Transmittal No. 11-05

## **Australia – Sustainment for MH-60R Multi-Mission Helicopters**

WASHINGTON, Feb. 2, 2011 – The Defense Security Cooperation Agency notified Congress Feb. 1 of a possible Foreign Military Sale to Australia of a 10-year Through-Life-Support (TLS) for 24 MH-60R Multi-Mission Helicopters, and associated equipment, parts, and logistical support for an estimated cost of \$1.6 billion.

The Government of Australia has requested a possible sale of ten year Through-Life-Support (TLS) for (24) MH-60R Multi-Mission Helicopters. The sustainment effort will include spare and repair parts provisioning, support and test equipment, publications and technical documentation, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$1.6 billion.

Australia, one of our most important allies in the Western Pacific, contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations in Iraq and in Afghanistan have served U.S. national security interests.

The proposed sale will provide Australia the resources necessary to properly maintain its 24 MH-60R helicopters. Australia, which already has S-70B helicopters in its inventory, will have no difficulty performing the actions necessary to properly sustain these additional helicopters.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Sikorsky Aircraft Corporation of Stratford, Connecticut; Lockheed Martin of Owego, New York; GE of Lynn, Massachusetts; and the Raytheon Corporation of Portsmouth, Rhode Island. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require temporary assignment of approximately 20 U.S. Government and contractor representatives to Australia on an intermittent basis over the life of the case.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-10

**Australia – C-17 GLOBEMASTER III Aircraft**

WASHINGTON, March 9, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Australia of a C-17 GLOBEMASTER III aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$300 million.

The Government of Australia has requested a possible sale of one C-17 GLOBEMASTER III aircraft, up to four Pratt & Whitney F117-PW-100 engines, one AN/AAQ-24V(13) Large Aircraft Infrared Countermeasures (LAIRCM) System, spare and repair parts, supply and test equipment, personnel training and training equipment, publications and technical documentation, United States Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$300 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in operations Iraqi and Enduring Freedom, peacekeeping, and humanitarian operations have made a significant impact on regional, political, and economic stability and have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

Australia currently has a heavy airlift capability comprised of four C-17As. This additional C-17 will further improve Australia's capability to rapidly deploy in support of global coalition operations and will also greatly enhance its ability to lead regional humanitarian/peacekeeping operations such as its current response to the Queensland flooding, cyclone aftermath and the New Zealand Earthquake.

Australia has the ability to absorb and employ the additional C-17. The C-17 fleet is based at Royal Australian Air Force (RAAF) Base Amberley. RAAF Base Amberley is the primary base for airlift and tanker aircraft and is currently undergoing the infrastructure upgrades required to support the C-17 and other large aircraft Australia already received or is under contract to purchase.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-06

**Canada – 36 MK-48 Mod 7 Advanced Technology (AT)  
Torpedo Conversion Kits**

WASHINGTON, March 23, 2011 – The Defense Security Cooperation Agency notified Congress March 17 of a possible Foreign Military Sale to the Government of Canada of 36 MK-48 Mod 7 Advanced Technology (AT) Torpedo Conversion Kits and associated equipment, parts, training and logistical support for an estimated cost of \$125 million.

The Government of Canada has requested the sale of 36 MK-48 Mod 7 Advanced Technology (AT) Torpedo Conversion Kits, containers, spare and repair parts, weapon system support & integration, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical, and logistics support services, and other related elements of logistical support. These kits will upgrade their existing MK-48 torpedoes from Mod 4 to Mod 7. The estimated cost is \$125 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a NATO ally that has been, and continues to be a key democratic partner of the United States in ensuring peace and stability.

Canada intends to use the MK 48 7AT torpedo on their Victoria Class diesel submarines (former UK Upholder class). Canada has significant experience with modern weapon systems, particularly the MK 48 Mod 4/4M and MK 46 5A(S)W Torpedoes. Canada also has capable infrastructure and experience in maintaining and supporting advanced torpedoes. Canada, which already has the MK 48 Mod 7AT Torpedo in its inventory, will have no difficulty absorbing these additional conversion kits.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors for this sale are not known at this time. This sale will be part of a new contractor competition. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Greece – Cooperative Logistics Supply Support Agreement**  
**Foreign Military Sale Order II Support**

WASHINGTON, March 29, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale Order to the Government of Greece to provide funds for blanket order requisitions FMSO II, under the Cooperative Logistics Supply Support Agreement (CLSSA) for spare parts in support of Hellenic Air Force aircraft. The estimated cost is \$160 million.

The Government of Greece requests a Foreign Military Sale Order (FMSO) to provide funds for blanket order requisitions FMSO II, under the Cooperative Logistics Supply Support Agreement (CLSSA) for spare parts in support of F-16, E/RF-4E, C-130H/B, C-27J, T-6A/C, and other aircraft with systems/subsystems of U.S. origin in the inventory of the Hellenic Air Force. The estimated cost is \$160 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

The uninterrupted supply of spare parts will allow Greece to keep its aircraft fleet at the highest state of readiness

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Procurement of these items will be from many contractors providing similar items to the U.S. forces. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. government or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-25

**United Arab Emirates – AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, April 19, 2011 – The Defense Security Cooperation Agency notified Congress Monday of a possible Foreign Military Sale to the Government of the United Arab Emirates of 218 AIM-9X-2 SIDEWINDER Block II Tactical Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$251 million.

The Government of the United Arab Emirates has requested a possible sale of 218 AIM-9X-2 SIDEWINDER Block II Tactical Missiles, 40 CATM-9X-2 Captive Air Training Missiles (CATMs), 18 AIM-9X-2 WGU-51/B Tactical Guidance Units, 8 CATM-9X-2 WGU-51/B Guidance Units, 8 Dummy Air Training Missiles, containers, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$251 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of the weapons will allow the United Arab Emirates to deploy aircraft to materially assist the U.S. in overseas contingency operations. The weapons will strengthen the effectiveness and interoperability of a potential coalition partner, reduce the dependence on U.S. forces in the region, and enhance any coalition operations the U.S. may undertake. The United Arab Emirates will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be the Raytheon Missiles Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-06

## **Iraq – AN/TPQ-36(V)10 FIREFINDER Radars**

WASHINGTON, March 30, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Iraq of six AN/TPQ-36(V)10 FIREFINDER Radar Systems, 18 AN/TPQ-48 Light Weight Counter-Mortar Radars and associated equipment, parts, training and logistical support for an estimated cost of \$299 million.

The Government of Iraq has requested a possible sale of 6 AN/TPQ-36(V)10 FIREFINDER Radar Systems, 18 AN/TPQ-48 Light Weight Counter-Mortar Radars, 3 Meteorological Measuring Sets, 36 export variant Single Channel Ground and Airborne Radio Systems, 6 Advanced Field Artillery Tactical Data Systems, 3 Position and Azimuth Determining Systems, government furnished equipment, common hardware and software, communication support equipment, tools and test equipment, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$299 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the FIREFINDER radars will advance Iraq's efforts to develop an integrated ground defense capability and to develop a strong and dedicated military force. The FIREFINDER radars will enable Iraq to assume some of the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to establish stability to Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Thales Raytheon Systems in Fullerton, California, Northrop Grumman in Los Angeles, California, Smith-Detection Technologies in Edgewood, Maryland, ITT Corporation, Defense Electronics Services in McLean, Virginia, Raytheon Company in Waltham, Massachusetts, L-3 Communications in New York, New York, and SRCtec, Incorporated in North Syracuse, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government or contractor representatives to travel to Iraq for up to three years for equipment de-processing/fielding, system checkout, new equipment training, and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Greece – Spare Parts and Services for F-16 Aircraft**

WASHINGTON, April 29, 2011 – The Defense Security Cooperation Agency notified Congress Monday of a possible Foreign Military Sale to the Government of Greece of spare parts and services for its F-16 aircraft, as well as associated equipment, parts, training and logistical support for an estimated cost of \$100 million.

The Government of Greece requests spare parts and services for F100-PW-229 engines for Hellenic Air Force F-16 aircraft, to include: Inlet/Fan Modules, Core Engine Modules, Rear Compressor Drive Turbines, Fan Drive Turbine Modules, Augmentor Duct and Nozzle Modules, and Gearbox Modules. In addition, the proposed sale will include support equipment, publications and technical documentation, U.S. Government and contractor technical, engineering, logistics support services, and other related elements of program support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally.

