale of one Gulfstream G-550 aircraft, one spare BR700-710C4-11 GmbH Engine, aircraft ferry services, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, contractor technical and logistics personnel services, and other related elements of logistics support.

This sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in North Africa.

The Royal Moroccan Air Force will use this new aircraft to provide safe, secure, and dedicated air transport for its Head of State.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Gulfstream Aerospace in Savannah, Ga., Honeywell Aerospace in Phoenix, Az., and Flight Safety International in New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Morocco involving ten U.S. Government and contractor representatives for technical reviews and support, program management, and training over a five-year period.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law, and does not mean the sale has been concluded.

Republic of Korea – SM-2 Standard Missiles

WASHINGTON, May 26, 2009 – On May 22, The Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the Government of the Republic of Korea of 46 SM-2 Block IIIA Tactical STANDARD missiles, 35 SM-2 Block IIIB Tactical STANDARD missiles, 3 SM-2 Block IIIB Telemetry Missiles, 84 SM-2 missile containers and associated test and support equipment, spare and repair parts, training, training equipment, publications and logistical support for an estimated cost of \$170 million.

The Republic of Korea has requested a possible sale of 46 SM-2 Block IIIA Tactical STANDARD missiles, 35 SM-2 Block IIIB Tactical STANDARD missiles, 3 SM-2 Block IIIB Telemetry Missiles, 84 SM-2 missile containers, missile modifications, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$170 million.

The proposed sale will enhance the Republic of Korea's defensive capabilities and increase interoperability with U.S. and multi-national forces supporting coalition operations. The country already has these missiles in its inventory and will have no difficulty absorbing these items.

The prime contractor will be Raytheon Electronic Systems Company in Tucson, Arizona. At this time, there are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require temporary travel for U.S. Government or contractor representatives to the Republic of Korea for in-country training. Training will be a recurring requirement during the life of the missile system.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Republic of Korea – F-16 Block 32 Aircraft Upgrades

WASHINGTON, May 26, 2009 – On May 22, the Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the Government of the Republic of Korea to support the upgrade of 35 F-16 Block 32 Aircraft. The estimated cost is \$250 Million.

The Republic of Korea has requested a possible sale to support the upgrade of 35 F-16 Block 32 aircraft to allow employment of Joint Direct Attack Munitions, Advanced Medium Range Air-to-Air Missiles, Improved Data Modem, and Secure Voice capabilities, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$250 million.

The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives. No foreign policy or military developments affect this proposed sale.

The Republic of Korea needs the material and services proposed to adequately operate the F-16 weapon system to its fullest and utmost capability in both a deterrent role and a coalition role with United States Forces Korea and the Combined Forces Command.

The prime contractor will be Lockheed Martin Aeronautics Company in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary travel for U.S. Government or contractor representatives to the Republic of Korea for in-country support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Egypt – AH-64D APACHE Longbow Helicopters

WASHINGTON, May 26, 2009 – On May 22, the Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the Government of Egypt of 12 AH-64D Block II APACHE Longbow Helicopters and associated equipment, parts, training and support for an estimated cost of \$820 million.

The Government of Egypt has requested a possible sale of 12 AH-64D Block II APACHE Longbow Helicopters, 27 T700-GE-701D Engines, 36 Modernized Targeting Acquisition and Designation Systems/Pilot Night Vision Sensors, 28 M299 HELLFIRE Longbow Missile Launchers, 14 AN/ALQ-144(V)3 Infrared Jammers, and 14 AN/APR-39B(V)2 Radar Signal Detecting Sets. Also included: composite horizontal stabilizers, Integrated Helmet and Display Sight Systems, repair and return, transportation, depot maintenance, spare and repair parts, support equipment, publications and technical documentation, U.S. Government and contractor technical support, and other related elements of program support. The estimated cost is \$820 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East. This sale is consistent with these U.S. objectives and with the 1950 Treaty of Mutual Cooperation and Security.

Egypt will use the AH-64D for its national security and protecting its borders. The aircraft will provide the Egyptian military more advanced targeting and engagement capabilities. The proposed sale will provide for the defense of vital installations and will provide close air support for the military ground forces. Egypt will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in Mesa, Arizona, and St. Louis, Missouri, General Electric Company of Lynn, Massachusetts, and Lockheed Martin Missiles and Fire Control in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale requires the assignment of one U.S. Government representative to Egypt for a period of six years to provide intensive coordination, monitoring, and technical assistance to assure a smooth transition of the helicopters in country. Additionally, six contractor representatives will be in Egypt conducting duties as Contractor Field Service Representatives for a period of five years and with a possible five-year extension.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Chile - Radars, Howitzers, Vehicles, Ammunition, and Related Support

WASHINGTON, June 15, 2009 – On June 12, the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Chile of radars, howitzers, vehicles, weapons, ammunition and related support for an estimated cost of \$275 million.

The Government of Chile has requested a possible sale of 2 AN/TPQ-37(V)3 FIREFINDER Radars, 2 M1165A1 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), 12 M109A5 155mm Self-Propelled Howitzers, 12 M109A3 155mm Self-Propelled Howitzers, 18 M113A2 Armored Personnel Carriers; 6 M577A2 Command Post Carriers, 24 M548A1 Tracked Logistics Vehicles, 12 M2 .50 cal Machine Guns, 1968 M107 155mm Projectiles, and 896 M549 155mm Projectiles. Also included: 2 AN/TMQ-41 Meteorological Measuring Sets (MMS), 2 M1152 HMMWVs, 28 Camouflage Systems, 4 5-ton trucks, 12 MK19 40mm Grenade Launchers, ammunition, fuses, artillery trainers, 2 mechanical and ordnance tool kits, generators, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor technical assistance, and other related elements of logistics support. The estimated cost is \$275 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these defense articles and services to modernize its armed forces. The Chileans intend to establish a new battalion to integrate this equipment into their armed forces. This will contribute to the Chilean military's goal to update its capability while further enhancing greater interoperability between Chile, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors involved in this program are: BAE Systems in York, Pennsylvania, L3 Communications in Lancaster, Pennsylvania, Smiths Detection, Inc. in Edgewood, Maryland, and Thales Raytheon Systems Company, LLC in Fullerton, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 10 U.S. Government or contractor representatives to travel to Chile for a period of 4 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Kuwait - Technical/Logistics Support for F/A-18 Aircraft

WASHINGTON, July 7, 2009 – On July 6, the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Kuwait of continuing logistics support, contractor maintenance, and technical services in support of F/A-18 aircraft worth an estimated \$95 million.

The Government of Kuwait has requested a possible sale of continuing logistics support, contractor maintenance, and technical services in support of F/A-18 aircraft to include contractor engineering technical services, contractor maintenance support, avionics software, engine component improvement and spare parts, technical ground support equipment, spare and repair parts, supply support, publications and technical data, engineering change proposals, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$95 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs this logistics support, contractor maintenance, and technical services to maintain the operational capabilities of its aircraft.

The contractor maintenance and training technical services will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri; and General Dynamics in Fairfax, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Kuwait – Upgrade Desert Warrior Fire Control System with GITS II

WASHINGTON, July 10, 2009 – On July 8, the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Kuwait to upgrade the Desert Warrior Fire Control System with Gunner's Integrated TOW System (GITS II) worth an estimated \$314 million.

The Government of Kuwait has requested a possible sale to upgrade the Desert Warrior Fire Control System with Gunner's Integrated TOW System (GITS II) hardware. The proposed sale includes installation of the Improved Thermal Sight System 2nd Generation Forward-Looking Infrared Radar, spare and repair parts, support equipment, publications and technical documentation, test equipment, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$314 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait will use the upgraded Desert Warrior Infantry Fighting Vehicle for protecting its borders. The upgrade will provide Kuwait's infantry with an advanced target acquisition and destruction capability, and will also improve the vehicles' operational readiness. The proposed sale will provide for the defense of vital installations, and its ground forces. Kuwait will have no difficulty absorbing this upgrade into its armed forces.

The proposed sale of this upgrade will not alter the basic military balance in the region.

The principal contractor will be Raytheon Company Network Centric Systems in McKinney, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of five contractor representatives to Kuwait for a period of five years to accomplish the requested upgrade.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Kuwait - Technical/Logistics Support for F/A-18 Aircraft

WASHINGTON, July 14, 2009 – On July 13, the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government Kuwait of logistics support, contractor maintenance and technical services in support of the F/A-18 aircraft. The estimated cost is \$70 million.

The Government of Kuwait has requested a possible sale of continuing logistics support, contractor maintenance, and technical services in support of the F/A-18 aircraft to include Contractor Engineering Technical Services/Contractor Maintenance Services, Hush House Maintenance Support services, and Liaison Office Support Services, U.S. Government and contractor technical and logistics personnel services and other related elements of program support.

This proposed sale would contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs this logistics support, contractor maintenance, and technical services to maintain the operational capabilities of its aircraft.

