India – M777 155mm Light-Weight Towed Howitzers

WASHINGTON, Jan. 26, 2010 – The Defense Security Cooperation Agency notified Congress Jan. 22 of a possible Foreign Military Sale to India of 145 M777 155mm Light-Weight Towed Howitzers with Laser Inertial Artillery Pointing Systems (LINAPS) and associated parts, equipment, training and logistical support for a complete package worth approximately \$647 million.

The Government of India has requested a possible sale of 145 M777 155mm Light-Weight Towed Howitzers with Laser Inertial Artillery Pointing Systems (LINAPS), warranty, spare and repair parts, support and test equipment, publications and technical documentation, maintenance, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$647 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

India intends to use the howitzers to modernize its armed forces and enhance its ability to operate in hazardous conditions. The howitzers will assist the Indian Army to develop and enhance standardization and to improve interoperability with U.S. Soldiers and Marines who use the M777 as their primary means of indirect fire. India will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be, BAE of Hattiesburg, Mississippi; Watervliet Arsenal of Watervliet, New York; Seiler Instrument Company of St Louis, Missouri; Triumph Actuation Systems of Bloomfield, Connecticut; Taylor Devices of North Tonawanda, New York; Hutchinson Industries of Trenton, New Jersey; and Selex, Edinburgh, United Kingdom. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to India involving up to eight (8) U.S. Government and contractor representatives for technical reviews/support, training, and in-country trials for a period of approximately two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Taipei Economic and Cultural Representative Office in the United States – Multifunctional Information Distribution Systems (MIDS)

WASHINGTON, January 29, 2010 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of 35 Multifunctional Information Distribution Systems Low Volume Terminals (MIDS/LVT-1), 25 MIDS On Ships Terminals and other related equipment and support. The estimated cost is \$340 million.

Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of 35 Multifunctional Information Distribution Systems Low Volume Terminals (MIDS/LVT-1), 25 MIDS On Ships Terminals, spare and repair parts, support and test equipment, training personnel training and training equipment, repair and return, software and hardware updates, publications and technical documentation, U.S. Government and contractor engineering services, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$340 million.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

This proposed sale will use these systems to improve and integrate the recipient's information flow, and display of tactical aircraft, surface ships, and ground stations. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. The recipient will have no difficulty absorbing these additional terminals into its inventory.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be selected through a competitive procurement conducted by the U.S. Government in accordance with the Federal Acquisition Regulation. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips involving U.S. Government and contractor representatives to participate in training, program management, and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The proposed sale of this weapon system will not alter the basic military balance in the region.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Taipei Economic and Cultural Representative Office in the United States – RTM-84L and ATM-84L HARPOON Block II Telemetry Missiles

WASHINGTON, January 29, 2010 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of 10 RTM-84L HARPOON Block II Telemetry missiles, 2 ATM-84L HARPOON Block II Telemetry missiles, and other related equipment and services. The estimated cost is \$37 million.

The Taipei Economic and Cultural Representative Office in the United States has requested the possible sale of 10 RTM-84L HARPOON Block II Telemetry missiles; 2 ATM-84L HARPOON Block II Telemetry missiles; containers; training devices; spare and repair parts; supply/technical support; support equipment; personnel training and training equipment; technical data and publications; U.S. Government and contractor engineering and logistics support services; and other related elements of logistics support. The estimated cost is \$37 million.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats of hostile surface ship operations. The recipient, which already has HARPOON missiles in its inventory, will have no difficulty absorbing these additional missiles.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The prime contractor will be The McDonnell Douglas Company, a wholly owned subsidiary of the Boeing Company in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 09-03

Taipei Economic and Cultural Representative Office in the United States – UH-60M BLACK HAWK Helicopters

WASHINGTON, January 29, 2010 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of 60 UH-60M BLACK HAWK helicopters, technical and other related logistics support. The estimated cost is \$3.1 billion.

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of 60 UH-60M BLACK HAWK helicopters with 120 T-700-GE-701D engines, 18 spare T-700-GE-701D engines, 69 AN/APR-39A(V)2 Radar Warning Receivers, 69 AN/ALQ-144A(V)1 Infrared Countermeasure Sets, 69 AN/AAR-57 Common Missile Warning Systems, 69 AN/AVR-2B Laser Detecting Sets, 120 GAU-19/A .50 cal Machine Gun Systems, and 310 AN/AVS-9 Aviator Night Vision Goggles. Also included are .50 cal ammunition, pyrotechnics, cartridges and propellant actuated devices. Also included are other explosives including devices, Po-Sheng Communication/Data Link Systems, ammunition, spare and repair parts, tools and support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services and other related elements of logistics support. The estimated cost is \$3.1 billion.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The recipient needs these helicopters for self-defense, personnel movement, cargo lifting, and aero medical evacuation capabilities. This procurement will modernize the recipient's rotary wing fleet and provide for the defense of vital installations and close air support for ground forces. The recipient will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

The principal contractors will be: Sikorsky Aircraft (United Technologies) Corporation of Stratford, Connecticut, and General Electric Aircraft Company of Lynn, Massachusetts. The purchaser has requested offsets; however, at this time they are undetermined and will be defined in negotiations between the purchaser and contractors.

Implementation of this proposed sale may require the assignment of two contractor representatives for a period of up to two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Taipei Economic and Cultural Representative Office in the United States – PATRIOT Advanced Capability-3 (PAC-3) Firing Units, Training Unit, and Missiles

WASHINGTON, January 29, 2010 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of 114 PATRIOT Advanced Capability (PAC-3) missiles, 3 AN/MPQ-65 Radar Sets and other related equipment and services. The estimated cost is \$2.81 billion.

The Taipei Economic and Cultural Representative Office in the United States has requested the possible sale of 114 PATRIOT Advanced Capability (PAC-3) missiles, 3 AN/MPQ-65 Radar Sets, 1 AN/MSQ-133 Information and Coordination Centrals, 1 Tactical Command Station, 3 Communication Relay Groups, 3 AN/MSQ-132 Engagement Control Stations, 26 M902 Launching Stations, 5 Antenna Mast Groups, 1 Electronic Power Plant III (EPP), battery and battalion maintenance equipment, prime movers, generators, electrical power units, personnel training and equipment, trailers, communication equipment, tool and test sets, spare and repair parts, publications and technical documentation, Quality Assurance Team support services, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$2.81 billion.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats of enemy air strikes. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. The recipient, which already has PAC-3 missiles in its inventory, will have no difficulty absorbing these missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be: Raytheon Corporation in Andover, MA, and Lockheed-Martin in Dallas, TX. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Taipei Economic and Cultural Representative Office in the United States – Two OSPREY Class Mine Hunting Ships Including Refurbishment and Upgrade

WASHINGTON, January 29, 2010 – Today the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of two (2) OSPREY Class Mine Hunting Ships, including refurbishment, upgrade and other related support and services. The estimated cost is \$105 million.

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale of two (2) OSPREY Class Mine Hunting Ships, including refurbishment and upgrade, overhaul of AN/SQQ-32 Sonar, transportation, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support. The estimated cost is \$105 million.

This sale is consistent with United States law and policy as expressed in Public Law 96-8. The U.S. is committed to providing military assistance under the terms of the Taiwan Relations Act.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed sale will improve the recipient's capability to meet current and future threats of enemy mining operations. The recipient will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. The recipient, who already has mine hunters in its inventory, will have no difficulty absorbing these additional ships.

The proposed sale of this equipment and support will not affect the basic military balance in the region.

A U.S. prime contractor will be chosen after a competitive source selection. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Pakistan – Technical Support Team

WASHINGTON, February 1, 2010 – On January 29, 2010, the Defense Security Cooperation Agency (DSCA) notified Congress of a possible Foreign Military Sale to the Government of Pakistan of technical support services and other related logistics support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South Asia and a partner in overseas contingency operations.

Pakistan is vital to U.S. foreign policy and national security goals in South Asia.

The proposed sale of this support will not alter the basic military balance in the region.

The principal contractor will be determined at a later date. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Pakistan – Refurbishment of Oliver Hazard Perry Class Frigate

WASHINGTON, Feb. 19, 2010 – The Defense Security Cooperation Agency notified Congress Feb. 18 of a possible Foreign Military Sale to Pakistan for refurbishment of one OLIVER HAZARD PERRY Class Frigate and associated equipment, parts and logistical support for a complete package worth approximately \$78 million.

The Government of Pakistan has requested a possible sale for refurbishment of one OLIVER HAZARD PERRY Class Frigate, USS MCINERNEY (FFG-8), being provided as Excess Defense Articles (grant EDA notification is being submitted separately) with onboard spares, spare and repairs parts, support equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost of the refurbishment and support is \$78 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be a partner in combating insurgents in Pakistan.

Pakistan requires the capabilities of USS McINERNEY (FFG-8) to participate in U.S. and coalition led counter-narcotics and counter-piracy operations and to assist with Pakistan's efforts to secure its maritime border. Pakistan will have no difficulty absorbing the ship into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor is unknown at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government and contractor representatives to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-12

Iraq – Various Radios and Communication Equipment

WASHINGTON, March 5, 2010 – The Defense Security Cooperation Agency notified Congress March 4 of a possible Foreign Military Sale to Iraq of various communication equipment, associated parts and logistical support for a complete package worth approximately \$142 million.

The Government of Iraq has requested a possible sale of (300) 50-watt Very High Frequency (VHF) Base Station radios, (230) 50-Watt VHF Vehicular Stations, (150) 20-watt High Frequency/Very High Frequency (HF/VHF) Base Station Systems, (50) 20-watt HF/VHF Vehicular Radios, (50) 50-watt Ultra High Frequency/Very High Frequency (UHF/VHF) Base Stations, (10) 150-watt HF/VHF Vehicular Radio Systems, (10) 150-watt HF Base Station Radio Systems, (30) 20-watt HF Vehicular Mobile Radio Stations, (250) 20-watt HF/VHF Handheld Radio Systems, (300) 50-watt UHF/VHF Vehicular Stations, (10) 150-watt HF/VHF Fixed Base Station Radio Systems, (590) Mobile Communications, Command and Control Center Switches, (4) Mobile Work Shops, High Capacity Line of Sight Communication Systems with Relay Link, generators, accessories, installation, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$142 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the Radios and Communications equipment will advance Iraq's efforts to develop a strong national police authority and a strong and dedicated military. The communications equipment will provide Iraq with updated frequency-hopping capabilities as well as a digital data capability. This expansion will enable Iraq to equip new forces to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to establish stability. The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Harris Corporation, White Plains, New York; and Cobham Defense Electronics, Bolton, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

With the wide range and volume of communication equipment in this proposed sale, levels of U.S. Government and Contractor technical assistance will be required but cannot be fully defined at this time. The use of existing, deployed U.S. military personnel will be maximized.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-04

France – JAVELIN Anti-Tank Guided Missiles

WASHINGTON, April 5, 2010 – The Defense Security Cooperation Agency notified Congress on April 2 of a possible Foreign Military Sale to France of 260 JAVELIN Anti-Tank Guided Missiles, 76 Command Launch Units with Integrated Day/Thermal Sights, and associated equipment, parts, and logistical support for an estimated cost of \$69 million.