The uninterrupted supply of spare parts and support will ensure the Hellenic Air Force keeps its aircraft fleet at the highest state of readiness.

The proposed sale of this equipment will not alter the basic military balance in the region.

The proposed sale will involve many contractors providing similar items to the U.S. armed forces. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Greece.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-12

**United Kingdom – MK 15 PHALANX Close-In Weapon System  
(CIWS) Block 1B Baseline 2**

WASHINGTON, April 29, 2011 – The Defense Security Cooperation Agency notified Congress Monday of a possible Foreign Military Sale to the Government of the United Kingdom of Ordnance Alteration Kits for conversion and upgrades of MK15 PHALANX Close-In Weapon System (CIWS) and associated equipment, parts, training and logistical support for an estimated cost of \$137 million.

The Government of the United Kingdom (UK) has requested the sale of 20 Block 1A to Block 1B Baseline 2 configuration Ordnance Alteration Kits and 16 Block 1B Baseline 1 to Baseline 2 Ordnance Alteration Kits for conversion and upgrades of MK15 PHALANX Close-In Weapon System (CIWS), spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, software support, U.S. Government and contractor engineering, technical, and logistics support services, and all other related elements of program support. The estimated cost is \$137 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to maintain and improve the security of a key NATO partner that has been, and continues to be, an important force for political stability and economic power in Europe.

The MK 15 PHALANX CIWS overhauls/upgrades will be used for close-in ship self-defense against air and surface threats onboard the UK's naval combatants and auxiliaries. The MK 15 PHALANX CIWS Block 1B Baseline 2 upgrades will provide enhanced electro-optical and radiofrequency close-in detection, tracking and engagement capabilities over the UK's existing MK 15 PHALANX systems, while improving CIWS supportability, maintainability and interoperability with U.S. systems. The UK, which already has earlier versions of the MK 15 PHALANX in its inventory, will have no problem absorbing these upgrades and support into its armed forces.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractor will be Raytheon Systems Company in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UK.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Iraq – Various Radios and Communication Equipment**

WASHINGTON, May 3, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Iraq of various radios and communication equipment, as well as associated equipment, parts, training and logistical support for an estimated cost of \$67 million.

The Government of Iraq has requested a possible sale of (750) 50-Watt Vehicular Multiband Handheld Radio Systems, (900) 5-watt Multiband Handheld Radio Systems, (50) 50-watt Multiband Handheld Base Station Radio Systems, (50) 20-watt High Frequency (HF) Base Station Radio Systems, (100) 5-watt Secure Personal Role Handheld Radio Systems, accessories, installation, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related elements of logistics support. The estimated cost is \$67 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale of the radios and communications equipment will advance Iraq's efforts to develop a strong Federal Police Force. The communications equipment will provide Iraq with updated frequency-hopping capabilities as well as a digital data capability. This expansion will enable Iraq to equip new forces to assume the missions currently accomplished by U.S. and coalition forces and to sustain itself in its efforts to establish stability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Harris Corporation in White Plains, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require six contractor personnel to travel to Iraq for operator & maintenance instruction (four weeks each) and installation support (six increments, for two weeks per visit).

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-03

**Malaysia – Advanced Targeting Forward Looking Infrared (ATFLIR)**

WASHINGTON, May 12, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Malaysia for upgrades to existing F/A-18D aircraft, as well as associated equipment, parts, training and logistical support for an estimated cost of \$72 million.

The Government of Malaysia has requested the procurement and integration of a Mid Life Upgrade to existing F/A-18D aircraft including six (6) AN/ASQ-228 ATFLIR Pods. Also included are software development, system integration and testing, test sets, aircrew and maintenance training, support equipment, spares and repair parts, publications, technical documentation, U.S. Government and contractor technical, logistics, engineering support services, and other related elements of program support. The estimated cost is \$72 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in East Asia.

Malaysia needs these assets to support future coalition operations and aircraft interoperability with the U.S. and other regional partners. This will upgrade the current FLIR pod to a current configuration, reducing obsolescence issues, and aligning the Malaysian Navy with functionality similar to the U.S. Navy.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be The Boeing Company in St. Louis, Missouri.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the temporary travel of approximately eight contractor representatives to Malaysia for installation, system validation, and verification of this system along with other upgrade capabilities being integrated and installed simultaneously.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Pakistan – Cooperative Logistics Supply Support Agreement (CLSSA)**  
**Foreign Military Sale Order (FMSO)II Support**

WASHINGTON, May 12, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale Order to the Government of Pakistan for spare parts for existing aircraft at an estimated cost of \$62 million.

The Government of Pakistan requests a Foreign Military Sale Order (FMSO) to provide funds for blanket order requisitions FMSO II, under the Cooperative Logistics Supply Support Agreement (CLSSA) for spare parts in support of F-16, C-130, T-37 and T-33 aircraft and other aircraft or systems/subsystems of U.S. origin in the inventory of the Pakistan Air Force. The estimated cost is \$62 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in Central Asia.

The uninterrupted supply of spare parts will allow Pakistan to keep its aircraft fleet at the highest state or readiness.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Procurement of these items will be from many contractors providing similar items to the U.S. forces. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. government or contractor representatives to Pakistan.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-75

**Kingdom of Saudi Arabia – Night Vision Equipment**

WASHINGTON, May 12, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale Order to the Kingdom of Saudi Arabia for various night and thermal vision equipment, including parts and logistical support with an estimated cost of \$330 million.

The Government of the Kingdom of Saudi Arabia has requested a possible sale of 200 High-performance In-Line Sniper Sight (HISS) Thermal Weapon Sights - 1500 meter, 200 MilCAM Recon III LocatIR Long Range, Light Weight Thermal Binoculars with Geo Location, 7,000 Dual Beam Aiming Lasers (DBAL A2), 6000 AN/PVS-21 Low Profile Night Vision Goggles (LPNVG), spare and repair parts, support equipment, technical documentation and publications, translation services, training, U. S. government and contractor technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$330 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will augment Saudi Arabia's capability to meet current and future threats from potential adversaries during operations conducted at night and during low visibility conditions. The Royal Saudi Land Forces (RSLF) are responsible for regional, perimeter, and border security operations. This proposed sale meets their defense and counter-terrorism requirements to deter current insurgent activity along their southern border and contributes to their overall military posture. The RSLF already has night vision devices in its inventory and will have no difficulty absorbing this night vision equipment into its inventory.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors will be FLIR Inc. in Boston, Massachusetts and Laser Devices, Inc. in Monterey, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-01

## **Morocco – AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, May 18, 2011 – On May 17, the Defense Security Cooperation Agency notified Congress of a possible Foreign Military Sale to the Government of Morocco of 20 AIM-9X-2 SIDEWINDER missiles, as well as associated equipment, parts, training and logistical support for an estimated cost of \$50 million.

The Government of Morocco has requested a possible sale of 20 AIM-9X-2 SIDEWINDER Missiles, 10 CATM-9X-2 Captive Air Training Missiles All-Up-Round Block II Missiles, 8 CATM-9X-2 Block II Missile Guidance Units, and 8 AIM-9X-2 Block II Tactical Guidance Units, 2 Dummy Air Training Missiles, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$50 million.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by supporting Morocco's legitimate need for its own self-defense. Morocco is one of the most stable and pro-Western of the Arab states, and the U.S. remains committed to a long-term relationship with Morocco.

The Royal Moroccan Air Force is modernizing its fighter aircraft to better support its own air defense needs. The proposed sale of AIM-9X missiles will greatly enhance Morocco's interoperability with the U.S. and other NATO nations, making it a more valuable partner in an increasingly important area of the world.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Morocco on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **United Arab Emirates - F-16 Program Support**

WASHINGTON, May 25, 2011 – The Defense Security Cooperation Agency notified Congress May 24 of a possible Foreign Military Sale to the Government of the United Arab Emirates for support and maintenance of F-16 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$100 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale of support and maintenance of classified and unclassified F-16 aircraft systems and munitions, spare and repair parts, publications and technical documentation, support equipment, personnel training and training equipment, ground support, communications equipment, U.S. Government and contractor technical and logistics support services, tools and test equipment, and other related elements of program support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by meeting the legitimate security and defense needs of a partner nation that has been, and continues to be, an important force for peace, political stability, and economic progress in the Middle East.