The contractor maintenance, training and technical services will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri; DynCorp in Fort Worth, Texas; General Electric in Lynn, Massachusetts; Industrial Acoustics Company in Winchester, United Kingdom; and General Dynamics in Fairfax, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Kuwait – Nautilus Class Diver Support Vessels

WASHINGTON, July 14, 2009 – On July 13, the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Kuwait of four M2 .50 cal HB Browning machine guns, two Swiftship Model 176DSV0702, 54X9.2X1.8 meter Nautilus Class Diver Support Vessels outfitted with a MLG 27mm gun system, and other related services and equipment. The estimated cost is \$81 million.

The Government of Kuwait has requested a possible sale of four M2 .50 cal HB Browning machine guns, two Swiftship Model 176DSV0702, 54X9.2X1.8 meter Nautilus Class Diver Support Vessels outfitted with a MLG 27mm gun system, support equipment, personnel training, spare and repair parts, publications and technical data, U.S. Government and contractor technical and logistics personnel services, and other related elements of program support.

This proposed sale would contribute to the foreign policy and national security of the United States by helping to improve the security of a major Non-NATO ally that has been, and continues to be, an important force for political stability and economic progress in the Middle East. Additionally, the proposed sale will demonstrate the U.S. Government's commitment to our bilateral relationship.

Kuwait needs these vessels to strengthen its tactical range and operating capabilities with its defense network. The Diver Support Vessels will ensure enhanced fleet security and interoperability as well as improve Kuwait's capability to conduct operations. Kuwait will have no difficulty absorbing the diver support vessels into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Swiftships, LLC in Morgan City, Louisiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one contractor representative in Kuwait for a period of one year after the delivery of the craft to provide technical assistance in the performance of planned and corrective maintenance and repair.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kuwait – KC-130J Multi-mission Aircraft

WASHINGTON, July 20, 2009 – On July 15, the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Kuwait of eight KC-130J Multi-mission Cargo Refueling Aircraft and associated equipment, parts and support for an estimated cost of \$1.8 billion.

The Government of Kuwait has requested a possible sale of 8 KC-130J Multi-mission Cargo Refueling Aircraft with 32 AE-2100D3 Turbo propeller engines, 8 spare AE-2100D3 Turbo propeller engines, 4 AN/ALR-56M Radar Warning Receivers, 4 AN/AAR-47 Missile Approach Warning Systems, 4 AN/ALE-47 Countermeasures Dispenser Sets, 20 AN/ARC-210 (RT-1851A(U)) Very High Frequency/Ultra High Frequency HAVEQUICK/Single Channel Ground and Airborne Radio Systems, spare and repair parts, support equipment, publications and technical documentation, warranties, aircraft ferry support, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$1.8 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs these aircraft to strengthen its tactical and operating capabilities with its defense network. The aircraft will provide enhanced airlift capability, and with the refueling capability, add significant operational flexibility by extending the range of Kuwait's air defense aircraft.

The proposed sale of these aircraft will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company in Marietta, Georgia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Australia - USAF C-17 Globemaster Sustainment Partnership

WASHINGTON, July 22, 2009 – On July 17, the Defense Security Cooperation Agency (DSCA) notified Congress of the Government of Australia's request to continue participation in the USAF/Boeing Globemaster III Sustainment Partnership (GSP), which consists of support for four Boeing C-17A aircraft. The estimated cost is \$300 million.

The Government of Australia has requested to continue participation in the USAF/Boeing Globemaster III Sustainment Partnership (GSP) which consists of support for Australia's fleet of four Boeing C-17A Globemaster III cargo aircraft, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have had a significant impact on regional, political, and economic stability and have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden-sharing with our allies.

This program will ensure Australia can effectively maintain its current force projection capability that enhances interoperability with U.S. forces. Australia is a staunch supporter of the U.S. in Iraq and Afghanistan. Australia's troops are deployed in support of Iraqi Freedom and Enduring Freedom, where U.S. assets currently provide this proposed capability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Boeing Integrated Defense Systems in St. Louis, Mo. There are no known offset agreements in connection with this proposed sale.

Implementation of this proposed sale will require the assignment of ten U.S. Government and contractor representatives to participate in program management and technical reviews for two-week intervals annually. Additionally, up to ten contractor representatives will be required to provide in-country services throughout the life of this case.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 09-27

Korea – MH-60S Multi-Mission Helicopters

WASHINGTON, July 22, 2009 – On July 17, the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government Korea of eight MH-60S Multi-Mission Helicopters with 16 T700-GE-401C Turbo shaft engines and associated Airborne Mine Countermeasure (AMCM) Sensors, eight AN/AQS-20A Towed Sonar Mine Countermeasure Systems, eight AN/AES-1 Airborne Laser Mine Detection Systems, eight AN/ASQ-235 Airborne Mine Neutralization Systems, eight AN/ALQ-220 Organic Airborne and Surface Influence Sweep Systems, eight AN/AWS-2 Rapid Airborne Mine Clearance Systems and related support and services. The estimated cost is \$1.0 billion.

The Republic of Korea has requested a possible sale eight MH-60S Multi-Mission Helicopters with 16 T700-GE-401C Turbo shaft engines and associated Airborne Mine Countermeasure (AMCM) Sensors, eight AN/AQS-20A Towed Sonar Mine Countermeasure Systems, eight AN/AES-1 Airborne Laser Mine Detection Systems, eight AN/ASQ-235 Airborne Mine Neutralization Systems, eight AN/ALQ-220 Organic Airborne and Surface Influence Sweep Systems, eight AN/AWS-2 Rapid Airborne Mine Clearance Systems, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support.

The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The Republic of Korea needs these helicopters to support the Korean Navy's ability to provide mine warfare detection and mine neutralization operations to maintain critical sea-lines of communication and coastal access around the Korean peninsula.

The principal contractors will be Sikorsky Aircraft Corporation in Stratford, Conn., Lockheed Martin Systems Integration in Owego, N.Y.; Raytheon Integrated Defense Systems in Tucson, Ariz.; Raytheon Space and Airborne Systems in McKinney, TX.; Northrop Grumman Corporation in Melbourne, Fla.; ITT Corporation in Panama City, Fla., and Enterprise Ventures Corporation in Johnstown, Pa. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary travel for U.S. Government or contractor representatives to the Republic of Korea for in-country training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Bahrain – AIM-120C-7 AMRAAM Missiles

WASHINGTON, July 28, 2009 – On July 27, the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Bahrain of 25 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and associated equipment, parts and services at an estimated cost of \$74 million.

The Government of Bahrain has requested a possible sale of 25 AIM-120C-7 AMRAAMs, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$74 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Bahrain's capability to meet current and future threats of enemy air-to-air weapons. Bahrain will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Corporation, Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require bi-annual trips to Bahrain involving six U.S. Government and four contractor representatives for program management reviews over a period of up to five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Jordan – AIM-120C-7 AMRAAM Missiles

WASHINGTON, Aug. 3, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Jordan of 85 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM) and associated equipment, parts and logistical support at an estimated cost of \$131 million.

The Government of Jordan has requested a possible sale of 85 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 6 120C Captive Air Training Missiles, missile containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$131 million.

The proposed sale will enhance the foreign policy and national security objectives of the United States by improving the security of a key regional partner who has proven to be a vital force for political stability and peace in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats of enemy air-to-air weapons. Jordan will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Jordan will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Raytheon Corporation of Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require bi-annual trips to Jordan involving up to six U.S. Government and four contractor representatives for one-week intervals for program management reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

UAE - HELLFIRE Missiles, Aircraft Survivability Equipment

WASHINGTON, August 4, 2009 – The Defense Security Cooperation Agency (DSCA) notified Congress today of a possible Foreign Military Sale to the Government of the United Arab Emirates of 362 HELLFIRE Missiles, 15 Common Missile Warning Systems (CMWS) four radar-warning receivers, and related equipment and services. The estimated cost is \$526 million.

The Government of the United Arab Emirates has requested a possible sale of 362 AGM-114N3 HELLFIRE Missiles, 15 AAR-57 CMWS, 21 AN/APR-39A (V) four Radar Warning Receivers, eight AN/APX-118 Transponders, 19 AN/PRC-117 Radios, 15 AN/ASN-128D Doppler Radars, six AN/ARC-231 Radios, 15 Data Transfer Modules/Cartridges. Also included are engineering and installation, transportation, engineering change proposals, depot maintenance, communications equipment, repair and return, support equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, contractor technical and logistics support services, and other related support elements.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of the weapons will allow the United Arab Emirates to deploy aircraft to materially assist the U.S. in overseas contingency operations. The support equipment will strengthen the effectiveness and interoperability of a potential coalition partner, reduce the dependence on U.S. forces in the region, and enhance any coalition operations the U.S. may undertake. The United Arab Emirates will have no difficulty absorbing this support into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The principal contractors will be:

Science and Engineering Services, Inc (SES-I)	Columbia, Md.
British Aerospace Engineering (BAE)	Rockville, Md.
L3 Corporation	Canton, Mass.
Boeing Aircraft Corporation	Mesa, Ariz.
Lockheed Martin Corporation	Orlando, Fla
Northrop Grumman	Baltimore, Md
Lockheed Martin Systems Integration	Owego, N.Y.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Saudi Arabia –Upgrade of Tactical Airborne Surveillance System (TASS)

WASHINGTON, Aug. 5, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Saudi Arabia of Tactical Airborne Surveillance System (TASS) aircraft upgrades for an estimated cost of \$530 million.