The Government of France has requested a possible sale of 260 JAVELIN Anti-Tank Guided Missiles, 76 Command Launch Units with Integrated Day/Thermal Sight, containers, missile simulation rounds, Enhanced Basic Skills Trainer, JAVELIN Weapon Effects Simulator Trainers, two-level maintenance, batteries, battery dischargers and chargers, battery coolant units, spare and repair parts, test and tool sets, personnel training and equipment, publications, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$69 million.

France is one of the major political and economic powers in Europe and NATO and an ally of the United States in ensuring peace and stability. It is vital to the U.S. national interest to assist France to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve France's capability to meet current and future threats of enemy tanks and ground forces. France will use the enhanced capability to deter regional threats, to strengthen its homeland defense, and to contribute to overseas contingencies and NATO operations. France will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Javelin Joint Venture of Raytheon in Tucson, Arizona, and Lockheed Martin in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to France.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-14

Canada – T55-GA-714A Engines

WASHINGTON, April 9, 2010 – The Defense Security Cooperation Agency notified Congress on April 8 of a possible Foreign Military Sale to Canada of 36 T55-GA-714A engines and associated equipment, parts, and logistical support for an estimated cost of \$71 million.

The Government of Canada has requested a possible sale of 36 T55-GA-714A engines, spare and repairs parts, support and test equipment, personnel training and training equipment, publications and technical data, engine qualification review, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The engines will support the Canadian commercial purchase of CH-47 Chinook helicopters. The estimated cost is \$71 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the military capabilities of Canada and the Canadian military's interoperability with U.S. forces. Canadian deployments in support of peacekeeping and humanitarian operations have enhanced global political and economic stability and have served U.S. national security interests. These engines will be used in Chinook CH-47 helicopters with the objective of supporting the movement of troops and logistics when deployed.

This proposed sale will allow Canada to strengthen its homeland defense, and improve humanitarian and disaster mobilization and response. The proposed sale would improve Canada's ability to meet current and future requirements for troop movement, medical evacuations, aircraft recovery, parachute drops, search and rescue, disaster relief, fire-fighting, and heavy construction. Canada will have no difficulty absorbing these helicopter engines into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Honeywell International in Phoenix, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-08

India – C-17 GLOBEMASTER III Aircraft

WASHINGTON, April 26, 2010 – The Defense Security Cooperation Agency notified Congress on April 23 of a possible Foreign Military Sale to India of 10 Boeing C-17 GLOBEMASTER III aircraft and associated equipment, parts, and logistical support for an estimated cost of \$5.8 billion.

The Government of India (GOI) requests a possible sale of 10 Boeing C-17 GLOBEMASTER III aircraft, 45 F117-PW-100 engines (40 installed and 5 spare engines), 10 AN/ALE-47 Counter-Measures Dispensing Systems, 10 AN/AAR-47 Missile Warning Systems, spare and repairs parts, repair and return, warranty, pyrotechnics, flares, other explosives, aircraft ferry and refueling support, crew armor, mission planning system software, communication equipment and support, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support. The estimated cost is \$5.8 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

India will likely use these aircraft to replace its aging aircraft and associated supply chain with new and highly reliable aircraft. The acquisition of these C-17s will not present a new capability for the Indian Air Force, but will offer an increase in airlift capacity, reliability, and safety. The C-17 will increase the ability of the GOI to mobilize troops and equipment within the country and will enable India to provide significantly increased humanitarian assistance and disaster relief support within the region. Additionally, the C-17s will facilitate enhanced standardization with the United States. India will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in Long Beach, California, and Pratt & Whitney Military Engines in East Hartford, Connecticut. Additional subcontractors may be needed depending on the exact nature of the contracting arrangements established. At this time, there are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the participation of up to 20 U.S. Government and 20 contractor representatives for annual program management and technical reviews in India or the U.S. for one week per review for approximately six years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-19

Australia – RQ-7B SHADOW 200 Unmanned Aircraft Systems

WASHINGTON, May 6, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Australia of two RQ-7B SHADOW 200 Unmanned Aircraft Systems (UAS), and associated equipment, parts, and logistical support for an estimated cost of \$218 million.

The Government of Australia has requested a possible sale of two RQ-7B SHADOW 200 Unmanned Aircraft Systems, communication equipment to include 4 Ground Control Stations, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical and logistics support services, and other related elements of logistics support. The estimated cost is \$218 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

The proposed sale of the RQ-7B SHADOW 200 systems will improve Australia's capability to support ongoing ground operations in Afghanistan. Australia will also use the enhanced capability in future contingency operations encompassing humanitarian assistance, disaster relief, and stability operations in the Asia-Pacific region. Australia will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be AAI Corporation in Hunt Valley, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of four contractor representatives to Australia to support delivery of the RQ-7B SHADOW 200 UAS in-country.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-22

United Kingdom – Mastiff/Mine Resistant Ambush Protected (MRAP) Vehicles

WASHINGTON, May 20, 2010 – The Defense Security Cooperation Agency notified Congress May 19 of a possible Foreign Military Sale to the United Kingdom of 102 Mastiff/MRAP Cougar Category II 6X6 modified vehicles and associated equipment, parts, and logistical support for an estimated cost of \$122 million.

The Government of the United Kingdom has requested a possible sale of 102 Mastiff/MRAP Cougar Category II 6X6 modified vehicles, tools and test equipment, maintenance support, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$122 million.

The United Kingdom is a major political and economic power in NATO and a key democratic partner of the U.S. in ensuring peace and stability in this region and around the world.

The United Kingdom requests these capabilities to provide for the safety of its deployed troops in support of overseas contingency operations. This program will ensure the United Kingdom can effectively operate in hazardous areas in a safe, survivable vehicle, and enhance the United Kingdom's interoperability with U.S. forces. The United Kingdom is a staunch supporter of the U.S. in Iraq and Afghanistan. The United Kingdom's troops are deployed in Afghanistan, where United Kingdom and U.S. forces are currently utilizing Cougar Based MRAP vehicles. By acquiring these additional MRAP vehicles, the United Kingdom will be able to provide the same level of protection for its own forces as that provided by the United States for its forces. The United Kingdom will have no difficulty absorbing these vehicles into its Armed Forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Force Protection Industries, Inc., of Ladson, South Carolina. There are no known offset agreements proposed in connection with this potential sale.

The continued support of nine Field Service Representatives, currently providing in-theater maintenance support for the existing Mastiff vehicles until July 2010, will be extended until the UK can provide this support internally.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – Logistics Support for C-17 Globemaster Aircraft

WASHINGTON, May 26, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the United Arab Emirates (UAE) of logistics support and training for two C-17 Globemaster III aircraft and associated equipment, parts, and logistical support for an estimated cost of \$250 million.

The Government of the UAE has requested a possible sale of logistics support and training for two additional C-17 Globemaster III aircraft being procured through a Direct Commercial Sale, 2 AN/AAR-47 Missile Warning Systems, 4 AN/ARC-210 (RT-1794C) HAVE QUICK II Single Channel Ground and Airborne Radio Systems, 2 AN/ALE-47 Countermeasure Dispensing Sets, ferry support, communication and navigation equipment, spare and repair parts, support and test equipment, publications and technical documentation, maintenance, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, preparation of aircraft for shipment, and other related elements of logistics support. The estimated cost is \$250 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a critical and key partner/ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide the UAE the capability to transport equipment and troops in the region, as well as to support U.S. and NATO airlift requirements in Afghanistan.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company of Chicago, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government and contractor representatives to the UAE. The number required will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Kingdom – Globemaster III Sustainment Partnership

WASHINGTON, July 2, 2010 – The Defense Security Cooperation Agency notified Congress July 1 of a possible Foreign Military Sale to the United Kingdom for continued participation in the USAF/Boeing Globemaster III Sustainment Partnership, which consists of support for the United Kingdom's fleet of seven Boeing C-17A Globemaster III cargo aircraft and includes associated equipment, parts, training and logistical support for an estimated cost of \$390 million.

The Government of the United Kingdom has requested continued participation in the USAF/Boeing Globemaster III Sustainment Partnership which consists of support for the United Kingdom's fleet of seven Boeing C-17A Globemaster III cargo aircraft, contractor technical and logistics personnel services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$390 million.

The United Kingdom is a major political and economic power in NATO and a key democratic partner of the U.S. in ensuring peace and stability in this region and around the world.

The program will ensure the United Kingdom can effectively maintain its current force projection capability that enhances interoperability with U.S. forces. The support will provide UK and other NATO forces with rapid global strategic mobility to deploy to austere locations. The United Kingdom is a staunch supporter of the U.S. in Iraq and Afghanistan and in overseas contingency operations.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the United Kingdom.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – Skyguard AMOUN Solid-State Transmitters

WASHINGTON, July 2, 2010 – The Defense Security Cooperation Agency notified Congress July 1 of a possible Foreign Military Sale to Egypt for 40 Skyguard AMOUN Solid-State Transmitters to support the upgrade of the Skyguard-SPARROW Launcher/Illuminator System and associated equipment, parts, training and logistical support for an estimated cost of \$77 million.

The Government of Egypt has requested a possible sale of 40 Skyguard AMOUN Solid-State Transmitters to support the upgrade of the Skyguard-SPARROW Launcher/Illuminator System. Also included are spare and repair parts, support equipment, personnel training and training equipment, publications and technical documents, and U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$77 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East. This sale is consistent with these U.S. objectives and with the 1950 Treaty of Mutual Cooperation and Security.

The Egyptian Navy intends to purchase this equipment to improve the reliability and maintainability of the Skyguard air defense system. Egypt's current transmitters are over 30 years old, obsolete, or non-functional. Egypt will have no difficulty absorbing these transmitters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Integrated Defense Systems in Tewksbury, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to Egypt. An onsite Contractor Engineering Technical Assistant will provide in-country support for a period of one year for training and equipment checkout.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Egypt – Follow-On Technical Support

WASHINGTON, July 2, 2010 – The Defense Security Cooperation Agency notified Congress July 1 of a possible Foreign Military Sale to Egypt for the continuation of technical services in support of four OLIVER HAZARD PERRY and two KNOX CLASS Frigates and associated equipment, parts, training and logistical support for an estimated cost of \$210 million.