The UAE Air Force and Air Defense (AF&AD) continue to operate the F-16 Block 60 aircraft and previously purchased munitions and support equipment. Providing follow-on support for the UAE's F-16 aircraft and munitions stockpile will ensure operational capability and facilitate UAE AF&AD improvement toward becoming one of the most capable air forces in the region.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor for this sale or any known offset agreements proposed in connection with this sale.

Implementation of this proposed sale may require the assignment of additional U.S. Government or contractor representatives to the UAE. The number and duration will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-22

**Australia – AIM-120C-7 Advanced Medium Range Air-to-Air Missiles**

WASHINGTON, June 2, 2011 – The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the Government of Australia of up to 110 AIM-120C-7 Advanced Medium-Range Air-to-Air Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$202 million.

The Government of Australia requested a possible sale of up to 110 AIM-120C-7 Advanced Medium-Range Air-to-Air Missiles, 10 AIM-120C-7 Air Vehicle-Instrumented, 16 AIM-120C-7 Captive Air Training Missiles, containers, weapon system support equipment, support and test equipment, site survey, transportation, repair and return, warranties, spare and repair parts, publications and technical data, maintenance, personnel training and training equipment, U.S. Government and contractor representative engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$202 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's Government policy places interoperability with US Forces as an important goal and objective for equipment acquisition. Accordingly, and in line with the overall procurement strategy, Australia seeks an acquisition FMS case which supports the procurement, integration and introduction into service of the AIM-120C-7 system for the F/A-18F Australian Super Hornet.

The proposed sale will allow the Australian Defense Force to complete Australia's F/A-18 program under their Project AIR 5349. Phase I allowed acquisition of F/A-18 Block II aircraft and Phase II is for the acquisition of weapons. This proposed sale will provide standoff weapon capability required for Bridge Air Combat Capability for the Royal Australian Air Force. In addition, the upgrade is being viewed as an important step in maintaining interoperability with the U.S. Air Force. Australia will have no difficulty absorbing this new capability into its military.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile System Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Saudi Arabia – Light Armored Vehicles**

WASHINGTON, June 13, 2011 – The Defense Security Cooperation Agency notified Congress Friday of a possible Foreign Military Sale to the Government of Saudi Arabia of a variety of light armored vehicles and associated equipment, parts, training and logistical support for an estimated cost of \$263 million.

The Government of Saudi Arabia has requested a possible sale of 23 LAV-25mm Light Armored Vehicles (LAV), 14 LAV Personnel Carriers, 4 LAV Ambulances, 3 LAV Recovery Vehicles, 9 LAV Command and Control Vehicles, 20 LAV Anti-Tank (TOW) Vehicles, 155 AN/PVS-7B Night Vision Goggles, M257 Smoke Grenade Launchers, Improved Thermal Sight Systems (ITSS) and Modified Improved TOW Acquisition Systems (MITAS), Defense Advanced Global Positioning System Receivers, AN/USQ-159 Camouflage Net Sets, M2A2 Aiming Circles, compasses, plotting boards, reeling machines, sight bore optical sets, telescopes, switchboards, driver vision enhancers, spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistics support. The estimated cost is \$263 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of Light Armored Vehicles will provide a highly mobile, light combat vehicle capability enabling Saudi Arabia to rapidly identify, engage, and defeat perimeter security threats and readily employ counter- and anti-terrorism measures. The vehicles will enhance the stability and security operations for boundaries and territorial areas encompassing the Arabian Peninsula. Saudi Arabia will have no difficulty absorbing these LAVs into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be General Dynamics Land Systems in Sterling Heights, Michigan and the Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of approximately five additional U.S. Government and ten contractor representatives through at least 2014.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-03

## **Saudi Arabia – CBU-105 Sensor Fuzed Weapons**

WASHINGTON, June 13, 2011 – The Defense Security Cooperation Agency notified Congress Friday of a possible Foreign Military Sale to the Government of Saudi Arabia of 404 CBU-105D/B Sensor Fuzed Weapons and associated equipment, parts, training and logistical support for an estimated cost of \$355 million.

The Government of Saudi Arabia has requested a possible sale of 404 CBU-105D/B Sensor Fuzed Weapons, 28 CBU-105 Integration test assets, containers, spare and repair parts, support and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$355 million.

This proposed sale will contribute to the foreign policy goals and national security objectives of the United States by meeting the legitimate security and defense needs of a partner nation, which has been and continues to be an important force for peace, political stability, and economic progress in the Middle East.

Saudi Arabia intends to use Sensor Fused Weapons to modernize its armed forces and enhance its capability to defeat a wide range of defensive threats, to include: strongpoints, bunkers, and dug-in facilities; armored and semi-armored vehicles; personnel; and certain maritime threats. Additionally, the precision nature and extremely low dud rate of these munitions will reduce fratricide incidents and increase effectiveness. The Royal Saudi Air Force will be able to develop and enhance its standardization and operational capability and its interoperability with the USAF, Gulf Cooperation Council member states, and other coalition air forces. Saudi Arabia will have no difficulty absorbing these munitions into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

After arming, the CBU-105D/B Sensor Fuzed Weapon will not result in more than one percent unexploded ordnance across the range of intended operational environments. The agreement applicable to the transfer of the CBU-105D/B and the CBU-105 integration test assets will contain an agreement of the Government of Saudi Arabia that the cluster munitions and cluster munitions technology will be used only against clearly defined military targets and will not be used where civilians are known to be present or in areas normally inhabited by civilians.

The prime contractor will be Textron Systems Corporation of Wilmington, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Saudi Arabia involving up to two U.S. Government and three contractor representatives for technical reviews/support, and program management for a period of approximately two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Saudi Arabia – Light Armored Vehicles and Related Support**

WASHINGTON, June 13, 2011 – The Defense Security Cooperation Agency notified Congress Friday of a possible Foreign Military Sale to the Government of Saudi Arabia of a variety of light armored vehicles and associated equipment, parts, training and logistical support for an estimated cost of \$350 million.

The Government of Saudi Arabia has requested a possible sale of 25 LAV-25 series Light Armored Vehicles, 8 LAV Assault Guns, 8 LAV Anti-Tank Vehicles, 6 LAV Mortars, 2 LAV Recovery Vehicles, 24 LAV Command and Control Vehicles, 3 LAV Personnel Carriers, 3 LAV Ammo Carriers, 1 LAV Engineer Vehicle, 2 LAV Ambulances, AN/VRC 90E and AN/VRC-92E Export Single Channel Ground and Airborne Radio Systems (SINCGARS), battery chargers, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and technical support services, and other related elements of logistical and program support. The estimated cost is \$350 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve the Saudi Arabian National Guard's ability to effectively conduct security and counter-terrorism operations, and would serve to make a key strategic partner in regional contingency operations more capable of defeating those who would threaten regional stability and less reliant on the deployment of U.S. forces to maintain or restore stability in the Middle East. Saudi Arabia, which already has Light Armored Vehicles in its inventory, will have no difficulty absorbing these additional vehicles into its armed forces.

The proposed sale of this service will not alter the basic military balance in the region.

The prime contractors will be ITT Aerospace/Communications in Fort Wayne, Indiana; Harris Corporation in Rochester, New York; General Dynamics Land Systems in London, Ontario, Canada; and Raytheon Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-16

## **Germany - Tornado Aircraft Training and Logistics Support**

WASHINGTON, June 16, 2011 – The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the Government of Germany for base services for its Tornado aircraft operations, including associated equipment, ammunition, parts, training and logistical support for an estimated cost of \$300 million.

The Government of Germany has requested the continuation of base services for the German Air Force Tornado aircraft operations at Holloman Air Force Base (AFB), New Mexico. Base services provided will be for operations and logistics support including training, fuel, munitions, base operating support, and other related operational/logistics requirements. Munitions will include 720 MK 82, 135 MK 84, and 5 Target Drone BQM 167. The estimated cost is \$300 million.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the military capabilities of Germany and enhancing standardization and interoperability with U.S. forces.

Holloman AFB is the only location where the German Air Force trains aircrews in Tornado aircraft operations and tactics. These operations began at U.S. Air Force facilities in 1989.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this program. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. government or contractor representatives to Germany.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-07

**Morocco – SENTINEL AN/MPQ-64F1 Radars**

WASHINGTON, June 24, 2011 – The Defense Security Cooperation Agency notified Congress Thursday of a possible Foreign Military Sale to the Government of Morocco of eight AN/MPQ-64F1 SENTINEL Radars, and associated equipment, parts, training and logistical support for an estimated cost of \$67 million.