The Government of Saudi Arabia has requested services to upgrade the TASS aircraft, installation of 10 AN/ARC-230 High Frequency Secure Voice/Data Systems, 25 AN/ARC-231 or 25 AN/ARC-210 Very High Frequency/Ultra High Frequency (VHF/UHF) Secure Voice/Data Systems, four Multifunctional Information Distribution System-Low Volume Terminals (MIDS-LVT), four LN-100GT Inertial Reference Units, 25 SY-100 or functional equivalent Crypto Systems, seven SG-250 or functional equivalent Crypto Systems, six SG-50 or functional equivalent, 10 CYZ-10 Fill Devices, modification of existing ground stations, TASS equipment trainer, mission scenario generator (simulator), and maintenance test equipment; spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical documentation including flight/operator/maintenance manuals, modification/construction of facilities, U.S. Government and contractor engineering and support services and other related elements of logistics support. The estimated cost is \$530 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed upgrade will enable the Royal Saudi Air Force (RSAF) to sustain their current capability, maintain interoperability with USAF and other coalition forces, and provide flexibility options for future growth. The upgrade will enhance the RSAF's ability to use a common architecture for efficiently communicating the gathered electronic data, within the RSAF and with other regional coalition forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be L-3 Communications Integrated Systems Company in Greenville, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will involve up to six U.S. government and four contractor personnel to participate in program reviews at the contractor's facility every six months. There will be approximately six contractors in Saudi Arabia providing technical assistance on a full-time basis until the system is integrated into the operational units.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Transmittal No. 09-35

Brazil – F/A-18E/F Super Hornet Aircraft

WASHINGTON, August 6, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Brazil of 28 F/A-18E Super Hornet Aircraft, eight F/A-18F Super Hornet Aircraft, 72 F414-GE-400 installed engines, a host of spare parts and munitions at an estimated value of \$7.0 billion.

The Government of Brazil has requested proposals from several foreign suppliers, including the United States, to provide the next generation fighter for the Brazilian Air Force. In this “FX-2” competition, the Government of Brazil has yet to select the United States Navy-Boeing proposal. This notification is being made in advance of receipt of a letter of request so that, in the event that the US Navy-Boeing proposal is selected, the United States might move as quickly as possible to implement the sale. If the Government of Brazil selects the U.S. Navy-Boeing proposal, the Government of Brazil will request a possible sale of 28 F/A-18E Super Hornet Aircraft, eight F/A-18F Super Hornet Aircraft, 72 F414-GE-400 installed engines, four F414-GE-400 spare engines, 36 AN/APG-79 Radar Systems, 36 M61A2 20mm Gun Systems, 36 AN/ALR-67(V) three Radar Warning Receivers, 144 LAU-127 Launchers, 44 Joint Helmet Mounted Cueing Systems (JHMCS), 28 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 28 AIM-9M SIDEWINDER Missiles, 60 GBU-31/32 Joint Direct Attack Munitions (JDAM), 36 AGM-154 Joint Standoff Weapons (JSOW), 10 AGM-88B HARM Missiles, and 36 AN/ASQ-228 (V2) Advanced Targeting Forward-Looking Infrared (ATFLIR) Pods. Also included are 36 AN/ALQ-214 Radio Frequency Countermeasures, 40 AN/ALE-47 Electronic Warfare Countermeasures Systems, 112 AN/ALE-50 Towed Decoys, Joint Mission Planning System, support equipment, spare and repair parts, personnel training and training equipment, ferry and tanker support, flight test, software support, publications and technical documents, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistics and program support.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in South America.

Brazil needs these aircraft to meet current and future threats. The proposed sale of F/A-18E/F aircraft will enhance Brazil’s tactical aviation capabilities. An increase in capability will be accrued primarily due to the larger number of aircraft and the larger range and endurance of the F/A-18E/F. Brazil will have no difficulty absorbing these aircraft into its aircraft inventory.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

The Boeing Company	St. Louis, Mo.
General Electric Aircraft Engines	Lynn, Mass.
Northrup Grumman Corporation	El Segundo, Calif.
Raytheon Corporation	El Segundo, Calif.
Lockheed Martin	Bethesda, Md.

Offsets agreements associated with this proposed sale are expected; however, specific agreements are undetermined and will be defined during negotiations between the purchaser and contractor.

Implementation of this sale will require approximately eight contractor representatives to provide technical and logistics support in Brazil for two years. U.S. Government and contractor representatives will also participate in program management and technical reviews for one-week intervals twice semi-annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Republic of Korea – AIM-9X SIDEWINDER Missiles

WASHINGTON, Aug. 6, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of the Republic of Korea of 55 All-Up-Round AIM-9X SIDEWINDER Missiles, associated equipment, and logistical support for an estimated cost of \$41 million.

The Republic of Korea (ROK) has requested a possible sale of 55 All-Up-Round AIM-9X SIDEWINDER Missiles, 12 AIM-9X SIDEWINDER Captive Air Training Missiles (CATMs), 2 AIM-9X CATM Missile Guidance Units, missile containers, missile modifications, test and support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistical support.

The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with these objectives.

The Republic of Korea needs these missiles to enhance the ROK Air Force's current air-to-air intercept capability to equal capabilities within their region of operations. Korea will have no difficulty absorbing these additional missiles into its armed forces.

The principal contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Saudi Arabia – Communication and Navigation Surveillance/Air Traffic Management (CNS/ATM) Upgrades

WASHINGTON, Aug. 6, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Saudi Arabia of Communication Navigation and Surveillance/Air Traffic Management upgrades for an estimated cost of \$1.5 billion.

The Government of Saudi Arabia has requested a possible sale of a two-phased approach for the Communication Navigation and Surveillance/Air Traffic Management upgrades of the communication and navigation systems for the Royal Saudi Air Force's fleet of 13 RE-3, KE-3, and E-3 aircraft. Phase One will include Global Positioning System/Inertial Navigation Systems, 8.33 kHz Very High Frequency radios, Traffic Collision Avoidance Systems, Mode S Transponders, Mode 4/5 Identification Friend or Foe Encryption, High Frequency radio replacements, Multifunctional Information Display Systems for Link 16 operations, Have Quick II radios, Satellite Communications and Common Secure Voice encryptions. Phase 2 will include digital flight deck instrumentation and displays, flight director system/autopilot, flight management system, cockpit data line message and combat situational awareness information. Also included are spare and repair parts, support and test equipment, publication and technical documentation, personnel training and training equipment, personnel support and test equipment to include flight simulators, U.S. government and contractor engineering support, technical and logistics support services, and other related elements of logistical and program support.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed upgrade will enable the Royal Saudi Air Force to sustain its current capability, maintain interoperability with the USAF and other coalition forces, and provide flexibility options for future growth. The upgrade will enhance the RSAF's ability to use a common architecture for efficiently communicating the gathered electronic data within the RSAF and with other regional coalition forces. Saudi Arabia will have no difficulty absorbing these additional capabilities.

A U.S. prime contractor will be chosen after a competitive source selection. There are no known offset agreements in connection with this proposed sale.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Thailand – UH-60L Black Hawk Helicopters

WASHINGTON, Aug. 6, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of Thailand of three Black Hawk helicopters and associated equipment and logistic support for an estimated cost of \$150 million.

The Government of Thailand has requested a possible sale of three UH-60L Black Hawk helicopters with six T-700-GE-701D engines with C controls, AN/APX 100 (V) Identification Friend or Foe Mark XII Transponder Set or suitable substitute/commercial equivalent, warranty, internal hoist kits, spare and repair parts, tools and support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services and other related elements of logistic support.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally.

Thailand needs these helicopters to fulfill its strategic commitments for search and rescue and self-defense within the region without being dependent upon assistance from other countries. This proposed sale will upgrade its air mobility capability and provide for the defense of vital installations and close air support for ground forces. Thailand, which already has UH-60s in its inventory, will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Sikorsky Aircraft Corporation of Stratford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one contractor representative to Thailand for two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

The Netherlands – F-16 Pilot Training and Logistics Support

WASHINGTON, Aug. 6, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of The Netherlands of F-16 pilot training and logistical support for an estimated cost of \$133 million.

The Government of Netherlands has requested a possible sale for the continuation of a Continental United States (CONUS)-based Royal Netherlands Air Force F-16 Formal Training Unit (FTU), 12,000 RR-188 Training Chaff, 2,250 BDU-33 (ZP61C) low-drag training bombs, 20,000 MJU-7 (F071A) Infrared Decoy Flares, pilot training, JP-8 fuel, air refueling support, airlift services, CONUS base start up, base operating support, facilities, training munitions, technical data and publications, personnel training and training equipment, contractor technical and logistics personnel services, and other related elements of logistical support.

This proposed sale contributes to the foreign policy and national security objectives of the U.S. by improving the military capabilities of The Netherlands and enhancing standardization and interoperability with U.S. forces.