The Government of Egypt has requested a possible sale for the continuation of technical services in support of four (4) OLIVER HAZARD PERRY and two (2) KNOX CLASS Frigates that includes, but is not limited to, refurbishment and upgrading facilities, engineering change proposals, tools and test equipment, software upgrades, engine component improvement, spare and repair parts, support equipment, publications and technical documentation, personnel training and training equipment, U.S. government and contractor technical and logistical support services, and other related program requirements. The estimated cost is \$210 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Egypt intends to use the technical services provided to maintain the systems installed on the U.S. Navy (USN) supplied ships and USN supplied systems installed aboard Egyptian Navy platforms. The technology in these systems is maintenance intensive and requires a dedicated repair and replacement parts program to ensure the ships remain fully mission capable. This sale will provide the technical expertise, repair capability, and access to spare parts required to keep the systems operational. Egypt will have no difficulty absorbing this support into its armed forces.

The proposed sale of this service will not alter the basic military balance in the region.

The prime contractor will be VSE Global in Alexandria, Virginia. There are no known offset agreements proposed in connection with this potential sale. Implementation of this sale will not require the assignment of any additional U.S. Government or contractor representatives to Egypt; however, U.S. government and contractor representatives will be required to travel to Egypt annually for a period of one to two weeks to participate in program and technical reviews.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Oman – Logistics support and training for two C-130J-30s

WASHINGTON, July 2, 2010 – The Defense Security Cooperation Agency notified Congress June 30 of a possible Foreign Military Sale to Oman of logistics support and training for two C-130J-30 aircraft, including associated equipment and parts for an estimated cost of \$54 million.

The Government of Oman has requested a possible sale of logistics support and training for two (2) C-130J-30 aircraft being procured through a Direct Commercial Sale, 2 AN/AAR-47 Missile Approach Warning Systems, 2 AN/ALE-47 Countermeasure Dispenser Sets, 2 AN/ALR-56M Radar Warning Receivers, communication equipment, software support, repair and return, installation, aircraft ferry and refueling support, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and related elements of logistical and program support. The estimated cost is \$54 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide Oman the capability to meet current and future regional threats. These aircraft will improve Oman's airlift capacity to transport equipment and troops in the region, and will support U.S. interests. The Royal Air Force of Oman currently operates 3 C-130H aircraft and will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region. Participating contractors will be determined at a later date. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Oman involving up to ten U.S. Government and ten contractor representatives for technical reviews/support, and program management for a period of approximately six years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-11

Tunisia – Refurbishment of Twelve SH-60F Multi-Mission Helicopters

WASHINGTON, July 2, 2010 – The Defense Security Cooperation Agency notified Congress June 30 of a possible Foreign Military Sale to Tunisia for the refurbishment of 12 SH-60F Multi-Mission Utility Helicopters, being provided as Excess Defense Articles, and associated equipment, parts, training and logistical support for an estimated cost of \$282 million.

The Government of Tunisia has requested a possible sale for the refurbishment of twelve SH-60F Multi-Mission Utility Helicopters being provided as Excess Defense Articles (grant EDA notification is being submitted separately), 29 T700-GE-401C engines (24 installed and 5 spares), inspections, spare and repairs parts, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistics support. The estimated cost is \$282 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic and military progress in North Africa.

This proposed sale would enhance the modernization of the Tunisian Air Force's overwater search and rescue capability and enable continued interoperability with U.S. Armed Forces and other coalition partners in the region. The proposed sale would further improve Tunisia's overall ability to perform humanitarian missions, search and rescue, medical evacuations, fire-fighting, and to maintain the integrity of its borders. Tunisia will have no difficulty absorbing the helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for the engines will be General Electric in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will require the assignment of two contractor representatives to Tunisia for familiarization training, for two years. U.S. Government and contractor representatives will also be required to participate in program management and program and technical reviews, training, and maintenance support for one week intervals, semi-annually for three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Australia – MH-60R Multi-Mission Helicopters

WASHINGTON, July 9, 2010 – The Defense Security Cooperation Agency notified Congress July 7 of a possible Foreign Military Sale to Australia of 24 MH-60R SEAHAWK Multi-Mission Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$2.1 billion.

The Government of Australia has requested a possible sale of 24 MH-60R SEAHAWK Multi-Mission Helicopters, 60 T-700 GE 401C Engines (48 installed and 12 spares), communication equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services. The estimated cost is \$2.1 billion.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

The proposed sale of the MH-60R SEAHAWK helicopters will improve Australia's anti-submarine and surface warfare capability and provide an improved search and rescue and anti-ship surveillance capability. Australia will also use the enhanced capability in future contingency operations encompassing humanitarian assistance, disaster relief, and stability operations in the Asia-Pacific region. Australia will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors are Sikorsky Aircraft Corporation in Stratford, Connecticut, Lockheed Martin in Owego, New York, General Electric in Lynn, Massachusetts, and Raytheon Corporation in Portsmouth, Rhode Island. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of ten contractor representatives to Australia to support delivery of the MH-60R helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Chile – Forward Area Air Defense Engagement and Force Operations Systems

WASHINGTON, July 13, 2010 – The Defense Security Cooperation Agency notified Congress July 13 of a possible Foreign Military Sale to the Government of Chile of three Forward Area Air Defense (FAAD) Command and Control Intelligence Systems (C2I), three Single Channel Ground and Airborne Radio Systems (SINCGARS) Vehicle Dual Long-Range Radio Systems (AN/VRC-92E), 14 Enhanced Position Location Reporting System (EPLRS) Radio Transmitters, three FAAD Force Operations Systems Air and Missile Defense Workstations (AMDWS), spare parts and other related equipment and support at an estimated cost of \$105 million.

The Government of Chile has requested a possible sale of three Forward Area Air Defense (FAAD) Command and Control Intelligence Systems (C2I), three Single Channel Ground and Airborne Radio Systems (SINCGARS) Vehicle Dual Long-Range Radio Systems (AN/VRC-92E), 14 Enhanced Position Location Reporting System (EPLRS) Radio Transmitters, three FAAD Force Operations Systems Air and Missile Defense Workstations (AMDWS), spare and repair parts, support equipment, communication support equipment, repair and return, tool and test equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$105 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in South America.

Chile intends to use these systems to modernize its air defense posture. The sale of these systems will positively contribute to the Chilean military's goal to update its capability while further enhancing greater interoperability between Chile, the U.S., and other allies. Chile will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Northrop Grumman in Carson, California; Raytheon in Ft. Wayne, Indiana; Raytheon in Fullerton, California; and ITT Industries in Ft. Wayne, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require up to 4 U.S. Government or contractor representatives to travel to Chile for a period of 5 weeks for equipment de-processing, fielding, system checkout, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Canada – AN/TPQ-36 (EQ-36) FIREFINDER Radars or AN/MPQ-64F1 SENTINEL Radars

WASHINGTON, July 15, 2010 – The Defense Security Cooperation Agency notified Congress July 15 of a possible Foreign Military Sale to the Government of Canada of 10 Enhanced FIREFINDER Radars or 10 SENTINEL Radars, 10 Single Channel Ground and Airborne Radio System (SINGARS) Vehicular Dual Long-Range System Radios; 10 SENTINEL High Mobility Multipurpose Wheeled Vehicles (HMMWVs), 10 AN/TPX 57 Identification Friend or Foe (IFF) and an assortment of related equipment, services and support. The estimated cost is \$377 million.

The government of Canada has requested a possible sale of 10 AN/TPQ-36 (EQ-36) Enhanced FIREFINDER Radars or 10 AN/MPQ-64F1 SENTINEL Radars, 10 AN/VRC-92E or AN/VRC-92F Single Channel Ground and Airborne Radio System (SINGARS) Vehicular Dual Long-Range System Radios; 10 SENTINEL 11521A High Mobility Multipurpose Wheeled Vehicles (HMMWVs), 10 AN/TPX 57 Identification Friend or Foe (IFF), trailers, generators, repair and return support, tool and test equipment, communications support equipment, U.S. Government and contractor technical and logistics personnel support services, support equipment, spare and repair parts, and other related elements of logistics support. The estimated cost is \$377 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a NATO ally that has been, and continues to be, an important force for political stability and economic progress in North America. The proposed equipment sale will assist Canada in modernizing its forces. This will promote Canadian interoperability with U.S. forces and allow both countries to work together on future operations. The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Thales Raytheon Systems of Fullerton, Ca., International Telephone and Telegraph of Fort Wayne, Ind., American General of South Bend, Ind., and Lockheed Martin in Syracuse, NY. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

The Netherlands – GBU-39 Small Diameter Bombs

WASHINGTON, July 27, 2010 – The Defense Security Cooperation Agency notified Congress July 26 of a possible Foreign Military Sale to The Netherlands of 603 GBU-39/B Small Diameter Bombs 1 (SDB1) and associated equipment, parts, training and logistical support for an estimated cost of \$44 million.

The Government of the Netherlands has requested a possible sale of 603 GBU-39/B Small Diameter Bombs 1 (SDB1), containers, flight test integration, spare and repair parts, support equipment, personnel training and equipment, publications and technical data, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$44 million.

This proposed sale contributes to the foreign policy and national security objectives of the U.S. by improving the military capabilities of The Netherlands and enhancing standardization and interoperability with U.S. forces. The sale of this equipment and support will improve The Netherlands' ability to destroy protected, high-value targets such as command and control nodes and weapons storage facilities. This will be the first sale of this weapon to The Netherlands.

This sale will not alter the basic military balance in the region.

The principal contractor will be The Boeing Corporation in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

This program will involve multiple trips to The Netherlands by U.S. Government and contractor representatives for one to two week intervals for approximately three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Netherlands – MK-48 Torpedo Conversion Kits

WASHINGTON, July 29, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to The Netherlands of 40 MK- 48 Mod 7 Advanced Technology (AT) Torpedo Conversion Kits and associated equipment, parts, training and logistical support for an estimated cost of \$150 million.

The Government of The Netherlands has requested a possible sale of 40 MK- 48 Mod 7 Advanced Technology (AT) Torpedo Conversion Kits, 40 containers, support and test equipment, spare and repair parts, weapon system support and integration, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$150 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve security of a NATO ally which has been, and continues to be, an important force for political stability and economic progress in Northern Europe.