The Government of Morocco has requested a possible sale 8 AN/MPQ-64F1 SENTINEL Radars, 8 AN/VRC-92E Single Channel Ground and Airborne Radio System (SINCGARS) Vehicular Dual Long-Range System Radios, Identification Friend or Foe (IFF), Sentinel Software, 8 SENTINEL M1152 High Mobility Multipurpose Wheeled Vehicle (HMMWV)s, HMMWV support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$67 million.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by supporting Morocco's legitimate need for its own self-defense. Morocco is one of the most stable and pro-Western of the Arab states, and the U.S. remains committed to a long-term relationship with Morocco.

The Government of Morocco is modernizing its armed forces and expanding its air defense architecture to counter threats posed by air attack. The proposed sale of SENTINEL Radars will greatly enhance Morocco's interoperability with the U.S. and other NATO nations, making it a more valuable partner in an increasingly important area of the world.

The proposed sale will not alter the basic military balance in the region.

The prime contractors will be Thales Raytheon Systems in Fullerton, California, International Telephone and Telegraph (ITT) in Fort Wayne, Indiana, and American General in South Bend, Indiana. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of up to 10 U.S. Government or contractor representatives to Morocco for a period of 8 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**United Arab Emirates - UH-60M BLACKHAWK Helicopters**

WASHINGTON, June 24, 2011 – The Defense Security Cooperation Agency notified Congress Thursday of a possible Foreign Military Sale to the Government of the United Arab Emirates of five UH-60M BLACKHAWK VIP helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$217 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 5 UH-60M BLACKHAWK VIP helicopters, 12 T700-GE-701D engines (10 installed and 2 spares), 6 AN/APR-39A(V)4 Radar Signal Detecting Sets, 80 AN/AVS-9 Night Vision Devices, 6 Star Safire III Forward Looking Infrared Radar Systems, 6 AAR-57(V)3 Common Missile Warning Systems, 6 AN/AVR-2B Laser Warning Sets, C406 Electronic Locator Transmitters, Traffic Collision Avoidance Systems and Weather Radars, Aviation Mission Planning Station, government furnished equipment, ferry support, spare and repair parts, publications and technical documentation, support equipment, personnel training and training equipment, ground support, communications equipment, U.S. Government and contractor technical and logistics support services, tools and test equipment, and other related elements of logistics support. The estimated cost is \$217 million.

This proposed sale will contribute to the foreign policy and national security of the United States by meeting the legitimate security and defense needs of a partner nation that, has been and continues to be an important force for peace, political stability, and economic progress in the Middle East.

The UAE will use these helicopters for intra-country transportation of UAE officials to militarily critical training and operation sites. The UH-60M BLACKHAWK helicopters will enhance the safety of key UAE personnel by providing for the detection and avoidance of rocket/missile attacks by indigenous or foreign terrorist elements. The UAE will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be: Sikorsky Aircraft Corporation of Stratford, Connecticut, and General Electric Aircraft Company of Lynn, Massachusetts. The purchaser has requested offsets; however, at this time, agreements are undetermined and will be defined in negotiations between the purchaser and contractor.

Implementation of this proposed sale will require the deployment of a minimum of two Contractor Field Service representatives to the United Arab Emirates for approximately two years after initial fielding to assist in the delivery and deployment of the helicopters.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **India – MK-54 Lightweight Torpedoes**

WASHINGTON, June 27, 2011 – The Defense Security Cooperation Agency notified Congress Friday of a possible Foreign Military Sale to the Government of India for 32 MK-54 All-Up-Round Lightweight Torpedoes and associated equipment, parts, training and logistical support for an estimated cost of \$86 million.

The Government of India has requested a possible sale of 32 MK-54 All-Up-Round Lightweight Torpedoes, 3 recoverable exercise torpedoes, 1 training shape, containers, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, transportation, U.S. Government and contractor representatives' technical assistance, engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$86 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to strengthen the U.S.-India strategic relationship and to improve the security of a key partner which continues to be an important force for political stability, peace, and economic progress in South Asia.

India intends to use the torpedoes on its Indian Navy P-8I maritime patrol aircraft, which will provide enhanced capabilities in effective defense of critical sea lines of communication.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in St. Louis, Missouri, and a yet to be identified U.S. torpedo contractor. Details of a potential offset agreement in connection with the proposed sale are not known as of the date of this transmittal.

Implementation of this proposed sale will require U.S. Government and contractor representative in-country visits on a temporary basis for technical reviews, support, and oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Iraq – Follow-On Support and Maintenance of Multiple Aircraft Systems**

WASHINGTON, June 29, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Iraq for follow-on support and maintenance of multiple aircraft systems and associated equipment, parts, training and logistical support for an estimated cost of \$675 million.

The Government of Iraq has requested a possible sale of follow-on support and maintenance of multiple aircraft systems that include TC-208s, Cessna 172s, AC-208s, T-6As, and King Air 350s. Included are ground stations, repair and return, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$675 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale will help the Iraqi government to maintain indigenous Intelligence Surveillance and Reconnaissance, training, and counter insurgency/counter-terrorism capabilities. As the drawdown of coalition forces continues, the Iraqi Air Force continues to develop a force capable of assuming the lead in providing for the security of the Iraqi people. The follow-on support will ensure the operational capability of the Iraqi Air Force and will allow it to sustain itself in its efforts to establish stability in Iraq.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Hawker Beechcraft Corporation in Wichita, Kansas; Flight Safety International in Flushing, New York; Alliant Techsystems in Magna, Utah; L-3 Communications in New York, New York; and Integration Innovation, Inc. in Huntsville, Alabama. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-25

**United Kingdom – Ship’s Signal Exploitation Equipment (SSEE) Increment F**

WASHINGTON, June 30, 2011 – The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the Government of the United Kingdom of seven Ship’s Signal Exploitation Equipment (SSEE) Increment F, and associated equipment, parts, training and logistical support for an estimated cost of \$90 million.

The Government of the United Kingdom (UK) has requested the sale of seven Ship’s Signal Exploitation Equipment (SSEE) Increment F, seven Selective Availability Anti-Spoofing Modules (SAASM) GPS Receivers, and seven System Signal and Direction Finding Stimulator packages, spare and repair parts, personnel training and training equipment, support equipment, U.S. Government and contractor engineering, logistics, and technical support services, testing, publications and technical documentation, Fleet Information Operation Center upgrades, installation, life cycle support, and other related elements of logistics support. The estimated cost is \$90 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to maintain and improve the security of a key NATO partner that has been, and continues to be, an important force for political stability and economic power in Europe.

The UK is procuring SSEE increment F as a Cryptologic Electronic Warfare Support Measure (CESM) replacement program for the Cooperative Outboard Logistics Update (COBLU) currently fitted on Type 22 Frigates and it will be the future maritime CESM system fitted on the Type 45 Destroyers. It is expected the UK will be able to fully absorb and utilize the Communications Intelligence (COMINT) system and capability.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Argon ST in Fairfax, Virginia.

There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the temporary assignment of three U.S. Government and seven contractor representatives to the UK to provide installation, testing, training, and support for one to two months per year through 2018.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Egypt - Co-production of M1A1 Abrams Tank**

WASHINGTON, July 5, 2011 – The Defense Security Cooperation Agency notified Congress Friday of a possible Foreign Military Sale to the Government of Egypt for 125 M1A1 Abrams tank kits for co-production and associated weapons, equipment, parts, training and logistical support for an estimated cost of \$1.329 billion.

The Government of Egypt has requested a possible sale that includes 125 M1A1 Abrams tank kits for co-production, 125 M256 Armament Systems, 125 M2 .50 caliber machine guns, 250 M240 7.62mm machine guns, 125 AGT-1500 M1A1 series tank engines and transmissions, 120mm test cartridges, spare and repair parts, maintenance, support equipment, special tool and test equipment, personnel training and equipment, publications and technical documentation, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics and program support. Articles may be provided in furtherance of a co-production agreement. The estimated cost is \$1.329 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The additional M1A1 tanks will provide Egypt with a modern tank fleet, enhancing its capability to meet current and future threats. This will contribute to Egypt's goal to update its military capability while further enhancing interoperability between Egypt, the U.S., and other allies. Egypt, which has co-produced the M1A1 Abrams tank, will have no difficulty absorbing the additional tanks.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be General Dynamics in Sterling Heights, Michigan, Honeywell International Incorporated in Phoenix, Arizona, and Allison Transmission Motors in Indianapolis, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately four U.S. government and 35 contractor representatives for up to three years in Egypt to manage this production and fielding program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-32

**Poland – Service Life Extension Program for ex-FFG-7 Class Frigates**

WASHINGTON, July 26, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Poland worth an estimated \$200 million.