Springfield-Beckley Air National Guard Base, Ohio, is the location where the Netherlands Air Force will train aircrews in aircraft operations and tactics. This training will enhance the Royal Netherlands Air Force's ability to continue contributions to Overseas Contingency Operations and to North Atlantic Treaty Organization air policing operations in Afghanistan, as well as, to possible future coalition operations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The U.S. Air Force will provide program management for the FTU. The Ohio Air National Guard will provide instruction, flight operations, and maintenance support and facilities. There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to The Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

Egypt – CH-47D CHINOOK Helicopters

WASHINGTON, August 6, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Egypt of six CH-47D CHINOOK Helicopters, 16 T55-GA-714A engines, eight AN/APR-39A(V)1 Radar Signal Detecting Sets with Mission Data Sets, eight AN/APX-117 Transponders with TS-4530 Interrogator/Transponder Test Sets, eight AN/ARC-220 (RT-1749) High Frequency Aircraft Communication Systems, flight and radar signal simulators, three M978A4 HEMTT Fuel Tanker trucks, two Fork Lift trucks and related equipment and support at an estimated cost of \$308 million.

The Government of Egypt has requested a possible sale of six CH-47D CHINOOK Helicopters, 16 T55-GA-714A engines, eight AN/APR-39A(V)1 Radar Signal Detecting Sets with Mission Data Sets, eight AN/APX-117 Transponders with TS-4530 Interrogator/Transponder Test Sets, eight AN/ARC-220 (RT-1749) High Frequency Aircraft Communication Systems, flight and radar signal simulators, three M978A4 HEMTT Fuel Tanker trucks, two Fork Lift trucks, repair and return, transportation, site survey, construction and facilities, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor technical support, and other related elements of program support.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt will use the CH-47D in support of its armed forces, disaster relief efforts, and joint exercises with U.S. forces in the region. Egypt will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Helicopter Company in Philadelphia, PA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one U.S. contractor field service representative in Egypt to provide support for a period of one year with an option for two additional years. Four additional contractor representatives and one U.S. Government

representative will be required for quality assurance roles for aircraft delivery for a period of one week.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

The Netherlands – Upgrade AH-64D APACHE Block I Helicopters to Block II

WASHINGTON, Aug. 6, 2009 – Today the Defense Security Cooperation Agency notified Congress of a possible foreign military sale to the Government of The Netherlands of Apache helicopter modification kits and associated equipment, training, and logistical support for an estimated cost of \$181 million.

The Government of The Netherlands has requested a possible sale of modification kits to upgrade its 29 AH-64D APACHE Block I Helicopters to Block II configuration, support equipment, spare and repair parts, tools and test equipment, personnel training and training equipment, publications and technical documentation, engineering change proposals, contractor technical and logistics personnel services, and other related elements of logistics support.

This proposed sale contributes to the foreign policy and national security objectives of the U.S. by improving the military capabilities of The Netherlands and enhancing standardization and interoperability with U.S. forces. The Netherlands is a NATO ally and an active U.S. partner in Overseas Contingency Operations in both Iraq and Afghanistan.

The Netherlands needs these upgrades to enhance its AH-64 fleet capabilities. Having the same aircraft configuration as the U.S. would greatly contribute to its military capability, making it a more capable and sustainable coalition force to support Overseas Contingency Operations. The Netherlands has the ability to use and maintain these helicopters as evidenced by their operating previous AH-64 configurations. The Netherlands, which already has the AH-64 APACHE in its inventory, will have no difficulty absorbing and utilizing these enhanced helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Boeing Corporation of Mesa, Arizona. There are offset agreements proposed in connection with this sale.

Implementation of this proposed sale will require four contractor representatives in The Netherlands to conducting training for a period of two weeks.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law. It does not mean that the sale has been concluded.

The Government of Ghana – C-27J Aircraft and Related Support

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Ghana of four C-27J Joint Cargo aircraft, 10 AE-2100 engines, four AN/ALE-47 Countermeasures Dispensing Systems, four AN/ARC-210 Very High Frequency/Ultra High Frequency (VHF/UHF) Multimode Integrated Communication Systems without COMSEC, four AN/APX-119 Identification Friend or Foe Digital Transponders with mode 1,2,3a, 3c, commercial GPS navigation, VIP module and observation windows, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$680 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a U.S. Government partner which has been, and continues to be, an important force for political stability and democracy in Africa.

The proposed sale will allow Ghana to strengthen its homeland defense by improving its capability to deploy troops to protect its borders against turmoil spreading from neighboring countries. These aircraft will enhance Ghana's ability to participate in peacekeeping operations by increasing its cargo, material, and troop transport, maritime patrol, tactical operations, and medical evacuation capabilities.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be L-3 Communications Integrated Systems of Greenville, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require up to 14 U.S. government and contractor representatives to participate in bi-annual Program Management Reviews (PMR) in Ghana and the U.S.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Jordan – HIMARS, GMLRS, AFATDS, SINCGARS

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Hashemite Kingdom of Jordan. The sale could include 12 M142 High-Mobility Artillery Rocket Systems (HIMARS) Launchers; 72 M31 Unitary Guided Multiple Launch Rocket Systems (GMLRS) Rocket Pods; 36 Multiple Launcher Rocket Systems (MLRS) Practice Rocket Pods; 12 M1084A1P2 Family of Medium Tactical Vehicle Trucks (FMTV); one Advanced Field Artillery Tactical Data System (AFATDS); three M108A1P2 Wreckers; three M1151A1 High-Mobility Multipurpose Wheeled Vehicles (HMMWVs); 27 AN/VRC-92E Single Channel Ground and Airborne Radio Systems (SINCGARS); and 18 AN/VRC-90E SINCGARS and related services and support. The estimated cost is \$220 million.

Also included are support equipment, communications equipment, spare and repair parts, test sets, batteries, laptop computers, publications and technical data, facility design, personnel training and equipment, systems integration support, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

Jordan will use the above noted systems for its national security and protecting its borders. The upgrade will provide Jordan Armed Forces (JAF) a long-range precision artillery support capability that will significantly improve U.S.-JAF interoperability and provide for the defense of vital installations. Jordan will have no difficulty absorbing and integrating this system into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be: Lockheed Martin Missile and Fire Control in Dallas, TX., BAE Systems in Sealy, TX., ITT in Fort Wayne, Ind., and Raytheon in Fort Wayne, Ind. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the assignment of up to five contractor representatives to Jordan for a period of 14 days to assist in the delivery and deployment of the HIMARS.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Morocco - F-16C/D Block 50/52 Aircraft Support Equipment, Weapons

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Morocco of F-16 C/D Block 50/52 aircraft support equipment and weapons at an estimated cost of \$187 million.

The Government of Morocco has requested a possible sale of 40 LAU-129A Launchers; 20 AGM-65D MAVERICK Missiles; four AGM-65D MAVERICK Training Missiles; four AGM-65H MAVERICK Training Missiles; 60 Enhanced GBU-12 PAVEWAY II Kits; 28 M61 20mm Vulcan Cannons; 28 AN/ARC-238 Single Channel Ground and Airborne Radios with HAVEQUICK I/II or SATURN I/II. Also included are one Ground Based Simulator, 40 LAU-118A missile rails, six AN/AAQ-33 SNIPER Targeting Pods with Ground Station, 16 Air Combat Maneuvering Instrumentation (ACMI) Pods, four ACMI Ground Stations, eight Joint Mission Planning Systems, two Remote Operated Video Enhanced Receivers, 30 AN/ALR-93 Radar Warning Receivers, 30 AN/AVS-9 Night Vision Goggles, containers, bomb components, support equipment, repair and return, spares and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by enhancing Morocco's capacity to support U.S. efforts in the Overseas Contingency Operations, as well as supporting Morocco's legitimate need for its own self-defense. Morocco is one of the most stable and pro-Western of the Arab states, and the U.S. remains committed to a long-term relationship with Morocco.

The proposed sale will allow the Moroccan Air Force to modernize its aging fighter inventory, thereby enabling Morocco to support both its own air defense needs and coalition operations. Morocco is a Major Non-NATO ally. Delivery of these weapon system will greatly enhance Morocco's interoperability with the U.S. and other NATO nations, making it a more valuable partner in an increasingly important area of the world.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The principal contractors will be:

Lockheed Martin Aeronautics Company

Fort Worth, TX

Raytheon Missile Systems	Tucson, Ariz.
L3 Communications	Arlington, TX
Advanced Night Vision System Inc.	North Salt Lake, UT
Marvin Industries	Inglewood, Calif.
Pratt & Whitney	East Hartford, CT
Goodrich ISR Systems	Danbury, CT
BAE Advanced Systems	Greenland, N.Y.
Boeing Corporation	Seattle, Wash.
Boeing Integrated Defense Systems	St Lewis, Mo.
Boeing IDS	Long Beach, Calif.
Boeing IDS	San Diego, Calif.
Raytheon Company	Lexington, Mass.
Raytheon Company	Goleta, Calif.
Lockheed Martin Missile and Fire Control	Dallas, TX
Northrop-Grumman Electro-Optical Systems	Garland, TX
Northrop-Grumman Electronic Systems	Baltimore, Md.

There are no known offset agreements in connection with this proposed sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Singapore – F-16 Pilot Training and Logistics Support

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Singapore the continuation of the Continental United States (CONUS) pilot proficiency training program for PEACE CARVIN II and munitions, services and support for F-16C/D aircraft. The estimated cost is \$250 million.