The sale of this equipment and support will not alter the basic military balance in the region.

The Netherlands desire to upgrade its current stock of MK 48 Mod 4 torpedoes to the MK 48 Mod 7 AT model. The Netherlands intend to use the MK 48 Mod 7AT Torpedo on its Walrus Class submarines. The Netherlands has significant experience in maintaining and supporting advanced torpedoes, such as the MK 48 Mod 4/4M and MK 46 5A(S)W models, and the current infrastructure will require minimal updates. The Netherlands will have no difficulty absorbing the MK 48 Mod 7 AT into its inventory.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to The Netherlands. Contractor Engineering and Technical Services (CETS) may be required on an interim basis for installations.

The prime contractor will be Raytheon Company Integrated Defense Systems in Keyport, Washington. There are no known offset agreements proposed in connection with this sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-40

Oman – F-16 Aircraft

WASHINGTON, August 3, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Oman of 18 F-16 Block 50/52 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$3.5 Billion.

The Government of Oman has requested a possible sale of 18 F-16 Block 50/52 aircraft, 20 F100-PW-229 or F110-GE-129 Increased Performance Engines, 36 LAU-129/A Common Rail Launchers, 24 APG-68(V)9 radar sets, 20 M61 20mm Vulcan Cannons, 22 AN/ARC-238 Single Channel Ground and Airborne Radio Systems with HAVE QUICK I/II, 40 Joint Helmet Mounted Cueing Systems, 36 LAU-117 MAVERICK Launchers, 22 ALQ-211 Advanced Integrated Defensive Electronic Warfare Suites (AIDEWS) or Advanced Countermeasures Electronic Systems (ACES) (ACES includes the ALQ-187 Electronic Warfare System and AN/ALR-93 Radar Warning Receiver), Advanced Identification Friend or Foe (AIFF) Systems with Mode IV, 34 Global Positioning Systems (GPS) and Embedded-GPS/Inertial Navigation Systems (INS), 18 AN/AAQ-33 SNIPER Targeting Pods or similarly capable system, 4 DB-110 Reconnaissance Pods (RECCE), 22 AN/ALE-47 Countermeasures Dispensing Systems (CMDS), and 35 ALE-50 Towed Decoys. Also included is the upgrade of the existing 12 F-16 Block 50/52 aircraft, site survey, support equipment, tanker support, ferry services, Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD), conformal fuel tanks, construction, modification kits, repair and return, modification kits, spares and repair parts, construction, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, ground based flight simulator, and other related elements of logistics support. The estimated cost is \$3.5 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide a significant increase in the Royal Air Force of Oman's (RAFO) capability to train with U.S. and coalition forces and augment coalition forces in a regional conflict. The F-16 Block 50/52 will enable Oman to support both its own air defense needs and coalition operations. Oman currently has 12 F-16s in its inventory and will have no difficulty absorbing these additional aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

BAE Advanced Systems	Greenlawn, New York
Boeing Company	Seattle, Washington
Boeing Integrated Defense Systems (three locations)	St Louis, Missouri Long Beach, California San Diego, California
Raytheon Company (two locations)	Lexington, Massachusetts Goleta, California
Raytheon Missile Systems	Tucson, Arizona
Lockheed Martin Aeronautics Company	Fort Worth, Texas
Lockheed Martin Missile and Fire Control	Dallas, Texas
Lockheed Martin Simulation, Training and Support	Fort Worth, Texas
Northrop-Grumman Electro-Optical Systems	Garland, Texas
Northrop-Grumman Electronic Systems	Baltimore, Maryland
Pratt & Whitney United Technology Company	East Hartford, Connecticut
General Electric Aircraft Engines	Cincinnati, Ohio
Goodrich ISR Systems	Danbury, Connecticut
L3 Communications	Arlington, Texas
ITT Defense Electronics and Services	McLean, Virginia
Symetrics Industries	Melbourne, Florida

There are no known offset agreements in connection with this proposed sale.

Implementation of this proposed sale will require multiple trips to Oman involving U.S. Government and contractor representatives for technical reviews/support, program management, and training over a period of 15 years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Israel – Unleaded Gasoline, JP-8 Aviation Jet Fuel, and Diesel Fuel

WASHINGTON, August 5, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Israel of unleaded gasoline, JP-8 aviation fuel and diesel fuel for an estimated cost of \$2 billion.

The Government of Israel has requested a possible sale of 60,000,000 gallons of unleaded gasoline, 284,000,000 gallons of JP-8 aviation jet fuel, and 100,000,000 gallons of diesel fuel. The estimated cost is \$2 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale of the JP-8 aviation fuel will enable Israel to maintain the operational capability of its aircraft inventory. The unleaded gasoline and diesel fuel will be used for ground forces' vehicles and other equipment used in keeping peace and security in the region. Israel will have no difficulty absorbing this additional fuel into its armed forces.

The proposed sale of these three types of fuel will not alter the basic military balance in the region.

The vendors are unknown at this time due to the competitive bid process for the supply source(s). There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Colombia – UH-60L BLACK HAWK Helicopters

WASHINGTON, August 5, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Colombia of 9 UH-60L Black Hawk Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$162 million.

The Government of Colombia has requested a possible sale of 9 UH-60L BLACK HAWK Helicopters (1 for Colombian Air Force, 4 for Colombian National Police, 4 for Colombian Army), 18 T700-GE-701D General Electric Engines, warranty, internal fuel tanks, spare and repair parts, tools and support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$162 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been and continues to be an important force for political stability and economic progress in South America.

Colombia intends to use these helicopters to modernize its armed forces. The Colombian Air Force intends to expand its existing medical evacuation architecture to expedite movement of injured personnel from combat zones. The Colombian National Police will expand its existing utility helicopter defense architecture and counter threats posed by narco-terrorist elements within Colombia. The purchase of UH-60L BLACK HAWK Helicopters will contribute to Colombia's goal to update its capability while enhancing interoperability between Colombia, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Sikorsky Aircraft Corporation in Stratford, Connecticut. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will require U.S. Government or contractor representatives to travel to Colombia for a period of 8 weeks for equipment deprocessing/fielding, system checkout and new equipment training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq – Technical Support Services

WASHINGTON, August 5, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq of contractor logistics support for various helicopters for an estimated cost of \$152 million.

The Government of Iraq has requested a possible sale of two years of contractor logistics support for Mi-17 Helicopters and two years of logistics support for U.S.-origin rotary wing aircraft not in DoD's inventory. The estimated cost is \$152 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

This proposed sale will advance Iraqi efforts to develop a strong national military and police force structure. The support and services will enable Iraq to equip new forces to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to bring stability to Iraq.

The proposed sale of this service will not alter the basic military balance in the region.

The prime contractor will be ARINC in Annapolis, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the assignment of multiple U.S. Government or contractor representatives to Iraq for a period of two years with an option to extend them for additional years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kuwait – MIM-104E PATRIOT Guidance Enhanced Missile-T (GEM-T)

WASHINGTON, Aug. 11, 2010 – The Defense Security Cooperation Agency notified Congress Aug. 10 of a possible Foreign Military Sale to Kuwait of 209 MIM-104E PATRIOT Guidance Enhanced Missile-T (GEM-T) Missiles for an estimated cost of \$900 million.

The Government of Kuwait has requested a possible sale of 209 MIM-104E PATRIOT Guidance Enhanced Missile-T (GEM-T) Missiles. The estimated cost is \$900 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

Kuwait needs these missiles to meet current and future threats of enemy air-to-ground weapons. Kuwait will use the increased capability as a deterrent to regional threats and to strengthen its homeland defense. Kuwait will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Corporation in Tewksbury, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kingdom of Saudi Arabia - Blanket Order Training Program

WASHINGTON, September 15, 2010 -- The Defense Security Cooperation Agency notified Congress on September 13 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia for continuation of a blanket order training program as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$350 million.

The Government of Saudi Arabia has requested a possible sale for the continuation of a blanket order training program inside and outside the Kingdom of Saudi Arabia that includes, but is not limited to, flight training, technical training, professional military education, specialized training, mobile training teams, and English Language training. Also provided are site surveys, trainers, simulators, program management, publications and technical documentation, personnel training and training equipment, U.S. government and contractor technical and logistical support services, and other related program requirements necessary to sustain a long-term CONUS training program. The estimated cost is \$350 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

Saudi Arabia intends to use the training to enhance its security posture and maintain its operational readiness. This will allow the Royal Saudi Air Force to develop and enhance standardization and operational capability, and interoperability with the USAF, Gulf Cooperation Council, and other coalition air forces. Saudi Arabia will have no difficulty absorbing these services into its armed forces.

The proposed sale of this service will not alter the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Iraq -Refurbishment of M113A2 Armored Personnel Carriers

WASHINGTON, September 15, 2010 -- The Defense Security Cooperation Agency notified Congress on September 14, of a possible Foreign Military Sale to Iraq for the refurbishment of 440 M113A2 Armored Personnel Carriers as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$131 million.

The Government of Iraq has requested a possible sale for the refurbishment of 440 M113A2 Armored Personnel Carriers, being offered as Excess Defense Articles, including installation of 440 M2 .50 Cal Machine Guns, 607 AN/VRC-90E Single Channel Ground and Airborne Radios Systems, M259 Smoke Grenade Launchers, and Combat Vehicle Crewmember Helmets. Also included are tools and test equipment, site survey, construction, spare and repairs parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics personnel services, and other related logistics and program support. The estimated cost is \$131 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale to refurbish the APCs will strengthen the effectiveness and interoperability of the Iraqi military, reduce Iraq's dependence on U.S. forces in the region and enhance any coalition operations the U.S. may undertake with Iraq. The Iraqi military will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of these vehicles will not alter the basic military balance in the region.

The prime contractor will be BAE Corporation in Rosslyn, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of multiple additional U.S. Government and contractor representatives to Iraq for a period of two years with an option for additional years for the purpose of fielding and training and quality assurance during equipment delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Pakistan - BELL 412EP Helicopters

WASHINGTON, September 15, 2010 -- The Defense Security Cooperation Agency notified Congress on 14 September of a possible Foreign Military Sale to Pakistan of BELL 412EP Helicopters as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$397 million.

The Government of Pakistan has requested a possible sale of up to thirty BELL 412EP Helicopters, spare and repair parts, support equipment, ferry services, air worthiness certification, publications and technical data, personnel training and training equipment, U.S. Government and contractor logistics, engineering, and technical support services, and other related elements of logistics support. The estimated cost is \$397 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for economic progress in South Asia and a partner in overseas contingency operations.