The Government of Poland has requested a possible sale to provide follow-on technical support and a Service Life Extension Program for the upgrade and conversion of MK15 PHALANX Close-In Weapon Systems (CIWS) aboard two ex-FFG-7 Class Frigates from the Block 0 to Block 1B, Baseline 2 configuration, spare and repair parts, support and test equipment, publications and technical documentation, system overhauls and upgrades, personnel training and training equipment, U.S. Government and contractor technical support, and other related elements of program support. The estimated cost is \$200 million.

Poland is one of our important allies in Northern Europe, contributing to NATO activities and ongoing U.S. interests in the pursuit of peace and stability. Poland's efforts in peacekeeping operations in Iraq and Afghanistan have served U.S. national security interests. It is vital to the U.S. national interest to assist Poland to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve Poland's capability to meet current and future operational needs. Poland already has the capability to maintain the current Frigates and will have no difficulty absorbing the upgraded shipboard systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The proposed sale will involve multiple contractors, as well as U.S. Atlantic Coast shipyards who will compete for planning and execution of the system overhaul and upgrade projects. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland. However, periodic travel to Poland will be required on a temporary basis in conjunction with program, technical, and management oversight and support requirements.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-14

**Peru – NATO SEASPARROW Surface Missile Systems**

WASHINGTON, August 25, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Peru for four MK57 MOD 10 NATO SEASPARROW Surface Missile Systems (NSSMS) and associated equipment, parts, training and logistical support worth an estimated \$50 million.

The Government of Peru has requested a possible sale of four each MK57 MOD 10 NATO SEASPARROW Surface Missile Systems (NSSMS) without RIM-7 missiles, MK57 Installation and Check Out (INCO) Kits, spare and repair parts, support and test equipment, publications and technical documentation, personnel training, U.S. Government (USG) and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$50 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Peru which has been, and continues to be, an important force for political stability and economic progress in South America.

The proposed sale will improve Peru's capability to meet current and future threats of enemy anti-ship weapons. Peru will use the enhanced capability of the MK57 MOD 10 NSSMS on its four LUPU class (aka Aguirre) Class frigates purchased from Italy in 2004. The frigates have MK57 MOD 2 NATO SEASPARROW Systems modified to fire the ASPIDE air defense missile. The systems retain the ability to fire the RIM-7 SEASPARROW missile, and Peru intends to move from the ASPIDE missile to the RIM-7 SEASPARROW in a future purchase. Peru, which already has MK 57 Missile Systems, will have no difficulty absorbing these additional systems into its inventory.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors will be Raytheon Technical Service Company in Norfolk VA and Raytheon Integrated Defense Systems in Portsmouth, RI. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Peru.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-33

## **Norway – Procure and Install Equipment on P-3C Aircraft**

WASHINGTON, August 31, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Norway for the installation of various aircraft support systems for four P-3C aircraft and associated equipment, parts, training and logistical support worth an estimated \$95 million.

The Government of Norway has requested a possible sale for the procurement and installation of four AN/USQ-78B Acoustic Processor Technology Refresh (APTR), 4 AN/ASQ-227 Aircraft Mission Computers, and 2 Tactical Mobile Acoustic Support Systems on four Royal Norwegian Air Force P-3C aircraft, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$95 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally that has been, and continues to be, an important force for economic and political stability.

The proposed sale will update hardware and ensure the sustainment of data provided to the United States as part of various data sharing agreements already in place with the Government of Norway in the area of anti-submarine warfare. Norway will have no difficulty absorbing the additional equipment into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Corporation in Owego, New York. Offset agreements associated with this proposed sale are expected, but at this time the specific offset agreements are undetermined and will be defined in negotiations between the purchaser and contractors.

Implementation of this proposed sale will require U.S. Government and contractor representatives to travel to Norway to participate in periodic program technical reviews, training and support visits, and maintenance and support visits semi-annually for a period of four years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Bahrain – M1152A1B2 HMMWVs and TOW-2A and TOW-2B Missiles**

WASHINGTON, September 14, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Bahrain for Armored High Mobility Multi-Purpose Wheeled Vehicles, TOW Missiles and associated equipment, parts, training and logistical support worth an estimated \$53 million.

The Government of Bahrain has requested a possible sale of 44 M1152A1B2 Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), 200 BGM-71E-4B-RF Radio Frequency (RF) Tube-Launched Optically-Tracked Wire-Guided Missiles (TOW-2A), 7 Fly-to-Buy RF TOW-2A Missiles, 40 BGM-71F-3-RF TOW-2B Aero Missiles, 7 Fly-to-Buy RF TOW-2B Aero Missiles, 50 BGM-71H-1RF Bunker Buster Missiles (TOW-2A), 7 Fly-to-Buy RF Bunker Buster Missiles (TOW-2A), 48 TOW-2 Launchers, AN/UAS-12A Night Sight Sets, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$53 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major non-NATO ally that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Bahrain's capability to meet current and future armored threats. Bahrain will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be AM General in South Bend, Indiana, and Raytheon Missile Systems Corporation in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Bahrain.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-74

**Kingdom of Saudi Arabia - Howitzers, Radars, Ammunition, and Related Support**

WASHINGTON, September 19, 2011 – The Defense Security Cooperation Agency notified Congress Thursday of a possible Foreign Military Sale to the Kingdom of Saudi Arabia of Howitzers, radars, ammunition and associated equipment, parts, training and logistical support for an estimated cost of \$886 million.

The Government of the Kingdom of Saudi Arabia has requested a possible sale for 36 M777A2 Howitzers, 54 M119A2 Howitzers, 6 AN/TPQ-36(V) Fire Finder Radar Systems, 24 Advanced Field Artillery Tactical Data Systems (AFATDS), 17,136 rounds M107 155mm High Explosive (HE) ammunition, 2,304 rounds M549 155mm Rocket Assisted Projectiles (RAPs), 60 M1165A1 High Mobility Multipurpose Vehicles (HMMWVs), 120 M1151A1 HMMWVs, 252 M1152A1 HMMWVs, Export Single Channel Ground And Airborne Radio Systems (SINCGARS), electronic support systems, 105mm ammunition, various wheeled/tracked support vehicles, spare and repair parts, technical manuals and publications, translation services, training, USG and contractor technical assistance, and other related elements of logistical and program support. The estimated cost is \$886 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale will augment the Kingdom of Saudi Arabia's existing light artillery capabilities. The Kingdom of Saudi Arabia will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. The Kingdom of Saudi Arabia, which already has 155mm and 105mm howitzers and support vehicles and equipment in its inventory, will have no difficulty absorbing these additional howitzers into its armed forces.

The proposed sale of this service will not alter the basic military balance in the region.

The prime contractors will be AM General, LLC in South Bend, IN, BAE Systems in the United Kingdom & Hattiesburg, MS, ITT Defense and Information Solutions in McLean, VA, Thales Raytheon Systems in Fullerton CA, Smith Detection in Edgewood, MD, SRCtec, in Syracuse, NY, Northrop Grumman Corporation in Apopka, FL, and General Dynamics C4 Systems in Taunton, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the Kingdom of Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-26

## **Qatar - MH-60R SEAHAWK Multi-Mission Helicopters**

WASHINGTON, September 22, 2011 -- The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the Government of Qatar of 6 MH-60R SEAHAWK Multi-Mission Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$750 million.

The Government of Qatar has requested a possible sale of 6 MH-60R SEAHAWK Multi-Mission Helicopters, 13 T-700 GE 401C Engines (12 installed and 1 spare), communication equipment, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$750 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political and economic progress in the Middle East. Qatar is host to the US AFCENT forces and serves as a critical forward-deployed location in the region.

The proposed sale of the MH-60R SEAHAWK helicopters will improve Qatar's capability to meet current and future anti-surface warfare threats. Qatar will use the enhanced capability to strengthen its homeland defense. The MH-60R helicopters will supplement and eventually replace the Qatar Air Force's aging maritime patrol helicopters. Qatar will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut, Lockheed Martin in Owego, New York, and General Electric in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of ten contractor representatives to Qatar on an intermittent basis over the life of the case to support delivery of the MH-60R helicopters and provide support and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-34

**Taipei Economic and Cultural Representative Office in the United States -  
Foreign Military Sales Order II (FMSO II)**

WASHINGTON, September 21, 2011 -- The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sales Order II (FMSO II) to the Taipei Economic and Cultural Representative Office in the United States for an estimated cost of \$52 million.