The Government of Singapore has requested a possible sale for the continuation of the Continental United States (CONUS) pilot proficiency training program for PEACE CARVIN II and munitions, services and support for F-16C/D aircraft which include: 35,000 20mm cartridges, aircraft modification kits, maintenance, participation in joint training exercises, fuel and fueling services, supply support, flight training, spare and repair parts, support equipment, program support, publications and technical documentation, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistical and program support.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a critical regional partner which has been, and continues to be, an important force for economic progress in Southeast Asia. This proposed sale will help augment the Republic of Singapore's self-defense capability and will ensure interoperability with U.S. forces for coalition operations. Singapore is a firm supporter of U.S. overseas contingency operations.

Singapore needs these munitions, services and equipment to continue a long-term pilot proficiency-training program at Luke Air Force Base, Arizona. This program will enable Singapore to develop mission-ready and experienced pilots through its CONUS training program to support Singapore's current and future F-16 aircraft inventory. The long-term pilot training program in CONUS continues a professional interaction and enhances operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Singapore – F-16 Pilot Proficiency-Training Program

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Singapore of a Continental United States (CONUS) pilot proficiency-training program and other related support and services at Springfield Air National Guard Base (ANGB), OH with United States Air Force leased F-16 aircraft. The estimated cost is \$75 million.

Also included are services and support, training munitions, maintenance, fuel and fueling services, supply support, flight training, spare and repair parts, support equipment, program support, publications and technical documentation, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistical and program support.

This proposed sale will contribute to the foreign policy and national security of the U.S. by helping to improve the security of a critical regional partner which has been, and continues to be, an important force for economic progress in Southeast Asia. This proposed sale will help augment the Republic of Singapore's self-defense capability and will ensure interoperability with U.S. forces coalition operations. Singapore is a firm supporter of U.S. overseas contingency operations.

Singapore needs these training munitions, services and equipment to continue to train its F-16 pilots in a well-established pilot proficiency-training program at Springfield ANGB, Ohio. This program will enable Singapore to develop mission-ready and experienced pilots through a CONUS training program to support Singapore's current and future F-16 aircraft inventory. The long-term pilot training program in CONUS continues a professional interaction and enhances operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

TURKEY - PATRIOT Advanced Capability-3 Guided Missiles

WASHINGTON, September 9, 2009 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Turkey of 13 PATRIOT Fire Units, 72 PATRIOT Advanced Capability (PAC-3) missiles, four PAC-3 Lot Validation Missiles, 197 MIM-104E PATRIOT Guidance Enhanced Missiles-T (GEM-T), four MIM-104E GEM-T Lot Validation Missiles, five PATRIOT Digital Missiles, five Anti-Tactical Missiles and other related support and equipment. The estimated cost is \$7.8 billion.

In addition, the potential sale includes eight AN/USQ-140(V)(2)(c) (RT-1785) or AN/USQ-140(V)(11)(c) Multifunctional Information Distribution Systems/Low Volume Terminals (MIDS/LVT-2), 13 AN/MPQ-65 Radar Sets, four Tactical Command Systems, 13 Battery Command Posts, six Communication Relay Groups, 13 Engagement Control Stations, 48 M902 Launching Stations, 52 Antenna Mast Groups, 13 Electronic Power Plant III (EPP), 100 THALES 9310C Very High Frequency (VHF) Voice Radios, 150 THALES 9310C VHF Data Radios, containers, battery and battalion maintenance equipment, prime movers, generators, electrical power units, personnel training and training equipment, trailers, communication equipment, tool and test sets, spare and repair parts, publications and technical documentation, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) Ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

Turkey will use the PAC-3 missiles to improve its missile defense capability, strengthen its homeland defense, and deter regional threats. Turkey has not previously purchased PAC-3 missiles, but will be able to absorb and effectively utilize these missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon Corporation in Andover, Mass., and Lockheed-Martin in Dallas, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of 26 contractor representatives in Turkey for training for a period of 24 months and major item repair for approximately 12 months. Several U.S. Government representatives will participate in program management and technical reviews in Turkey for two-week intervals twice annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt –F-16C/D Block 50/52 Aircraft

WASHINGTON, October 9, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Egypt of 24 F-16C/D Block 50/52 Aircraft and associated parts weapons and equipment, as well as other Non-MDE equipment and construction services. The total value, if all options are exercised, could be as high as \$3.2Billion.

The Government of Egypt has requested a possible sale of:

- 24 F-16C/D Block 50/52 Aircraft installed with either the F100-PW-229 or F110-GE-129 Increased Performance Engines (IPE) and APG-68(V)9 radars
- 6 F100-PW-229 or F110-GE-129 IPE spare engines
- 6 APG-68(V)9 spare radar sets
- 60 LAU-129/A Common Rail Launchers;
- 28 AN/APX-113 Advanced Identification Friend or Foe (AIFF) Systems without Mode IV
- 28 M61 20mm Vulcan Cannons

Non-MDE Equipment

- 28 AN/ALQ-211 Advanced Integrated Defensive Electronic Warfare Systems (AIDEWS); or Advanced Countermeasures Electronic Systems (ACES) which includes the AN/ALQ-187 Electronic Warfare System and the AN/ALR-93 Radar Warning Receiver
- 28 AN/ARC-238 Single Channel Ground and Airborne Radio System (SINCGAR) radios without HAVE QUICK I/II
- 4 F-9120 Advanced Airborne Reconnaissance Systems or DB-110 Reconnaissance Pods
- 28 Global Positioning Systems (GPS) and Embedded GPS/Inertial Navigation Systems (INS) with Standard Positioning Service commercial code only
- 12 AN/AAQ-33 SNIPER Advanced Targeting Pods or AN/AAQ-28LITENING Targeting Pods
- 24 pairs of Conformal Fuel Tanks
- 28 AN/ALE-47 Countermeasures Dispensing Systems

Also included: Base construction, support equipment, software development/integration, tanker support, ferry services, Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD), repair and return, modification kits, spares and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support. The estimated cost is \$3.2 billion.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by enhancing the capability of Egypt, a major non-NATO ally. Delivery of this weapon system will greatly enhance Egypt's interoperability with the U.S., making it a more valuable partner in an important area of the world, as well as supporting Egypt's legitimate need for its own self-defense.

The proposed sale will allow the Egyptian Air Force to modernize its aging air force by acquiring new fighter aircraft, thereby enabling Egypt to support both its own air defense needs and coalition operations. The country will have no difficulty absorbing this new capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Aeronautics Company in Fort Worth, Texas. The proposed sale also involves the following companies:

Lockheed Martin Missile and Fire Control	Dallas, Texas
Lockheed Martin Simulation, Training, and Support	Fort Worth, Texas
BAE Advanced Systems	Greenland, New York
Boeing Corporation	Seattle, Washington
Boeing Integrated Defense Systems (three locations)	St Louis, Missouri
	Long Beach, California
	San Diego, California
Raytheon Company (two locations)	Lexington, Massachusetts
	Goleta, California
Northrop-Grumman Electro-Optical Systems	Garland, Texas
Northrop-Grumman Electronic Systems	Baltimore, Maryland
Pratt & Whitney United Technology Company	East Hartford, Connecticut
General Electric Aircraft Engines	Cincinnati, Ohio
Goodrich ISR Systems	Danbury, Connecticut
L3 Communications	Arlington, Texas
ITT Defense Electronics and Services	McLean, Virginia
Symetrics Industries	Melbourne, Florida

There are no known offset agreements in connection with this proposed sale.

Implementation of this proposed sale will require multiple trips to Egypt involving U.S. Government and contractor representatives for technical reviews/support, program management, and training over a period of 15 years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Morocco – CH-47D CHINOOK Helicopters

WASHINGTON, October 26, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Morocco of three CH-47D CHINOOK Helicopters and associated parts, equipment and logistical support for an estimated cost of \$134 million.

The Government of Morocco has requested a possible sale of three CH-47D CHINOOK Helicopters with 6 (2 per helicopter) T55-GA-714A Turbine engines, 2 spare T-55-GA-714A Turbine engines, 4 AN/ARC-201E Single Channel Ground and Airborne Radio Systems (SINCGARS), mission equipment, communication and navigation equipment, ground support equipment, spare and repair parts, special tools and test equipment, technical data and publications, site survey, U.S. government and contractor technical and logistics personnel services, and other related elements of logistics support. The estimated cost is \$134 million.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the security of a major Non-NATO ally which has been, and continues to be, an important force for the political stability and economic progress in Africa.

Morocco needs these helicopters to improve its capability to meet current and future needs for humanitarian missions. Delivery of these helicopters will make it a more valuable partner in an increasingly important area of the world.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Boeing Company in Philadelphia, PA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. government or contractor representatives to Morocco.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Chile – AVENGER Fire Units/STINGER Missiles

WASHINGTON, November 12, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 10 of a possible Foreign Military Sale to Chile of 36 AVENGER Fire Units, 378 STINGER-Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft missiles, 12 STINGER Block 1 Buy-to-Fly missiles and associated parts, equipment and logistical support worth approximately \$455 million.