The proposed sale of the helicopters will increase Pakistan's air capabilities to execute counterinsurgency operations, border security, search and rescue, and support for the civilian population in Pakistan. Pakistan, which already has Bell 412EP Helicopters in its inventory, will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Bell Helicopter in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U. S. Government personnel in country. It is anticipated that two U.G. Government personnel will travel to Pakistan two times per year, one week per trip, for a period of up to five years to provide logistic support services.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Canada - AN/AAQ-24(V) Directional Infrared Countermeasure Systems

WASHINGTON, September 15, 2010 -- The Defense Security Cooperation Agency notified Congress on September 13, of a possible Foreign Military Sale to Canada of 8 AN/AAQ-24(V) Directional Infrared Countermeasure Systems (DIRCMs) as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$72 million.

The Government of Canada has requested a possible sale of 8 AN/AAQ-24(V) Directional Infrared Countermeasure Systems (DIRCMs), which consist of: 16 Small Laser Transmitter Assemblies (SLTA), 54 Missile Approach Warning Sensors AAR-54(V) (MAWS), 11 AN/AAQ-24(V) Processors, 12 AN/AAQ-24(V) Control Indicator Units, and 21 AAQ-24(V) Smart Cards; 2 SLTA, additional spare components which consist of 6 AAR-54(V) (MAWS), 1 AN/AAQ-24(V) Processors, 1 AN/AAQ-24(V) Control Indicator Units, and 4 AN/AAQ-24(V) Smart Cards; support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government (USG) and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$72 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a NATO ally that has been, and continues to be, an important force for political stability and economic progress in North America.

The upgrade of Canada's CH-47F CHINOOK helicopters with the DIRCM system will allow Canada to use this capability to enhance the survivability of its aircraft and crew for its medium-high lift helicopter (MHLH) mission at home and abroad. The upgraded CH-47F helicopters will be used during deployments into Afghanistan supporting coalition goals and U.S. national objectives. Canada, which already has AN/AAQ-24(V) systems as part of its CC177 (C-17 equivalent) fleet, will have no difficulty absorbing these additional systems.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Northrop Grumman Systems Corporation in Rolling Meadows, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Iraq – F-16 Aircraft

WASHINGTON, September 15, 2010 -- The Defense Security Cooperation Agency notified Congress on September 13 of a possible Foreign Military Sale to Iraq of 18 F-16IQ Aircraft as well as associated equipment and services. The total value, if all options are exercised, could be as high as \$4.2 billion.

The Government of Iraq has requested a possible sale of (18) F-16IQ aircraft, (24) F100-PW-229 or F110-GE-129 Increased Performance Engines, (36) LAU-129/A Common Rail Launchers, (24) APG-68(V)9 radar sets, (19) M61 20mm Vulcan Cannons, (200) AIM-9L/M-8/9 SIDEWINDER Missiles, (150) AIM-7M-F1/H SPARROW Missiles, (50) AGM-65D/G/H/K MAVERICK Air to Ground Missiles, (200) GBU-12 PAVEWAY II Laser Guided Bomb Units (500 pound), (50) GBU-10 PAVEWAY II Laser Guided Bomb Units (2000 pound), (50) GBU-24 PAVEWAY III Laser Guided Bomb Units (2000 pound), (22) Advanced Countermeasures Electronic Systems (ACES) (ACES includes the ALQ-187 Electronic Warfare System and AN/ALR-93 Radar Warning Receiver), (20) AN/APX-113 Advanced Identification Friend or Foe (AIFF) Systems (without Mode IV), (20) Global Positioning Systems (GPS) and Embedded GPS/Inertial Navigation Systems (INS), (Standard Positioning Service (SPS) commercial code only), (20) AN/AAQ-33 SNIPER or AN/AAQ-28 LITENING Targeting Pods, (4) F-9120 Advanced Airborne Reconnaissance Systems (AARS) or DB-110 Reconnaissance Pods (RECCE), (22) AN/ALE-47 Countermeasures Dispensing Systems (CMDS); (20) Conformal Fuel Tanks (pairs). Also included: site survey, support equipment, tanker support, ferry services, Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD), repair and return, modification kits, spares and repair parts, construction, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, ground based flight simulator, and other related elements of logistics support. The estimated cost is \$4.2 billion.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by enhancing the capability of Iraq. The proposed aircraft and accompanying weapon systems will greatly enhance Iraq's interoperability with the U.S. and other NATO nations, making it a more valuable partner in an important area of the world, as well as supporting Iraq's legitimate need for its own self-defense.

The proposed sale will allow the Iraqi Air Force to modernize its air force by acquiring western interoperable fighter aircraft, thereby enabling Iraq to support both its own air defense needs and coalition operations. The country will have no difficulty absorbing this new capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

BAE Advanced Systems	Greenlawn, New York
Boeing Corporation	Seattle, Washington
Boeing Integrated Defense Systems (three locations)	St Louis, Missouri
	Long Beach, California
	San Diego, California
Raytheon Company (two locations)	Lexington, Massachusetts
	Goleta, California
Raytheon Missile Systems	Tucson, Arizona
Lockheed Martin Aeronautics Company	Fort Worth, Texas
Lockheed Martin Missile and Fire Control	Dallas, Texas
Lockheed Martin Simulation, Training And Support	Fort Worth, Texas
Northrop-Grumman Electro-Optical Systems	Garland, Texas
Northrop-Grumman Electronic Systems	Baltimore, Maryland
Pratt & Whitney United Technology Company	East Hartford, Connecticut
General Electric Aircraft Engines	Cincinnati, Ohio
Goodrich ISR Systems	Danbury, Connecticut
L3 Communications	Arlington, Texas
ITT Defense Electronics and Services	McLean, Virginia
Symetrics Industries	Melbourne, Florida

There are no known offset agreements in connection with this proposed sale.

Implementation of this proposed sale will require multiple trips to Iraq involving U.S. Government and contractor representatives for technical reviews/support, program management, and training over a period of 15 years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law; it does not mean that the sale has been concluded.

Iraq – Contractor Technical Support for Iraqi Defense Network

WASHINGTON, September 24, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq of contractor technical support of the Iraqi Defense Network and associated parts and equipment for a complete package worth approximately \$98 million.

The Government of Iraq has requested a possible sale of contractor technical support for the development and maintenance of the Iraqi Defense Network. Also included are hardware and software, warranties, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$98 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

This proposed sale of technical support, network upgrades, training, and equipment will advance Iraq's efforts to develop a strong and dedicated military. The support and materials offered will provide Iraq with continued operational capability of their defense network. This will enable the Government of Iraq to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to establish stability to Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be ITT Corporation, Defense Electronics Services in McLean, Virginia, and the Harris Corporation in White Plains, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple U.S. contractor field service representatives to be stationed in country for a period of approximately three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq – Contractor Technical Support for the Mobile Communications Centers

WASHINGTON, September 24, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Iraq of contractor logistics support for Mobile Communications Centers and associated parts and equipment for a complete package worth approximately \$57 million.

The Government of Iraq has requested a possible sale of contractor technical support for the development and modification of Mobile Communications Centers that includes the design, supply and installation of all communication equipment. Also included are warranties, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$57 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the communication equipment will advance Iraq's efforts to develop a strong national policy authority and military. The communications equipment will provide Iraq with spares, training, and technical support for its existing communications network. This will enable the Government of Iraq to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to bring stability to Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be ITT Corporation, Defense Electronics Services in McLean, Virginia, and the Harris Corporation in White Plains, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple U.S. contractor field service representatives to be stationed in country for a period of approximately three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Kuwait C-17 GLOBEMASTER III Aircraft and Related Support

WASHINGTON, September 24, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Kuwait of one Boeing C-17 GLOBEMASTER III aircraft and associated parts, equipment and logistics support for a complete package worth approximately \$693 million.

The Government of Kuwait has requested a possible sale of one Boeing C-17 GLOBEMASTER III aircraft, four Turbofan F117-PW-100 engines installed on the aircraft, one spare Turbofan F117-PW-100 engine, one AN/ALE-47 Counter-Measures Dispensing System (CMDS), one AN/AAR-47 Missile Warning System, aircraft ferry services, refueling support, precision navigation equipment, spare and repairs parts, support, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$693 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a Major Non-NATO ally which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

This proposed sale will provide a long-range, strategic airlift capability to the Kuwaiti Air Force (KAF) allowing them to meet operational requirements. The KAF is tasked with relief support, humanitarian disaster and peacekeeping missions, as well as transporting dignitaries and cultural assets to various regional and international destinations. This proposed sale will further enhance its interoperability with the U.S. Air Force airlift system in the region. Kuwait will have no difficulty absorbing this aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

This prime contractor will be The Boeing Company in Chicago, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government or contractor representatives to Kuwait. The number required will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Sweden– UH-60M BLACKHAWK Helicopters

WASHINGTON, September 30, 2010 – The Defense Security Cooperation Agency notified Congress Sept. 29 of a possible Foreign Military Sale to Sweden of 15 UH-60M BLACKHAWK Helicopters and associated parts, equipment and logistical support for a complete package worth approximately \$546 million.

The Government of Sweden has requested a possible sale of 15 UH-60M BLACKHAWK Helicopters, 34 T700-GE-701D General Electric Engines (30 installed and 4 spares), 15 AN/AAR-57(V)3 Common Missile Warning Systems, AN/APR-39 Radar Signal Detecting Sets, AN/AVR-2B Laser Warning Sets, Aviation Mission Planning Station, transportable operations simulator, communications equipment, spare and repair parts, tools and support equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$546M.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been, and continues to be an important force for political stability and economic progress in Europe. Swedish forces are currently deployed in support of coalition efforts in Afghanistan. This sale will enable the Swedish Forces to address an urgent shortfall in Combat Search and Rescue and Medical Evacuation transport capability while in the area of operations.

Sweden's acquisition of these helicopters is consistent with recently adopted defense and modernization priorities focused on both international threats to Swedish security as well as regional threats to Swedish sovereignty. This proposed sale will contribute to Sweden's need to expand its existing army architecture to rapidly deploy forces to counter territorial threats, or in support of coalition efforts in Afghanistan. The purchase of UH-60M BLACKHAWK Helicopters will contribute to Sweden's goal to update its capability while enhancing interoperability between Sweden, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut; and General Electric Aircraft Company in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of at least two contractor representatives to Sweden for a period of two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Thailand – F-16 Mid-Life Upgrade

WASHINGTON, September 30, 2010 – The Defense Security Cooperation Agency notified Congress Sept. 29 of a possible Foreign Military Sale to Thailand of a three-phased program to upgrade 18 F-16A/B Block 15 aircraft with the Mid-Life Upgrade (MLU) and associated parts, equipment, and logistical support for a complete package worth approximately \$700 million.