The Taipei Economic and Cultural Representative Office in the United States has requested a FMSO II to provide funds for blanket order requisitions, under the Cooperative Logistics Supply Agreement (CLSSA) for spare parts in support of F-16A/B, F-5E/F, C-130H, and Indigenous Defense Fighter (IDF) aircraft. The estimated cost is \$52 million.

This sale is consistent with United States law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The recipient requires continuing procurement and repair of aircraft spare parts through the USG's FMSO II program in order to sustain and keep flyable its military fleets of F-16, F-5, C-130, and IDF aircraft. The spare parts to be procured and/or repaired under this proposed sale are critical for maintaining their fighter and transport aircraft in operational condition.

Procurement of these items will be from many contractors providing similar items to the U.S. forces. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the recipient.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Taipei Economic and Cultural Representative Office in the United States -  
Retrofit of F-16A/B Aircraft**

WASHINGTON, September 21, 2011 -- The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of retrofitting of F-16A/B aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$5.3 billion.

The Taipei Economic and Cultural Representative Office in the United States has requested a retrofit of 145 F-16A/B aircraft that includes sale of: 176 Active Electronically Scanned Array (AESA) radars; 176 Embedded Global Positioning System Inertial Navigation Systems; 176 ALQ-213 Electronic Warfare Management systems; upgrade 82 ALQ-184 Electronic Countermeasures (ECM) pods to incorporate Digital Radio Frequency Memory (DRFM) technology or purchase new ECM pods (AN/ALQ-211(V)9 Airborne Integrated Defensive Electronic Warfare Suites (AIDEWS) with DRFM, or AN/ALQ-131 pods with DRFM); 86 tactical data link terminals; upgrade 28 electro-optical infrared targeting Sharpshooter pods; 26 AN/AAQ-33 SNIPER Targeting Systems or AN/AAQ-28 LITENING Targeting Systems; 128 Joint Helmet Mounted Cueing Systems; 128 Night Vision Goggles; 140 AIM-9X SIDEWINDER Missiles; 56 AIM-9X Captive Air Training Missiles; 5 AIM-9X Telemetry kits; 16 GBU-31V1 Joint Direct Attack Munitions (JDAMs) kits; 80 GBU-38 JDAM kits; Dual Mode/ Global Positioning System Laser-Guided Bombs (16 GBU-10 Enhanced PAVEWAY II or GBU-56 Laser JDAM, 80 GBU-12 Enhanced PAVEWAY II or GBU-54 Laser JDAM, 16 GBU-24 Enhanced PAVEWAY III); 64 CBU-105 Sensor Fused Weapons with Wind-Corrected Munition Dispensers (WDMD); 153 LAU-129 Launchers with missile interface; upgrade of 158 APX-113 Advanced Identification Friend or Foe Combined Interrogator Transponders; and HAVE GLASS II applications. Also included are: ammunition, alternate mission equipment, engineering and design study on replacing existing F100-PW-220 engines with F100-PW-229 engines, update of Modular Mission Computers, cockpit multifunction displays, communication equipment, Joint Mission Planning Systems, maintenance, construction, repair and return, aircraft tanker support, aircraft ferry services, aircraft and ground support equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support, test equipment, site surveys, and other related elements of logistics support. The estimated cost is \$5.3 billion.

This sale is consistent with United States law and policy as expressed in Public Law 96-8.

This proposed sale serves U.S. national, economic, and security interests by supporting the recipient's continuing efforts to modernize its armed forces and enhance its defensive capability. The proposed sale will help improve the security of the recipient and assist in maintaining political stability, military balance, and economic progress in the region.

The proposed retrofit improves both the capabilities and the reliability of the recipient's fleet of F-16A/B aircraft. The improved capability, survivability, and reliability of newly retrofitted F-16A/B aircraft will greatly enhance the recipient's ability to defend its borders.

The prime contractor will be the Lockheed Martin Aeronautics Company in Fort Worth, Texas. This proposed sale may involve the following additional contractors:

BAE Advance Systems	Greenland, New York
Boeing Integrated Defense Systems	St Louis, Missouri
Goodrich ISR Systems	Danbury, Connecticut
ITT Defense Electronics and Services	McLean, Virginia
ITT Integrated Structures	North Amityville, New York
ITT Night Vision	Roanoke, Virginia
L3 Communications	Arlington, Texas
Lockheed Martin Missile and Fire Control	Dallas, Texas
Lockheed Martin Simulation, Training, and Support	Fort Worth, Texas
Marvin Engineering Company	Inglewood, California
Northrop-Grumman Electro-Optical Systems	Garland, Texas
Northrop-Grumman Electronic Systems	Baltimore, Maryland
Pratt & Whitney	East Hartford, Connecticut
Raytheon Company	Goleta, California
Raytheon Space and Airborne Systems	El Segundo, California
Raytheon Missile System	Tucson, Arizona
Symetrics Industries	Melbourne, Florida
Terma	Denmark

At this time there are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will require the assignment of five (5) contractor representatives to the recipient to provide engineering and technical support for the first two years of the program. Additionally, approximately two trips per year will be required for U.S. Government personnel and contractor representatives for the duration of the program for program and technical support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-19

**Taipei Economic and Cultural Representative Office in the United States -  
Pilot Training Program**

WASHINGTON, September 21, 2011 -- The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Taipei Economic and Cultural Representative Office in the United States of a pilot training program and associated equipment, parts, training and logistical support for an estimated cost of \$500 million.

The Taipei Economic and Cultural Representative Office in the United States has requested a possible sale for the continuation of a pilot training program and logistics support for F-16 aircraft at Luke Air Force Base, Arizona to include flight training, supply and maintenance support, spare and repair parts, support equipment, program management, publications, documentation, personnel training and training equipment, fuel and fueling services, and other related program requirements necessary to sustain a long-term CONUS training program. The estimated cost is \$500 million.

This sale is consistent with United States policy and Public Law 96-8.

The recipient is one of the major powers in Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is in the U.S. national interest to assist the recipient in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The recipient and the U.S. Air Force (USAF) will have the opportunity to fly together, which will support disaster relief missions, non-combatant evacuation operations, and other contingency situations. These services and equipment are used in the continuing pilot training program at Luke Air Force Base, Arizona. This program enables the recipient to develop mission ready and experienced pilots through CONUS training. The training provides a “capstone” course that takes experienced pilots and significantly improves their tactical proficiency. Training is a key component of combat effectiveness.

The proposed sale of pilot training and support will not alter the basic military balance in the region.

Implementation of this sale will not require the assignment of any U.S. Government or contractor representatives to the recipient. The USAF will provide instruction, flight operations, and maintenance support and facilities. Approximately 90 U.S. contractors will provide aircraft maintenance and logistics support for the F-16 aircraft at Luke Air Force Base, Arizona.

The prime contractor will be L-3 Communications Corporation in Greenville, Texas. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **United Arab Emirates - MIDS/LVT LINK 16 Terminals**

WASHINGTON, September 22, 2011 -- The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the United Arab Emirates of 107 MIDS/LVT LINK 16 Terminals and associated equipment, parts, training and logistical support for an estimated cost of \$401 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 107 Link 16 Multifunctional Information Distribution System/Low Volume Terminals (MIDS/LVT) to be installed on the United Arab Emirates F-16 aircraft and ground command and control sites, engineering/integration services, aircraft modification and installation, testing, spare and repair parts, support equipment, repair and return support, personnel training, contractor engineering and technical support, interface with ground command and control centers and ground repeater sites, and other related elements of program support. The estimated cost is \$401 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

The MIDS terminal will increase pilot operational effectiveness by at-a-glance portrayal of targets, threats, and friendly forces on an easy-to-understand relative position display. This proposed system will increase combat effectiveness while reducing the threat of friendly fire. The system will foster interoperability with the U.S. Air Force and other countries. The MIDS/LVT will provide allied forces greater situational awareness in any coalition operation. The United Arab Emirates will have no difficulty absorbing this additional capability into its Air Force.

The proposed sale of this weapon system will not alter the basic military balance in the region.