The Government of Chile has requested a possible sale of 36 AVENGER Fire Units, 378 STINGER-Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft missiles, 12 STINGER Block 1 Buy-to-Fly missiles, 42 Captive Flight Trainers, 36 AN/VRC-92E Single Channel Ground and Airborne Radio Systems (SINCGARS), 42 Captive Flight Trainers (CFTs), S250 Shelters on High Mobility Multi-Purpose Wheeled Vehicles (HMMWV), support equipment, tools and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical support services, and other related elements of logistics support. The estimated cost is \$455 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these defense articles and services to modernize its armed forces. and expand its existing air defense architecture to counter threats posed by air attack. These systems will contribute to the Chilean military's goal of updating its capability while further enhancing greater interoperability between Chile and the U.S. and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Boeing Aerospace Company of Huntsville, AL, Raytheon Missile Systems of Tucson, AZ, and Thales Raytheon Systems Company, LLC of Fullerton, CA. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 10 U.S. Government or contractor representatives to travel to Chile for 8 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Chile – AIM-120C-7 AMRAAM Missiles

WASHINGTON, November 12, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 10 of a possible Foreign Military Sale to Chile of 100 AIM-120C-7 Advanced Medium-Range Air-to-Air Missiles and associated parts, equipment and logistical support worth approximately \$145 million.

The Government of Chile has requested a possible sale of 100 AIM-120C-7 Advanced Medium-Range Air-to-Air Missiles (AMRAAM), containers, warranty, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor technical assistance, and other related elements of logistics support. The estimated cost is \$145 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these missiles to improve its capability to meet current and future threats of enemy air-to-air weapons. This will contribute to the Chilean military's goal to update its capability while further enhancing greater interoperability between Chile, the U.S., and other allies. Chile, which already has AMRAAM missiles in its inventory, will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives to Chile.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Chile – AN/MPQ-64F1 SENTINEL Radar Systems

WASHINGTON, November 12, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 10 of a possible Foreign Military Sale to Chile of 6 AN/MPQ-64F1 SENTINEL radar systems, 6 AN/VRC-92E Vehicular Dual Long Range Single Channel Airborne and Ground Radio Systems (SINCGARS) and associated parts, equipment and logistical support worth approximately \$65 million.

The Government of Chile has requested a possible sale of 6 AN/MPQ-64F1 SENTINEL radar systems, 6 AN/VRC-92E Vehicular Dual Long Range Single Channel Airborne and Ground Radio Systems (SINCGARS), spare and repair parts, tool and test equipment, repair and return, software support, support equipment, integration, publications and technical data, personnel training and training equipment, communications equipment, U.S. Government and contractor engineering, technical, and logistics personnel support, and other related elements of logistics support. The estimated cost is \$65 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these radars to modernize its armed forces. The Government of Chile intends to expand its existing air defense architecture to counter threats posed by air attack. This will contribute to the Chilean military's goal to update its capability while further enhancing greater interoperability between Chile and the U.S., and among other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be the Thales Raytheon Systems of Fullerton, California, International Telephone and Telegraph of Fort Wayne, Indiana, and American General of South Bend, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 10 U.S. Government or contractor representatives to travel to Chile for a period of 8 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Iraq – Light and Medium Utility Helicopters

WASHINGTON, November 19, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 18 of a possible Foreign Military Sale to Iraq of 15 helicopters with associated parts, equipment, training and logistical support for a complete package worth approximately \$1.2 billion.

The Government of Iraq has requested a possible sale of up to 15 AgustaWestland AW109 Light Utility Observation helicopters, or alternatively, 15 Bell Model 429 Medical Evacuation and Aerial Observation helicopters, or 15 EADS North America UH-72A Lakota Light Utility helicopters; and, up to 12 AgustaWestland AW139 Medium Utility helicopters, or alternatively, 12 Bell Model 412 Medium Utility helicopters, or 12 Sikorsky UH-60M BLACK HAWK helicopters equipped with 24 T700-GE-701D engines. Also included: spare and repair parts, publications and technical data, support equipment, personnel training and training equipment, ground support, communications equipment, U.S. Government and contractor provided technical and logistics support services, tools and test equipment, and other related elements of logistics support. The estimated cost is \$1.2 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

This proposed sale will advance Iraqi efforts to develop a strong national military and police authority. A well-equipped and trained military and police/border force patrol authority and counter-terrorism force will help ensure that Iraq can continue to sustain its democratically-elected government, assist in stabilizing the various provinces, and prevent an overflow of unrest into the provinces, cities, and towns within Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

AgustaWestland Helicopter Company
Bell Helicopter Textron, Inc.
EADS North America
Sikorsky Aircraft Corporation
General Electric

Philadelphia, PA
Ft Worth, TX
Arlington, VA
Stratford, CT
Lynn, MA

Implementation of this proposed sale will require the assignment of U.S. Government and contractor representatives to Iraq for an extended period to assist in the delivery and deployment of the helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Italy – MQ-9 Unmanned Aerial Vehicles

WASHINGTON, November 19, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 18 of a possible Foreign Military Sale to Italy of two unarmed MQ-9 Unmanned Aerial Vehicles (UAVs), one Mobile Ground Control Station and associated parts, equipment and logistical support worth approximately \$63 million.

The Government of Italy has requested a possible sale of two unarmed MQ-9 Unmanned Aerial Vehicles (UAVs), one Mobile Ground Control Station, maintenance support, engineering support, test equipment, ground support, operational flight test support, communications equipment, technical assistance, personnel training/equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$63 million.

Italy is a major political and economic power in NATO and a key democratic partner of the United States in ensuring peace and stability around the world.

Italy requests these capabilities to provide for the defense of deployed troops, regional security, and interoperability with the United States. This program will increase Italy's ability to contribute to future NATO, coalition, and anti-terrorism operations that the U.S. may undertake. By acquiring this capability, Italy will be able to provide greater protection for its forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region. Italy will have no difficulty absorbing these additional aircraft into its armed forces.

The principal contractors will be:

General Atomics Aeronautical Systems, Inc.	San Diego, California
Raytheon Space and Airborne Systems	El Segundo, California
General Atomics Lynx Systems	San Diego, California

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Italy.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Singapore – Laser Joint Direct Attack Munitions

WASHINGTON, November 16, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Singapore of a variety of Joint Direct Attack Munitions (JDAM) Guidance Kits and Precision Laser Guidance kits including associated parts, equipment, training and logistical support for a complete package worth approximately \$40 million.

The Government of Singapore has requested a possible sale of 670 KMU-572B/B Joint Direct Attack Munitions (JDAM) Guidance Kits, 670 DSU-38/B Precision Laser Guidance kits for GBU-54(V)1/B (MK-82), 670 KMU-572B/B Joint Direct Attack Munitions (JDAM) Guidance Kits for GBU-28B(V)1/B (MK-82), 670 DSU-38/B Precision Laser Guidance Kits for GBU-54(V)1/B, support equipment, repair and return, tools and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel services, and other related elements of logistical and program support. The estimated cost is \$40 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in Southeast Asia.

Singapore needs the JDAM kits to help meet current and future threats of enemy air-to-ground weapons. Singapore will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Singapore, which already has JDAM guidance kits in its inventory, will have no difficulty absorbing these additional enhanced kits.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company of St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kuwait – PATRIOT Sustainment and Repair/Return Program

WASHINGTON, November 16, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the government of Kuwait of four-year PATRIOT Air Defense System sustainment and repair/return programs and associated spare parts, equipment and logistical support worth approximately \$410 million.

The Government of Kuwait has requested a possible sale of four-year PATRIOT Air Defense System sustainment and repair/return programs to include spare and repair parts, support equipment, repair/return, transportation support, modification kits, Contractor Engineering Technical Services/Contractor Maintenance Support Services, Liaison Office Support Services, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$410 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs the PATRIOT sustainment and repair/return program to enhance its capability to meet current and future enemy air-to-ground weapon threats. Kuwait will use the sustained capability to deter regional threats and to strengthen its homeland defense.

The proposed sale of this support will not alter the basic military balance in the region.

The principal contractor will be Raytheon Corporation in Tewksbury, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kuwait - Technical Assistance for Construction of Facilities and Infrastructure

WASHINGTON, November 23, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 20 of a possible Foreign Military Sale to Kuwait for the design and construction of facilities and infrastructure for Al Mubarak Air Base and the Kuwait Air Force Headquarters Complex for an estimated cost of \$700 million.

The Government of Kuwait has requested a possible sale for the design and construction of facilities and infrastructure for the Al Mubarak Air Base Upgrade and the Kuwait Air Force Headquarters Complex. The U.S. Army Corps of Engineers (USACE) will provide engineering, planning, design, acquisition, contract administration, construction management, and other technical services for construction of facilities and infrastructure (repair, rehabilitation, and new construction) in support of the administrative, operational, storage, support facilities and utility infrastructure of the Kuwait Air Force. The scope of the program includes provision of technical assistance for facilities that include administrative, operations, passenger processing, air crew, billeting, community support, maintenance and air control, perimeter security, supply and storage, and utility infrastructure. The estimated cost is \$700 million.

This proposed sale would contribute to the foreign policy and national security of the U.S. by enhancing Kuwait's capacity to support USG efforts.