The Government of Thailand has requested a possible sale of a three-phased program to upgrade 18 F-16A/B Block 15 aircraft with the Mid-Life Upgrade (MLU). Each phase will upgrade six aircraft over a three-year period, with each phase overlapping by one year. The MLU with Modular Mission Computer includes APG-68(V)9 Radar, APX-113 Combined Interrogator and Transponder, ALQ-213 Electronic Warfare Management System, ALE-47 Countermeasures Dispenser System, spare and repair parts, tools and support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$700 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally.

Thailand needs this MLU program in order to upgrade its aging F-16 fleet and to increase air sovereignty fighter aircraft effectiveness and interoperability with U.S. forces. The proposed sale will enhance the Royal Thailand Air Force's capability to conduct day, night, and adverse weather air defense operations. Thailand, which already has F-16s in its inventory, will have no difficulty absorbing these upgrades into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Aeronautics Company in Fort Worth, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Thailand.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Finland – M270 Multiple Launch Rocket System Upgrade

WASHINGTON, September 30, 2010 – The Defense Security Cooperation Agency notified Congress Sept. 29 of a possible Foreign Military Sale to Finland for the upgrade of (24) M270 Multiple Launch Rocket Systems and associated parts, equipment, and logistical support for a complete package worth approximately \$100 million.

The Government of Finland has requested the sale for the upgrade of (24) M270 Multiple Launch Rocket Systems (MLRS) to the Universal Fire Control System configuration, (1) M31 Guided Multiple Launch Rocket System Unitary, (1) Army Tactical Missile System T2K, (36) Ruggedized Memory Units, (25) Interface devices, (8) M68 to M68A2 trainers, tools, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$100 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a friendly nation that has been, and continues to be, an important force for political stability and economic progress in Europe.

Finland will use this equipment to modernize its armed forces by expanding its existing architecture to counter threats from potential attacks. This will contribute to the Finnish military's goal to update its capability while further enhancing interoperability among Finland, the U.S., and other allies. Finland, which already has M270 MLRS in its inventory, will have no difficulty absorbing these upgraded systems.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Industries in Camden, Arkansas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately ten U.S. Government or contractor representatives to travel to Finland for a period of up to one year for equipment de-processing/fielding, system checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-55

Australia – MK 54 Lightweight Torpedoes

WASHINGTON, October 4, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Australia of up to 200 MK 54 All-Up-Round Torpedoes, 179 MK 54 Flight in Air Material Kits, 10 MK 54 Exercise Sections, 10 MK 54 Exercise Fuel Tanks, 10 MK 54 Dummy Torpedoes and 6 MK 54 Ground Handling Torpedoes. The estimated cost is \$169 million.

The Government of Australia has requested a possible sale of up to 200 MK 54 All-Up-Round Torpedoes, 179 MK 54 Flight in Air Material Kits, 10 MK 54 Exercise Sections, 10 MK 54 Exercise Fuel Tanks, 10 MK 54 Dummy Torpedoes, 6 MK 54 Ground Handling Torpedoes, support and test equipment to upgrade Intermediate Maintenance Activity to MK 54 capability, spare and repair parts, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical and logistics support services, and other related elements of logistics support.

Australia, one of our most important allies in the Western Pacific, contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have served U.S. national security interests.

Australia intends to use the MK 54 torpedo on the Lockheed/Sikorsky MH-60R helicopter. Australia has significant experience with modern weapons systems, particularly the MK 46 Mod 5 (SW) torpedo. The MK 54 torpedo is an upgrade of the MK 46 torpedo.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Integrated Defense Systems in Tewksbury, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Singapore – F-16 Pilot Training

WASHINGTON, October 4, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Singapore of defined order training for a three-year pilot training program at the Tucson Air National Guard Base in Arizona. Training includes F-16 Basic, Transition, Conversion/International Advanced Weapons, and Instructor Pilot Upgrade courses.

The Government of Singapore has requested a possible sale of defined order training for a three-year pilot training program that specifies the number and type of pilot training slots with an option to extend at the Tucson Air National Guard Base in Arizona. Training includes F-16 Basic, Transition, Conversion/International Advanced Weapons, and Instructor Pilot Upgrade courses. Also included are related program requirements necessary to sustain a long-term CONUS training program. The estimated cost is \$150 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for economic progress in Southeast Asia. This proposed sale will augment the Republic of Singapore's self-defense capability and ensure interoperability with U.S. forces for coalition operations.

Singapore needs this training to develop mission-ready and experienced pilots to support its current and future F-16 aircraft inventory. The well-established pilot proficiency training program at Tucson ANGB will continue professional interaction and enhance operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-43

Saudi Arabia – F-15SA Aircraft

WASHINGTON, October 20, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Saudi Arabia of:

84	F-15SA Aircraft
170	APG-63(v)3 Active Electronically Scanned Array Radar (AESA) radar sets
193	F-110-GE-129 Improved Performance Engines
100	M61 Vulcan Cannons
100	Link-16 Multifunctional Information Distribution System/Low Volume Terminal (MIDS/LVT) and spares
193	LANTIRN Navigation Pods (3 rd Generation-Tiger Eye)
338	Joint Helmet Mounted Cueing Systems (JHMCS)
462	AN/AVS-9 Night Vision Goggles (NVGS)
300	AIM-9X SIDEWINDER Missiles
25	Captive Air Training Missiles (CATM-9X)
25	Special Air Training Missiles (NATM-9X)
500	AIM-120C/7 Advanced Medium Range Air-to-Air Missiles (AMRAAM)
25	AIM-120 CATMs
1,000	Dual Mode Laser/Global Positioning System (GPS) Guided Munitions (500 lb)
1,000	Dual Mode Laser/GPS Guided Munitions (2000 lb)
1,100	GBU-24 PAVEWAY III Laser Guided Bombs (2000 lb)
1,000	GBU-31B V3 Joint Direct Attack Munitions (JDAM) (2000 lb)
1,300	CBU-105D/B Sensor Fuzed Weapons (SFW)/Wind Corrected Munitions Dispenser (WCMD)
50	CBU-105 Inert
1,000	MK-82 500lb General Purpose Bombs
6,000	MK-82 500lb Inert Training Bombs
2,000	MK-84 2000lb General Purpose Bombs
2,000	MK-84 2000lb Inert Training Bombs
200,000	20mm Cartridges
400,000	20mm Target Practice Cartridges
400	AGM-84 Block II HARPOON Missiles
600	AGM-88B HARM Missiles

169	Digital Electronic Warfare Systems (DEWS)
158	AN/AAQ-33 Sniper Targeting Systems
169	AN/AAS-42 Infrared Search and Track (IRST) Systems
10	DB-110 Reconnaissance Pods
462	Joint Helmet Mounted Cueing System Helmets
40	Remotely Operated Video Enhanced Receivers (ROVER)
80	Air Combat Maneuvering Instrumentation Pods

Also included are the upgrade of the existing Royal Saudi Air Force (RSAF) fleet of seventy (70) F-15S multi-role fighters to the F-15SA configuration, the provision for CONUS-based fighter training operations for a twelve (12) F-15SA contingent, construction, refurbishments, and infrastructure improvements of several support facilities for the F-15SA in-Kingdom and/or CONUS operations, RR-188 Chaff, MJU-7/10 Flares, training munitions, Cartridge Actuated Devices/Propellant Actuated Devices, communication security, site surveys, trainers, simulators, publications and technical documentation, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistical support services, and other related elements of logistical and program support. The estimated cost is \$29.432 billion.

This proposed sale will enhance the foreign policy and national security objectives of the United States by strengthening our on-going strategically important relationship with the Kingdom of Saudi Arabia (KSA).

For the past twenty years the F-15 has been a cornerstone of the relationship between the U.S. Air Force (USAF) and the RSAF. The procurement of the F-15SA, the conversion of the F-15S fleet to a common configuration, and the CONUS training contingent will provide interoperability, sustained professional contacts, and common ground for training and support well into the 21st century.

The F-15SA will help deter potential aggressors by increasing Saudi's tactical air force capability to defend KSA against regional threats. The CONUS-based contingent would improve interoperability between the USAF and the RSAF. This approach will meet Saudi's self-defense requirements and continue to foster the long-term military-to-military relationship between the United States and the KSA. Saudi Arabia, which currently has the F-15 in its inventory, will have no difficulty absorbing the F-15SA aircraft into its armed forces.

The proposed sale of this service will not alter the basic military balance in the region.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Saudi Arabia – AH-64D Longbow Helicopters, Engines and Night Vision Sensors

WASHINGTON, October 20, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Saudi Arabia of:

- 10 AH-64D Block III APACHE Longbow Helicopters
- 28 T700-GE-701D Engines
- 13 Modernized Targeting Acquisition and Designation Systems/Pilot Night Vision Sensors
- 7 AN/APG-78 Fire Control Radars with Radar Electronics Unit (Longbow Component)
- 7 AN/APR-48A Radar Frequency Interferometer
- 13 AN/APR-39 Radar Signal Detecting Sets
- 13 AN/AVR-2B Laser Warning Sets
- 13 AAR-57(V)3/5 Common Missile Warning Systems
- 26 Improved Countermeasures Dispensers
- 26 Improved Helmet Display Sight Systems
- 14 30mm Automatic Weapons
- 6 Aircraft Ground Power Units
- 14 AN/AVS-9 Night Vision Goggles
- 640 AGM-114R HELLFIRE II Missiles
- 2,000 2.75 in 70mm Laser Guided Rockets
- 307 AN/PRQ-7 Combat Survivor Evader Locators
- 1 BS-1 Enhanced Terminal Voice Switch
- 1 Fixed-Base Precision Approach Radar
- 1 Digital Airport Surveillance Radar
- 1 DoD Advanced Automation Service
- 1 Digital Voice Recording System

Also included are trainers, simulators, generators, training munitions, design and construction, transportation, tools and test equipment, ground and air based SATCOM and line of sight communication equipment, Identification Friend or Foe (IFF) systems, GPS/INS, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of program support. The estimated cost is \$2.223 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The Saudi Arabian Royal Guard will use the AH-64D to improve its ability to effectively protect its borders, and vital installations. This sale also will increase the Royal Guard's APACHE sustainability and interoperability with the U.S. Army, the Gulf Cooperation Council countries, and other coalition forces. Saudi Arabia will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be:

The Boeing Company	Mesa, Arizona
Lockheed Martin Corporation	Orlando, Florida
General Electric Company	Cincinnati, Ohio
Lockheed Martin Millimeter Technology	Owego, New York
Longbow Limited Liability Corporation	Orlando, Florida

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of an additional 35 U.S. Government and 150 contractor representatives to Saudi Arabia. At present, there are approximately 250 U.S. Government personnel and 630 contractor representatives in Saudi Arabia supporting the modernization program. Also, this program will require multiple trips to Saudi Arabia involving U.S. government and contractor personnel to participate in annual, technical reviews, training, and one-week Program Reviews in Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

- 20 AN/APG-78 Fire Control Radars with Radar Electronics Unit
- 20 AN/APR-48A Radar Frequency Interferometer
- 171 AN/APR-39 Radar Signal Detecting Sets
- 171 AN/AVR-2B Laser Warning Sets
- 171 AAR-57(V)3/5 Common Missile Warning Systems
- 318 Improved Countermeasures Dispensers
- 40 Wescam MX-15Di (AN/AAQ-35) Sight/Targeting Sensors
- 40 GAU-19/A 12.7mm (.50 caliber) Gatling Guns
- 108 Improved Helmet Display Sight Systems
- 52 30mm Automatic Weapons
- 18 Aircraft Ground Power Units
- 168 M240H Machine Guns
- 300 AN/AVS-9 Night Vision Goggles
- 421 M310 A1 Modernized Launchers
- 158 M299 HELLFIRE Longbow Missile Launchers
- 2,592 AGM-114R HELLFIRE II Missiles
- 1,229 AN/PRQ-7 Combat Survivor Evader Locators
- 4 BS-1 Enhanced Terminal Voice Switches
- 4 Digital Airport Surveillance Radars
- 4 Fixed-Base Precision Approach Radar
- 4 DoD Advanced Automation Service
- 4 Digital Voice Recording System

Also included are trainers, simulators, generators, munitions, design and construction, transportation, wheeled vehicles and organization equipment, tools and test equipment, communication equipment, Identification Friend or Foe (IFF) systems, GPS/INS, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of program support. The estimated cost is \$25.6 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Saudi Arabian National Guard will use the AH-64D for its national security and protecting its borders and oil infrastructure. The proposed sale will provide for the defense of vital installations and will provide close air support for the Saudi military ground forces. This sale also will increase the Saudi National Guard's APACHE sustainability and interoperability with the U.S. Army, the Gulf Cooperation Council countries, and other coalition forces. Saudi Arabia will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be:

The Boeing Company	Mesa, Arizona
Lockheed Martin Corporation	Orlando, Florida
Sikorsky Aircraft	West Palm Beach, Florida
MD Helicopters	Mesa Arizona
General Electric Company	Cincinnati, Ohio
Lockheed Martin Millimeter Technology	Owego, New York
Longbow Limited Liability Corporation	Orlando, Florida
ITT Aerospace/Communications	Fort Wayne, Indiana

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale requires the assignment of approximately 900 contractor representatives and 30 U.S. Government personnel on a full time basis in Saudi Arabia for a period of 15 years. Also, this program will require multiple trips to Saudi Arabia involving U.S. government and contractor personnel to participate in annual, technical reviews, training, and one-week Program Reviews in Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Australia – SM-2 Block IIIB STANDARD Missiles

WASHINGTON, October 26, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Australia of 17 SM-2 Block IIIB STANDARD Warhead Compatible Telemetry missiles and associated equipment, parts, training and logistical support for an estimated cost of \$46 million.

The Government of Australia has requested a possible sale of 17 SM-2 Block IIIB STANDARD Warhead Compatible Telemetry missiles, including AN/DKT-71 Telemeters and assembly kits, spare and repair parts, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical and logistics support services, and other related elements of logistics support. The estimated cost is \$46 million.

Australia is one of our most important allies in the Western Pacific and contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

The proposed sale of SM-2 Block IIIB STANDARD missiles will be used for anti-air warfare test firings during Combat Systems Ship Qualification Trials for the Royal Australian Navy's three new Air Warfare Destroyers, currently under construction. Australia, which has already integrated the SM-2 Block IIIA, will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Raytheon Missile Systems Company in Tucson, Arizona, The Raytheon Company in Camden, Arkansas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Japan – SM-2 Block IIIB STANDARD Missiles

WASHINGTON, October 26, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Japan of 13 SM-2 Block IIIB Tactical STANDARD missiles and associated equipment, parts, training and logistical support for an estimated cost of \$33 million.

The Government of Japan has requested a possible sale of, 13 AN/DKT-71A Telemeters, conversion kits, containers, spare and repair parts, support equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$33 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. It is vital to the U.S. national interest to assist Japan to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with these U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The SM-2 missiles will be used on the Japanese Maritime Self Defense Force fleet and will provide enhanced capabilities in providing defense of critical sea-lanes of communication. Japan has already integrated the SM-2 Block IIIB missiles into its ship combat systems. It maintains two Intermediate-Level Maintenance Depots capable of maintaining and supporting the SM-2. Japan will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors are Raytheon Missiles Systems Company in Tucson, Arizona, Raytheon Company in Camden, Arkansas, and United Defense, Limited Partnership in Aberdeen, South Dakota. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require any additional U.S. Government or contractor representatives in Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**United Arab Emirates – Army Tactical Missile Systems (ATACMS)
T2K Unitary Missiles/Low Cost Reduced-Range Practice Rockets**

WASHINGTON, November 4, 2010 – The Defense Security Cooperation Agency notified Congress November 3 of a possible Foreign Military Sale to the Government of the United Arab Emirates of 100 Army Tactical Missile Systems (ATACMS) and 60 Low Cost Reduced-Range Practice Rockets (LCRRPR), as well as associated equipment, training and logistical support for a total package worth approximately \$140 million.

The Government of the United Arab Emirates has requested a possible sale of 100 Army Tactical Missile Systems (ATACMS), 60 Low Cost Reduced-Range Practice Rockets (LCRRPR), publications and technical documentation, training, U.S. government and contractor technical and engineering support, and other related elements of program support. The estimated cost is \$140 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The United Arab Emirates intends to use these defense articles and services to modernize its armed forces and expand existing army architecture to counter threats posed by potential attack. This will contribute to the UAE military's goal of updating capability while further enhancing interoperability with the U.S. and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Industries located in Horizon City, Texas and Camden, Arkansas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of up to 10 U.S. government or contractor representatives to travel to the United Arab Emirates for a period of up to one year for equipment de-processing/fielding, system checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Bahrain – Army Tactical Missile Systems T2K Unitary

WASHINGTON, November 4, 2010 – The Defense Security Cooperation Agency notified Congress November 3 of a possible Foreign Military Sale to Bahrain of 30 Army Tactical Missile Systems (ATACMS) T2K Unitary Missiles and associated parts, equipment, training and logistical support for a complete package worth approximately \$70 million.

The Government of Bahrain has requested a possible sale of 30 Army Tactical Missile Systems (ATACMS) T2K Unitary Missiles, Missile Common Test Device software, ATACMS Quality Assurance Team support, publications and technical documentation, training, U.S. government and contractor technical and engineering support, and other related elements of program support. The estimated cost is \$70 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

Bahrain intends to use these defense articles and services to modernize its armed forces. The Bahrain Defense Forces intends to expand its existing army architecture to counter major regional threats. This will contribute to the Bahrain military's goal of modernizing its capability while further enhancing interoperability with the U.S. and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Industries in Camden, Arkansas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately three government or contractor representatives to travel to Bahrain for a period of two weeks for equipment de-processing/fielding, system checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

United Arab Emirates – AH-64D Block III APACHE Helicopters

WASHINGTON, November 4, 2010 – The Defense Security Cooperation Agency notified Congress November 3 of a possible Foreign Military Sale to the United Arab Emirates of 30 AH-64D Block II lot 10 APACHE helicopters, remanufactured to AH-64D Block III configuration and 30 AH-64D Block III APACHE helicopters, as well as associated parts, equipment, training and logistical support for a complete package worth approximately \$5.0 billion.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 30 AH-64D Block II lot 10 APACHE helicopters, remanufactured to AH-64D Block III configuration, 30 AH-64D Block III APACHE helicopters, 120 T700-GE-701D engines, 76 Modernized Target Acquisition and Designation Sight/Modernized Pilot Night Vision Sensors, 70 AN/APG-78 Fire Control Radars with Radar Electronics Units, 70 AN/ALQ-144A(V)3 Infrared Jammers, 70 AN/APR-39A(V)4 Radar Signal Detecting Sets, 70 AN/ALQ-136(V)5 Radar Jammers, 70 AAR-57(V)3/5 Common Missile Warning Systems, 30mm automatic weapons, improved counter measure dispensers, communication and support equipment, improved helmet display sight systems, trainer upgrades, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$5.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East. The UAE is currently deployed in support of U.S. regional operations, and plans to provide future deployment support.

The UAE needs these helicopters to fulfill its strategic commitments for self defense, with coalition support, in the region. The helicopters will provide the UAE military more advanced targeting and engagement capabilities. The proposed sale will provide for the defense of vital installations and will provide close air support for military ground forces. The UAE, which currently has AH-64Ds in its inventory, will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in Mesa, Arizona, and Lockheed Martin Corporation in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of additional U.S. Government or contractor representatives to the UAE. U.S. Government and contractor representatives will also participate in program management and technical reviews for one-week intervals, twice semi-annually.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Kingdom of Saudi Arabia – JAVELIN Missiles

WASHINGTON, November 18, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Saudi Arabia of 150 JAVELIN Guided Missiles and associated equipment, parts and logistical support for a complete package worth \$71 million.

The Kingdom of Saudi Arabia has requested a possible sale of 150 JAVELIN Guided Missiles, 12 Fly-to-Buy Missiles, 20 JAVELIN Command Launch Units (CLUs) with Integrated Day/Thermal Sight, containers, missile simulation rounds, Enhanced Producibility Basic Skills Trainer (EPBST), rechargeable and non-rechargeable batteries, battery dischargers, chargers, and coolant units, support equipment, spare and repair parts, publications and technical data, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support. The estimated cost is \$71 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Saudi Arabia's capability to meet current and future threats. Saudi Arabia will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Saudi Arabia currently does not have JAVELIN Anti-tank missiles in its inventory, but will have no difficulty absorbing these additional missiles.

The proposed sale of these defense articles to the Kingdom of Saudi Arabia will not alter the basic military balance in the region.