There are several manufacturers of the Link 16 MIDS-LVT. A prime contractor will be selected during the negotiating process. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government and contractor representatives to the UAE. The number of U.S. Government and contractor representatives will be determined in joint negotiations as the program proceeds through the development, production, and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-27

## **United Arab Emirates - AGM-114R3 HELLFIRE Missiles**

WASHINGTON, September 22, 2011 -- The Defense Security Cooperation Agency notified Congress Wednesday of a possible Foreign Military Sale to the United Arab Emirates of 500 AGM-114R3 HELLFIRE missiles and associated equipment, parts, training and logistical support for an estimated cost of \$65 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale 500 AGM-114R3 HELLFIRE II missiles, containers, spare and repair parts, support and test equipment, repair and return support, training equipment and personnel training, U.S. Government and contractor logistics, Quality Assurance Team support services, engineering and technical support, and other related elements of program support. The estimated cost is \$65 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

UAE intends to use these defense articles and services to modernize its armed forces and expand its existing Army architecture to counter threats posed by potential attack. This proposed sale will also contribute to the UAE military's goal of updating its capability while further enhancing its interoperability with the U.S. and other allies. This capability will serve to deter potential attacks against strategic targets across the UAE, to include infrastructure and resources vital to the security of the U.S.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor is HELLFIRE Systems Limited Liability Company in Orlando, Florida. There are no known offset agreements proposed in connection with this sale.

Implementation of this proposed sale will require the assignment of a U.S. Government Quality Assurance Team to the United Arab Emirates.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Ecuador – SH-2G Helicopters**

WASHINGTON, September 27, 2011 -- The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Ecuador of refurbishment of 2 SH-2G Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$60 million.

The Government of Ecuador has requested a possible sale for the refurbishment of two SH-2G Helicopters being provided as grant Excess Defense Articles (EDA) to be modified for operational use. The two EDA aircraft will also be modified to include the following: HELRAS Helicopter Dipping SONAR, AAQ-22 Forward Looking Infrared Radar (FLIR), AN/APS-143C (V) 3 RADAR, ARC-210 UHF Radio, APX-72 Transponder, AN/ARN-147 VOR/ILS, AN/ARN-149 Receiver (ADF), HF-9000 HF Radio, ASN-150 Tactical Navigation Set, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$60 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Ecuador which has been, and continues to be, an important force for political stability and economic progress in South America. This proposed sale will also improve the interoperability between the naval forces of the United States and Ecuador.

The proposed sale will improve Ecuador's capability to meet current and future anti-ship threats. The helicopters will perform antisubmarine warfare (ASW), antisurface warfare, search and rescue (SAR), and logistics support missions for the Ecuadorian Navy. They will improve Ecuador's ability to participate in the Maritime Multinational Operations with the U.S. Navy, will enhance Ecuador's control of its territorial sea and exclusive economic zone, and will increase the Ecuadorian Navy's SAR capabilities, further reducing Ecuador's dependency on the United States in case of emergencies. Additionally, these specialized ASW Helicopters would constitute a highly effective system to search, track, and destroy the mini-submarines used for illegal drug trafficking. Similar items have not previously been provided to Ecuador.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Kaman Corporation of Bloomfield, CT. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Ecuador.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Iraq – Howitzer Ammunition**

WASHINGTON, Oct. 14, 2011 – The Defense Security Cooperation Agency notified Congress Oct 5 of a possible Foreign Military Sale to the Government of Iraq for various explosive projectiles and charges, as well as associated equipment, parts, training and logistical support for an estimated cost of \$82 million.

The Government of Iraq has requested a possible sale of 44,608 M107 155mm High Explosive Projectiles and 9,328 M485A2 155mm Illumination projectiles; also included are, M231 Propelling charges, M232A1 155mm Modular Artillery Charge System Propelling charges, M739 Fuzes, M762A1 Electronic Time Fuzes, M82 Percussion primers, M767A1 Electronic Time Fuzes, 20-foot Intermodal Containers for transporting ammunition, publications and technical data, personnel training and training equipment, U.S. Government and contractor engineering, logistics, and technical support services, and other related elements of logistics support. The estimated cost is \$82 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraq government and serves the interests of the Iraqi people and the U.S.

The proposed sale will help Iraq's efforts to develop an integrated ground defense capability, a strong national defense, and dedicated military force. As the drawdown of coalition forces continues, the Iraqi military continues to develop a force capable of assuming the lead in providing for the security of the Iraqi people.

The proposed sale of this ammunition will not alter the basic military balance in the region.

The ammunition will be supplied from U.S. Army stock. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Argentina – C-130H Avionics Upgrade**

WASHINGTON, Oct. 19, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 18 of a possible Foreign Military Sale to the Government of Argentina for commercial-off-the-shelf avionics upgrade of five C-130H aircraft, as well as associated equipment, parts, training and logistical support for an estimated cost of \$166 million.

The Government of Argentina has requested a possible purchase of commercial-off-the-shelf avionics upgrade of five (5) C-130H aircraft that includes minor Class IV modifications, ground handling equipment, repair and return, spare and repair parts, support equipment, publications and technical documentation, tools and test equipment, personnel training and training equipment, programmed depot maintenance, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of program support. The estimated cost is \$166 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a major non- NATO ally.

The proposed sale will improve Argentina's capability to meet current and future needs for its existing C-130 fleet. Argentina uses its C-130 in humanitarian and Antarctic missions. Argentina, which already has C-130s in its inventory, will have no difficulty absorbing the upgraded systems into its armed forces. The proposed sale will enhance U.S and Argentine Air Force relations.

The proposed sale of this equipment will not alter the basic military balance in the region.

The prime contractors for this sale are not known at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the temporary assignment of approximately two (2) U.S. Government and 48 contractor representatives to Argentina during the duration of the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **France –Upgrade of E-2C HAWKEYE Aircraft**

WASHINGTON, Oct. 19, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 18 of a possible Foreign Military Sale to the Government of France for the upgrade of four E-2C HAWKEYE Aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$180 million.

The Government of France has requested a possible sale of the upgrade of four E-2C HAWKEYE Aircraft with weapon system sensor upgrades with Mode 5/S Identification Friend or Foe (IFF). Included are 5 APX-122 IFF Mode 5/S Interrogator Systems, 5 APX-123 IFF Mode 5/S Transponder Systems, and 5 ALQ-217 Electronic Support Measure Systems. In addition, this proposed sale will include related spare and repair parts, support and test equipment, weapon system support, development, publications and technical documentation, integration and testing, personnel training and equipment, U.S. Government and contractor engineering and logistics personnel support services, and other related elements of logistics support. The estimated cost is \$180 million.

France is one of the major political and economic powers in Europe and NATO and an ally of the United States in the pursuit of peace and stability. It is vital to the U.S. national interest to assist France to develop and maintain a strong and ready self-defense capability.

France's current IFF Interrogator, transponder, and electronic support measures is old technology and requires upgrading to the most current technology. The proposed sale will give France Mode 5/S capabilities. France intends to incorporate these systems into its E-2C HAWKEYE Navigation upgrade aircraft. France has significant experience in operating and maintaining modern weapon systems and infrastructure required and will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Northrop Grumman Corporation in Bethpage, New York. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to France.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-38

**Oman – AVENGER Fire Units/STINGER Missiles/  
Surface-Launched AMRAAM**

WASHINGTON, Oct. 19, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 18 of a possible Foreign Military Sale to the Government of Oman for AVENGER Fire Units, STINGER Missiles and Advanced Medium Range Air to Air Missiles, as well associated equipment, parts, training and logistical support for an estimated cost of \$1.248 billion.

The Government of the Oman has requested a possible sale of 18 AVENGER Fire Units, 266 STINGER-Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft missiles, 6 STINGER Block 1 Production Verification Flight Test missiles, 24 Captive Flight Trainers, 18 AN/VRC-92E exportable Single Channel Ground and Airborne Radio Systems (SINCGARS), 20 S250 Shelters, 20 High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), 1 lot AN/MPQ-64F1 SENTINEL Radar software, 290 AIM-120C-7 Surface-Launched Advanced Medium Range Air-to-Air Missiles, 6 Guidance Sections, Surface-Launched Advanced Medium Range Air-to-Air Missile (SL-AMRAAM) software to support Oman's Ground Based Air defense System, training missiles, missile components, warranties, containers, weapon support equipment, repair and return, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical support services, and other related elements of logistics support. The estimated cost is \$1.248 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability in the Middle East.