This proposed sale would enable Kuwait to support the operational effectiveness of its military, to establish security and stability throughout Kuwait, and to promote the stability and development of a friendly, democratic central government.

The proposed sale will not alter the basic military balance in the region.

The USACE is the principal organization that will direct and manage this program. The USACE will provide services through both in-house personnel and contract services. Contracts will be procured in accordance with Federal Government contracting law and regulations. There are no known offset agreements proposed in connection with this potential sale.

The estimated number of U.S. Government and contractor representatives to be assigned to Kuwait to implement the provisions of this proposed sale will be determined during program execution.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Peru – Refurbishment of Two NEWPORT Class Landing Ship Tanks

WASHINGTON, November 23, 2009 – The Defense Security Cooperation Agency notified Congress Nov. 20 of a possible Foreign Military Sale to Peru for the refurbishment of two NEWPORT Class Tank Landing Ships being provided as Excess Defense Articles and associated parts, equipment and logistical support worth approximately \$82 million.

The Government of Peru has requested a possible sale for the refurbishment of two NEWPORT Class Tank Landing Ships, Ex-Fresno (LST-1182) and Ex-Racine (LST-1191) being provided as Excess Defense Articles (grant EDA notification is being submitted separately) with rigid inflatable boats, spare and repairs parts, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$82 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South America.

This proposed sale will enable the Peruvian Navy to be interoperable with U.S. forces conducting maritime interdiction operations, improve its ability to execute counter narcotics, and counterterrorism capabilities, and ensure Peru's overall ability to maintain integrity of its borders. Peru will have no difficulty absorbing the ships into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be VSE Corporation of Alexandria, Virginia, and Fairbanks Morse of San Diego, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of contractor representatives to provide technical and logistics support in Peru for a period of three years. U.S. Government and contractor representatives will also be required to participate in program management and technical reviews for one week intervals, semi-annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Jordan – JAVELIN Guided Missile Systems

WASHINGTON, November 30, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Jordan of JAVELIN Anti-Tank Guided Missiles, Fly-to-Buy Missiles, JAVELIN Command Launch Units (CLUs) with Integrated Day/Thermal Sight and associated parts, equipment, training and logistical support for a complete package worth approximately \$388 million.

The Hashemite Kingdom of Jordan has requested a possible sale of 1808 JAVELIN Anti-Tank Guided Missiles, 18 Fly-to-Buy Missiles, 162 JAVELIN Command Launch Units (CLUs) with Integrated Day/Thermal Sight, containers, missile simulation rounds, enhanced basic skills trainer (EPBST), rechargeable and non-rechargeable batteries, battery dischargers and chargers, and coolant units, support equipment, spare and repair parts, publications and technical data, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$388 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO Ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats. Jordan will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Jordan, which already has Javelin Anti-Tank missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be a Javelin Joint Venture of Raytheon of Tucson, Arizona and Lockheed Martin of Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Jordan.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – CH-47F CHINOOK Helicopters

WASHINGTON, December 3, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the United Arab Emirates of 16 Chinook helicopters, and communication equipment, as well as associated parts, equipment, training and logistical support for a complete package worth approximately \$2.0 billion.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 16 CH-47F CHINOOK Helicopters, 38 T55-GA-714A Turbine engines, 20 AN/APX-118 Transponders, 20 AN/ARC-220 (RT-1749) Single Channel Ground and Airborne Radio Systems (SINCGARS) with Electronic counter-countermeasures, 40 AN/ARC-231 (RT-1808A) Receiver/Transmitters, 18 AN/APR-39A(V)1 Radar Signal Detecting Sets with Mission Data Sets, flight and radar signal simulators, support equipment, spare and repair parts, publications and technical documentation, site survey, construction and facilities, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner/ally, which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide the United Arab Emirates the capability to transport equipment and troops in the region, as well as to support U.S. and NATO airlift requirements in Afghanistan.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Boeing Integrated Defense Systems in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of four contractor representatives in the UAE for a period of one year with an option for two additional years. One additional U.S. government and four contractor representatives will be required for a one-week interval for quality assurance during helicopter delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Jordan – Material Management Program for F100-PW-220E Engines

WASHINGTON, December 8, 2009 – The Defense Security Cooperation Agency notified Congress December 7 of a possible Foreign Military Sale to the Hashemite Kingdom of Jordan to establish a Material Management Program for repair and return of 61 F100-PW-220E engine modules, as well as associated parts, equipment, training and logistical support for a complete package worth approximately \$75 million.

The Hashemite Kingdom of Jordan has requested a possible sale to establish a Material Management Program for repair and return of 61 F100-PW-220E engine modules, support and test equipment, spare and repair parts, publications and technical documentation, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics and program support. The estimated cost is \$75 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Jordan's capability to meet current and future threats. Jordan will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Jordan currently has forty-seven F-16s in its inventory and plans to field an additional fifteen in the next year. The requested F100-PW-220E engines are essential in the serviceability of its F-16 fleet.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Pratt & Whitney of East Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Jordan. However, this program will require up to 4 U.S. government and 4 contractor representatives to participate in bi-annual Program Management Reviews in Jordan and the U.S. for a period of approximately one week.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Turkey – CH-47F CHINOOK Helicopters

WASHINGTON, December 8, 2009 – The Defense Security Cooperation Agency notified Congress December 7 of a possible Foreign Military Sale to Turkey of 14 CH-47F CHINOOK Helicopters, as well as associated parts, equipment, training and logistical support for a complete package worth approximately \$1.2 billion.

The Government of the Turkey has requested a possible sale of fourteen CH-47F CHINOOK Helicopters, 32 T55-GA-714A Turbine engines, 28 AN/ARC-201E Single Channel Ground and Airborne Radio Systems (SINCGARS), 14 AN/APR-39A(V)1 Radar Signal Detecting Sets, support equipment, special tools and test equipment, spare and repair parts, publications and technical documentation, site survey, personnel training and training equipment, ferry services, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$1.2 billion.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale will improve Turkey's capability to meet current and future requirements for troop movement, medical evacuation, aircraft recovery, parachute drop, search and rescue, disaster relief, fire-fighting, and heavy construction. Turkey will use these helicopters to strengthen its homeland defense, deter regional threats, and improve humanitarian and disaster mobilization and response.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company of Ridley Park, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Turkey.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Saudi Arabia - SANG Modernization Program

WASHINGTON, Dec. 17, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 16 of a possible Foreign Military Sale to Saudi Arabia of 2,742 BGM-71E-4B-RF Tube-Launched, Optically-Tracked, Wire-Guided (TOW-2A) Radio Frequency missiles and associated parts, equipment, training and logistical support for a complete package worth approximately \$177 million.

The Government of Saudi Arabia has requested a possible sale for 2,742 BGM-71E-4B-RF Tube-Launched, Optically-Tracked, Wire-Guided (TOW-2A) Radio Frequency missiles (42 missiles are for lot acceptance testing), publications and technical documentation, and other related elements of logistics support. The proposed sale will support efforts to modernize the Saudi Arabian National Guard (SANG). The estimated cost is \$177 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The SANG Modernization Program is an evolution of the SANG as an effective defensive force with the advice, assistance, and training of the U.S. Army. The proposed sale will improve Saudi Arabia's capability to meet and defeat current and future threats from enemy armored vehicles created by the development and fielding of first- and second- generation explosive reactive armor. Saudi Arabia will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Saudi Arabia, which already has previous TOW missile variants in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be the Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – HELLFIRE II Air-to-Surface Anti-Armor Missiles

WASHINGTON, Dec. 14, 2009 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Egypt of 450 AGM-114K3A HELLFIRE II missiles and associated parts, equipment, training and logistical support for a complete package worth approximately \$51 million.

The Government of Egypt has requested a possible sale of 450 AGM-114K3A HELLFIRE II missiles, spare and repair parts, test and tool sets, personnel training and equipment, publications, a U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$51 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

This proposed sale will contribute to the foreign policy and national security objectives of the United States by improving the military capabilities of Egypt and furthering weapon system standardization and interoperability with U.S. forces.

Egypt needs these missiles in order to defend its own borders and to remain militarily viable in the region. The proposed sale of HELLFIRE missiles will greatly improve Egypt's defense posture. The missiles will be provided in accordance with, and subject to the limitation on use and transfer provided under the Arms Export Control Act, as amended, as embodied in the Letter of Offer and Acceptance.

Egypt, which already has AGM-114K HELLFIRE missiles in its inventory, will have no difficulty absorbing the additional missiles.

This proposed sale will not adversely affect the military balance in the region.

The prime contractor is HELLFIRE Limited LLC.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – Logistics Support for C-17 Globemaster Aircraft

WASHINGTON, Dec. 18, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 17 of a possible Foreign Military Sale to United Arab Emirates of logistics support, training and related systems for four C-17 Globemaster III aircraft being procured through a Direct Commercial Sale. The complete package, including associated parts and equipment is worth approximately \$501 million.