The prime contractors will be Javelin Joint Venture of Raytheon in Tucson, Arizona, and Lockheed Martin, in Orlando Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the Kingdom of Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Oman – Logistics Support and Training for one C-130J-30

WASHINGTON, November 18, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Oman of logistics support and training for one C-130J-30 aircraft being procured through a Direct Commercial Sale and associated equipment, parts and logistical support for a complete package worth approximately \$76 million.

The Government of Oman has requested a possible sale of logistics support and training for one C-130J-30 aircraft being procured through a Direct Commercial Sale, 1 AN/AAQ-24(V) Large Aircraft Infrared Countermeasures System, 7 AN/AAR-54 Missile Approach Warning Systems, 2 AN/ALR-56M Radar Warning Receivers, 2 AN/ALE-47 Countermeasure Dispenser Sets, communication and navigation equipment, software support, repair and return, installation, aircraft ferry and refueling support, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and related elements of logistical and program support. The estimated cost is \$76 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide Oman the capability to meet current and future regional threats to the Sultanate of Oman. The support for the additional C-130J-30 aircraft will ensure operational capability and will facilitate movement within the region, as well as, support U.S interests. The Royal Flight of Oman currently operates two Boeing 747s and one Airbus A320 aircraft and will have no difficulty absorbing the support case for this aircraft into its armed forces. The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Northrop Grumman Corporation in Rolling Meadows, Illinois. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Oman involving up to ten U.S. Government and ten contractor representatives for technical reviews/support, and program management for a period of approximately six years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Japan – Mission Equipment for AWACS Aircraft

WASHINGTON, November 30, 2010 – The Defense Security Cooperation Agency notified Congress November 29 of a possible Foreign Military Sale to the Government of Japan for installation and checkout of mission equipment for AWACS aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$119 million.

The Government of Japan has requested installation and checkout of four previously procured Radar System Improvement Program (RSIP) Group A and B kits in E-767 Airborne Warning and Control Systems (AWACS). Also provided are the transportation of the E-767s to/from Japan, spare and repair parts, support and test equipment, publications and technical documentation, U.S. Government and contractor personnel support services, and other related program elements to ensure complete AWACS mission equipment supportability. The estimated cost is \$119 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist Japan with developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the region. The proposed sale is consistent with U.S. objectives and the 1960 Treaty of Mutual Cooperation and Security.

Japan previously purchased four sets of AWACS RSIP Group A and B kits mission equipment to enhance the operational capability of its E-767 radar electronic counter-measures, and now requires this Installation and Checkout to integrate extended Airborne Early Warning (AEW) capability as well as enhanced command, control and communications (C3).

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Boeing Aerospace Company in Seattle, Washington. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Japan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Iraq – Command, Control, Communications, Computers, Intelligence,
Surveillance and Reconnaissance (C4ISR) Systems**

WASHINGTON, November 30, 2010 – The Defense Security Cooperation Agency notified Congress November 29 of a possible Foreign Military Sale to Iraq of Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) Systems and associated parts and equipment for a complete package worth approximately \$68 million.

The Government of Iraq has requested a possible sale for Command, Control, Communications, Computers, Intelligence, Surveillance and Reconnaissance (C4ISR) Systems which includes, High Frequency, Ultra High Frequency, and Very High Frequency radios, Automatic Identification System, Surface Scan Radar System, Forward Looking Infrared System, Situational Display System, Mobile and Fixed Towers, Electro-Optical Cameras, Voice Over Internet Protocol, K Under Band Very Small Aperture Terminal upgrades, generators, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related logistical support. The estimated cost is \$68 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the C4ISR system will ensure that the Iraqi Naval Force (INF) is better able to efficiently use its vessels and manpower to police Iraqi territorial waters and protect its strategic maritime assets. The C4ISR system will enable the Iraqi Government to assume more responsibility for its security and rely less on U.S. and coalition forces to establish stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Raytheon Company in Waltham, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of three U.S. Government and four contractor representatives to Iraq for one month for the purpose of fielding and training and quality assurance during equipment delivery.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Iraq – M1A1 Abrams Tank Ammunition

WASHINGTON, November 30, 2010 – The Defense Security Cooperation Agency notified Congress November 29 of a possible Foreign Military Sale to Iraq of M1A1 Abrams Tank Ammunition for an estimated cost of \$36 million.

The Government of Iraq has requested a possible sale of 14,010 TP-T M831A1 120mm Cartridges, 16,110 TPCSDS-T M865 120mm Cartridges, and 3,510 HEAT-MP-T M830A1 120mm Cartridges. The estimated cost is \$36 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the ammunition and support will advance Iraq's efforts to develop an integrated ground defense capability, a strong national defense, and a dedicated military force. This will enable the Iraqi Government to sustain its efforts to establish stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Dynamics-Ordnance Tactical Systems in St Petersburg, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of U.S. Government and contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Denmark – MH-60R Multi-Mission Helicopters

WASHINGTON, November 30, 2010 – The Defense Security Cooperation Agency notified Congress November 29 of a possible Foreign Military Sale to Denmark of 12 MH-60R SEAHAWK Multi-Mission Helicopters and associated parts, equipment and logistical support for an estimated cost of \$2.0 billion.

The Government of Denmark has requested a possible sale of 12 MH-60R SEAHAWK Multi-Mission Helicopters, 27 T-700 GE 401C Engines (24 installed and 3 spares), communication equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$2.0 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally which has been, and continues to be, an important force for political and economic stability in Europe.

The proposed sale of the MH-60R SEAHAWK helicopters will improve Denmark's anti-submarine and surface warfare capability and provide an improved search and rescue and anti-ship surveillance capability and to carry out international commitments for transport, surveillance, and search and rescue operations with the United States and other allies. . Denmark will also use these aircraft to strengthen its homeland defense and protect critical infrastructure. Denmark, which currently operates Augusta Westland Lynx helicopters, will have no difficulty absorbing these additional helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut, Lockheed Martin in Owego, New York, General Electric in Lynn, Massachusetts, and the Raytheon Corporation in Portsmouth, Rhode Island. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of ten contractor representatives to Denmark on an intermittent basis over the life of the case to support delivery of the MH-60R helicopters and provide support and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Switzerland – AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM)

WASHINGTON, December 21, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Switzerland of 150 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 6 AIM-120C-7 Telemetry Missiles, and associated parts, equipment, training and logistical support for a complete package worth approximately \$358 million.

The Government of Switzerland has requested the purchase of 150 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 6 AIM-120C-7 Telemetry Missiles, 24 AIM-120C-7 Captive Air Training Missiles, 1 spare Missile Guidance Section, missile containers, weapon system support equipment, spare and repair parts, publications and technical documents, repair and return, depot maintenance, training and training equipment, U.S. Government and contractor technical support services, and other related elements of logistics and program support. The estimated cost is \$358 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country, which has been, and continues to be an important force for political stability and economic progress in Europe.

Switzerland intends to use the AMRAAM missiles on its existing fleet of F/A-18 aircraft. The sale of AMRAAM tactical missiles gives Switzerland credible territorial defense capability by increasing its sustainment capability during defensive operations, and extending the overall lifespan of its missile inventory. Switzerland, which already has AMRAAM missiles in its inventory, will have no difficulty absorbing these additional missiles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Raytheon Missile Systems Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Switzerland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

India – AGM-84L HARPOON Block II Missiles

WASHINGTON, December 21, 2010 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of India of 21 AGM-84L HARPOON Block II Missiles and associated equipment, parts and logistical support for a complete package worth approximately \$200 million.

The Government of India has requested a possible sale of 21 AGM-84L HARPOON Block II Missiles, 5 ATM-84L HARPOON Block II Training Missiles, Captive Air Training Missiles, containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

India intends to use the missiles on its Indian Navy P-8I Neptune maritime patrol aircraft which will provide enhanced capabilities in effective defense of critical sea lines of communication. India has already purchased HARPOON Block II missiles for integration on the Indian Air Force Jaguar aircraft and will have no difficulty absorbing these weapons into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in St. Louis, Missouri, and Delex Systems Incorporated in Vienna, Virginia. Details of a potential offset agreement in connection with the proposed sale are not known as of the date of this transmittal.

Implementation of this proposed sale will require annual trips to India involving U.S. Government and contractor representatives for technical reviews, support, and oversight on for approximately five years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-62

India – Support for Direct Commercial Sale of AH-64D Block III APACHE Helicopters

WASHINGTON, December 27, 2010 – The Defense Security Cooperation Agency notified Congress on December 22 of a possible Foreign Military Sale to the Government of India of various engines, equipment, weapons, training, parts and logistical support for a possible Direct Commercial Sale of 22 AH-64D Block III Apache helicopters. The complete package is worth approximately \$1.4 billion.

The Government of India has requested proposals from several foreign suppliers, including the United States, to provide the next generation attack helicopter for the Indian Air Force. In this competition, the Government of India has yet to select the Boeing-United States Army proposal. This notification is being made in advance so that, in the event that the Boeing- U.S. Army proposal is selected, the United States might move as quickly as possible to implement the sale. If the Government of India selects the Boeing-U.S. Army proposal, the Government of India will request a possible sale of 50 T700-GE-701D engines, 12 AN/APG-78 Fire Control Radars, 12 AN/APR-48A Radar Frequency Interferometers, 812 AGM-114L-3 HELLFIRE LONGBOW missiles, 542 AGM-114R-3 HELLFIRE II missiles, 245 STINGER Block I-92H missiles, and 23 Modernized Target Acquisition Designation Sight/Pilot Night Vision Sensors, rockets, training and dummy missiles, 30mm ammunition, transponders, simulators, global positioning system/inertial navigation systems, communication equipment, spare and repair parts; tools and test equipment, support equipment, repair and return support, personnel training and training equipment; publications and technical documentation, U.S. Government and contractor engineering and logistics support services; and other related elements of logistics support to be provided in conjunction with a proposed direct commercial sale of 22 AH-64D Block III APACHE Helicopters. The estimated cost is \$1.4 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of an important partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

The proposed sale in support of AH-64D helicopters will improve India's capability to strengthen its homeland defense and deter regional threats. This support for the AH-64D will provide an incremental increase in India's defensive capability to counter ground-armored threats and modernize its armed forces. India will have no difficulty absorbing this helicopter support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Lockheed Martin Corporation in Orlando, Florida; General Electric Company, in Cincinnati Ohio; Lockheed Martin Mission Systems and Sensor in Owego, New York; Longbow Limited Liability Corporation in Orlando, Florida; and Raytheon Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of one U.S. Government and seven contractor representatives to India for one week to conduct a detailed discussion of the various aspects of the hybrid program with Government of India representatives.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