The Government of the United Arab Emirates has requested a possible sale of logistics support and training for four C-17 Globemaster III aircraft being procured through a Direct Commercial Sale, 5 AN/AAR-47 Missile Warning Systems, 10 AN/ARC-210 (RT-1794C) HAVE QUICK II Single Channel Ground and Airborne Radio Systems, 5 AN/ALE-47 Countermeasure Dispensing Sets, ferry support, communication and navigation equipment, spare and repair parts, support and test equipment, publications and technical documentation, maintenance, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, preparation of aircraft for shipment, and other related elements of logistics support. The estimated cost is \$501 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner/ally, which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide the United Arab Emirates (UAE) the capability to transport equipment and troops in the region, as well as, to support U.S. and NATO airlift requirements in Afghanistan.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company of Chicago, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government and contractor representatives to the UAE. The number required will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – Fast Missile Craft

WASHINGTON, Dec. 18, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 17 of a possible Foreign Military Sale to Egypt of the Fast Missile Craft (FMC) program and associated parts, equipment, training and logistical support for a complete package worth approximately \$240 million.

The Government of Egypt has requested a possible sale for the Fast Missile Craft (FMC) program which was previously reported under Congressional notifications 04-05 and 0C-08. This notification is to document the Government of Egypt's decision to expand the program from three (3) FMCs to four (4) FMCs including the following; one (1) additional OTO-Malera 76mm/62 caliber Super Rapid Fire Dual Purpose guns, (1) additional MK 31 Mod 3 Rolling Airframe Missile (RAM) Guided Missile Weapon System, installation of Hull, Mechanical, and Electrical equipment, communications, operations equipment, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documents, and U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$240 million.

The sale of Fast Missile Craft to Egypt was originally notified on 7 August 2004, in Transmittal 04-05 for three FMCs at a value of \$565M. On 7 September 2008, the Administration notified an inflationary cost increase to that program in Transmittal OC-08, for an additional \$485M. This notification of \$240M brings the total notified value of the FMC program to \$1.290B.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East. This sale is consistent with these U.S. objectives and with the 1950 Treaty of Mutual Cooperation and Security.

The Egyptian Navy does not currently have a modern, high speed, ship capable of providing deep and shallow water defensive protection for the approaches to the Suez Canal. Egypt intends to purchase these ships to enhance its overall ability to defend its coastal areas and the approaches to the Suez Canal and will have no difficulty absorbing these crafts into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Vision Technology Halter-Marine of Gulfport Mississippi.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to Egypt.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – Service Life Extension Program for F-110-GE-100 Engines

WASHINGTON, Dec. 18, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 17 of a possible Foreign Military Sale to Egypt of modification and installation of part kits to upgrade 156 F-110-GE-100 engines through the Service Life Extension Program (SLEP) and associated parts, equipment, training and logistical support for a complete package worth approximately \$750 million.

The Government of Egypt has requested a possible sale of modification and installation of part kits to upgrade 156 F-110-GE-100 engines through the Service Life Extension Program (SLEP). The upgrades will be spread out over a six to seven year period in increments of approximately 24 engines being upgraded each year. Also included: transportation, spare and repair parts, support equipment, publications and technical documentation, U.S. Government and contractor technical support, and other related elements of program support. The estimated cost is \$750 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt will use these engine upgrades to enable continued operation of its current F-16 fleet, ensuring the Egyptian Air Force's (EAF) capability to train with U.S. and coalition forces. The upgrades will allow the EAF to continue defending Egypt's national security and protecting its borders. Egypt will have no difficulty absorbing these upgrades into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Electric Aviation of Cincinnati, Ohio. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale requires the assignment of five additional contractor representatives to Egypt for a period of six years to provide training and technical assistance.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – Harpoon Block II Anti-Ship Cruise Missiles

WASHINGTON, Dec. 18, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 17 of a possible Foreign Military Sale to Egypt of 20 RGM-84L/3 HARPOON Block II Anti-Ship Cruise Missiles and associated parts, equipment, training and logistical support for a complete package worth approximately \$145 million.

The Government of Egypt has requested a possible sale of 20 RGM-84L/3 HARPOON Block II Anti-Ship Cruise Missiles, 4 AN/SWG-1A HARPOON Shipboard Command Launch Control Systems including all consoles, software, and shipboard canister launcher units (4 missile battery), spare and repair parts; supply/technical support; support equipment; personnel training and training equipment; technical data and publications; U.S. Government and contractor engineering and logistics support services; and other related elements of logistics support. The estimated cost is \$145 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt intends to use the HARPOON missiles and launch systems on upgraded S-148 Tiger Class Patrol Boats which will assist in modernizing its fleet and consolidate the configuration of the surface-to-surface missiles within its inventory. Egypt will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company in St. Louis, MO. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. government or contractor representatives to Egypt; however, U.S. government and contractor representatives will be required to travel to Egypt annually for a period of one to two weeks to participate in program and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kuwait - Facilities and Infrastructure Construction Support Services

WASHINGTON, Dec. 18, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 17 of a possible Foreign Military Sale to Kuwait of construction support services to provide administrative, operational, storage, support facilities and utility infrastructure for the 26th Al Soor Brigade facilities for a complete package worth approximately \$360 million.

The Government of Kuwait has requested a possible sale of construction support services to provide administrative, operational, storage, support facilities and utility infrastructure for the 26th Al Soor Brigade facilities. The U.S. Army Corps of Engineers (USACE) will provide engineering, planning, design, acquisition, contract administration, construction management, and other technical services for construction of facilities and infrastructure for administration, operational equipment maintenance, logistical and base support, soldiers' living and recreational facilities, training, ranges, perimeter security, supply and storage, and utility infrastructure. The estimated cost is \$360 million.

This proposed sale would enhance the establishment of an all encompassing modern military facility that will serve both as a training base and a base of operations for a premier unit of the Kuwaiti Defense Force responsible for the security and stability of Kuwait. The facility scope of work is similar to other facilities built in the past by the US Army Corps of Engineers in other Middle Eastern countries, and the effort promotes the modernization and development of a Major Non-NATO ally. This proposed sale also would contribute to the foreign policy and national security of the U.S. by enhancing Kuwait's self defense capabilities and supporting the USG's efforts in coalition operations.

This proposed sale would enable Kuwait to support the operational effectiveness of its military to maintain security and stability throughout Kuwait. The proposed sale of this infrastructure and support will not alter the basic military balance in the region.

The USACE is the principal organization that will direct and manage this program. The USACE will provide services through both in-house personnel and contract services. There are no known offset agreements proposed in connection with this potential sale.

The estimated number of U.S. Government and contractor representatives to be assigned to Kuwait to implement the provisions of this proposed sale will be determined as a result of program definitization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – Enhanced Guided Bomb Units

WASHINGTON, Dec. 28, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 22 of a possible Foreign Military Sale to the United Arab Emirates of enhanced guided bomb units and associated parts, equipment, training and logistical support for a complete package worth approximately \$290 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 400 GBU-24(V) 11/B Enhanced PAVEWAY III, 400 GBU-24(V) 12/B Enhanced PAVEWAY III, 400 GBU-49(V) 3/B Enhanced PAVEWAY II, 400 GBU-50(V) 1/B Enhanced PAVEWAY II, 800 MK-84 2000 lbs Bombs, 400 MK-82 500 lbs Bombs, 400 BLU-109/B 2000 lbs Bombs. Also included are containers, bomb components, mission planning software, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel support services, and other related elements of program support. The estimated cost is \$290 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner, which has been, and continues to be, an important force for political stability and economic progress in the Middle East. This proposed sale supports the prior sale of the Block 60 F-16s to the UAE.

The proposed sale of the weapons will strengthen the effectiveness and interoperability of a potential coalition partner, reduce the dependence on U.S. forces in the region, and enhance any coalition operations the U.S. may undertake. The UAE will have no difficulty absorbing these additional munitions into its armed forces. The proposed sale of these weapon systems will not alter the basic military balance in the region.

The principal contractors are the Raytheon Corporation of Waltham, Massachusetts, and McAlester Army Ammunition Plant of McAlester, Oklahoma. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government or contractor representatives to the UAE. The number of U.S. Government and contractor representatives required in UAE to support the program will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phase.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates - Logistics Support and Training for 12 C-130J-30 Aircraft

WASHINGTON, Dec. 28, 2009 – The Defense Security Cooperation Agency notified Congress Dec. 22 of a possible Foreign Military Sale to the United Arab Emirates of logistics support, training and related systems for 12 C-130J-30 aircraft being procured through a Direct Commercial Sale. The complete package, including associated parts and equipment is worth approximately \$119 million.

The Government of the United Arab Emirates has requested a possible sale of logistics support and training for 12 C-130J-30 aircraft being procured through a Direct Commercial Sale, 12 AN/AAR-47 Missile Approach Warning Systems, 12 AN/ALE-47 Countermeasure Dispenser Sets, 12 AN/ALR-56M Radar Warning Receivers, communication equipment, navigation equipment, aircraft ferry and refueling support, spare and repair parts, support and test equipment, publications and technical documentation, mission planning systems, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and related elements of logistical and program support. The estimated cost is \$119 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner/ally, which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide the United Arab Emirates the capability to transport equipment and troops in the region, and support U.S. and NATO airlift requirements in Afghanistan.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed-Martin of Bethesda, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to the United Arab Emirates.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.