The proposed purchase of the AVENGER fire units and SL-AMRAAM will improve Oman's capability to meet current and future regional threats. Oman is developing a layered air defense capability that incorporates a larger Foreign Military Sale-Direct Commercial Sale hybrid effort. This modern multi-layered air defense system will be integrated into the national command and control to protect strategic locations in Oman and its nearest vicinity. The system will serve as a deterrent to potential threats from regional unmanned aerial vehicles, cruise missiles, and fighter aircraft. The proposed sale will provide a significant increase in Oman's defensive capability while enhancing interoperability with the U.S. and other coalition forces. Oman will have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Raytheon Missile Systems of Tucson, Arizona, and Boeing of Huntsville, Alabama.

The purchaser typically requests offsets. Any offset agreements will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require multiple trips to Oman involving many U.S. Government or contractor representatives over a period of up to or over 15 years for program and technical support, equipment checkout, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **India - C-130J Aircraft**

WASHINGTON, Oct. 27, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 26 of a possible Foreign Military Sale to the Government of India for six Lockheed Martin C-130Js and associated equipment, parts, training and logistical support for an estimated cost of \$1.2 billion.

The Government of India has requested a possible sale of 6 Lockheed Martin C-130J United States Air Force (USAF) baseline aircraft including: USAF baseline equipment, 6 Rolls Royce AE 2100D3 spare engines, 8 AN/AAR-47 Missile Warning Systems (two of them spares), 8 AN/ALR-56M Advanced Radar Warning Receivers (two of them spares), 8 AN/ALE-47 Counter-Measures Dispensing Systems (two of them spares), 8 AAQ-22 Star SAFIRE III Special Operations Suites (two of them spares), 8 ARC-210 Radios (Non-COMSEC), and 3200 Flare Cartridges. Also included are spare and repair parts, configuration updates, communications security equipment and radios, integration studies, support equipment, publications and technical documentation, technical services, personnel training and training equipment, foreign liaison office support, Field Service Representatives' services, U.S. Government and contractor engineering and logistics personnel services, and other related elements of logistics support.

The estimated cost is \$1.2 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of an important partner and to strengthen the U.S.-India strategic relationship.

The proposed sale will provide the Indian Government with a credible special operations airlift capability that will help deter aggression in the region and provide enhanced humanitarian assistance and disaster relief support.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Lockheed Martin Aeronautics Company in Marietta, Georgia, and Rolls-Royce Corporation in Indianapolis, Indiana. Offset agreements associated with this proposed sale are expected, but at this time the specific offset agreements are undetermined and will be defined in negotiations between the purchaser and the contractors.

Implementation of this proposed sale may require the assignment of ten U.S. Government and contractor representatives in India for a period of up to three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-29

**Saudi Arabia – M1151A1-B1, M1152A1-B2 HMMWVs**

WASHINGTON, Oct. 27, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 26 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia for 124 M1151A1-B1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs), 99 M1152A1-B2 Up-Armored HMMWVs and associated equipment, parts, training and logistical support for an estimated cost of \$33 million.

The Kingdom of Saudi Arabia has requested a possible sale of 124 M1151A1-B1 Up-Armored High Mobility Multi-Purpose Wheeled Vehicles (HMMWVs) and 99 M1152A1-B2 Up-Armored HMMWVs, with supplemental armor kits, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$33 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will provide a highly mobile and light combat vehicle capability enabling the Royal Saudi Land Forces (RSLF) to rapidly engage and defeat perimeter security threats and readily employ counter and anti-terrorism measures. The RSLF already has HMMWVs in its inventory and will have no difficulty absorbing these vehicles.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be AM General of South Bend, Indiana. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-37

## **Finland – AGM-158 Joint Air-to-Surface Standoff Missiles (JASSM)**

WASHINGTON, Oct. 31, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 28 of a possible Foreign Military Sale to the Government of Finland for 70 AGM-158 Joint Air-to-Surface Standoff Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$255 million.

The Government of Finland has requested a sale of 70 AGM-158 Joint Air-to-Surface Standoff Missiles (JASSM), 2 test vehicles, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$255 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a partner nation that remains an important force for political stability and economic progress in Europe. Finland is a member of the North Atlantic Treaty Organization's (NATO) Partnership for Peace as well as a member of the Euro-Atlantic Partnership Council. It additionally became a European Union member in 1995. Finnish troops have participated in UN peacekeeping activities since 1956, and the Finns continue to be one of the largest per capita contributors of peacekeepers in the world. Finland is an active participant in the Organization for Security and Cooperation in Europe (OSCE) and in early 1995 assumed the co-chairmanship of the OSCE's Minsk Group on the Nagorno-Karabakh conflict. Finland chaired the OSCE in 2008 and was part of the Chairmanship Troika in 2009.

Finland intends to integrate the JASSM on its F/A-18C/D aircraft. Finland's acquisition of JASSM is intended to modernize its current aircraft munitions suite and counter potential threats. This will contribute to the Finnish military's goal of updating its capability. Finland will have no difficulty absorbing these missiles into its inventory.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Industries in Tampa, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Finland.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Finland – Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft Missiles**

WASHINGTON, Oct. 31, 2011 – The Defense Security Cooperation Agency notified Congress Oct. 28 of a possible Foreign Military Sale to the Government of Finland for 600 STINGER-Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft missiles and associated equipment, parts, training and logistical support for an estimated cost of \$330 million.

The Government of Finland has requested a possible sale of 600 STINGER-Reprogrammable Micro-Processor (RMP) Block 1 Anti-Aircraft missiles, 10 STINGER Block 1 Production Verification Flight Test missiles, 110 Gripstock Block 1 Control Groups, 1827 Battery Coolant Units, 16 Tracking Head Trainers (THT), 50 Field Handling Trainers (FHT), 2 GCU-31A/E Gas Charging Units, 110 Night Sights, 1 STINGER Troop Proficiency Trainer, 1 Launch Simulator, 16 THT metal containers, 16 FHT metal containers, refurbishment, upgrades, spare and repair parts, tools and tool sets, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$330 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for economic progress in Northern Europe.

This proposed sale will enable Finland to modernize its armed forces and enhance its existing air defense architecture to counter threats posed by air attack. The proposed sale will provide Finland a defensive capability while enhancing interoperability with the U.S. and other allied forces. Finland will have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 10 U.S. Government or contractor representatives to travel to Finland for a period of eight weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-31

## **Turkey – AH-1W SUPER COBRA Attack Helicopters**

WASHINGTON, Oct. 28, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Turkey for three AH-1W SUPER COBRA Attack Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$111 million.

The Government of Turkey has requested a possible sale of three AH-1W SUPER COBRA Attack Helicopters, seven T700-GE-401 engines (six installed and one spare), inspections and modifications, spare and repair parts, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics personnel support services, and other related elements of logistics support. The estimated cost is \$111 million.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale will improve Turkey's capability for self defense, modernization, regional security, and interoperability with U.S. and other NATO members. AH-1W helicopters are already in the Turkish Land Forces Command inventory and will further enhance Turkey's ground defense capabilities. Turkey will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of these helicopters will not alter the basic military balance in the region or U.S. efforts to encourage a negotiated settlement in Cyprus.

There will be no prime contractor associated with this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of approximately five contractor representatives to Turkey for a period of up to 90 days for differences training between U.S. and Turkish AH-1Ws helicopters.

These aircraft will be sold from the United States Marine Corps' (USMC) inventory. The effect on USMC readiness will be mitigated by the submission of a reprogramming action to return the sales proceeds from the U.S. Treasury's general receipts account to the USMC's H-1 upgrades program.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-41

**Kuwait - Technical/Logistics Support for F/A-18 Aircraft**

WASHINGTON, Nov. 8, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Kuwait for continuing logistics support, contractor maintenance, and technical services in support of the F/A-18 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$100 million.

The Government of Kuwait has requested a possible sale of continuing logistics support, contractor maintenance, and technical services in support of the F/A-18 aircraft to include Contractor Engineering Technical Services/Contractor Maintenance Services, Hush House Maintenance Support services, and Liaison Office Support Services, U.S. Government and contractor technical and logistics personnel services and other related elements of program support. The estimated cost is \$100 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait needs this logistics support, contractor maintenance, and technical services to maintain the operational capabilities of its aircraft.

The contractor maintenance and training technical services will not alter the basic military balance in the region.

The principal contractors will be The Boeing Company in St. Louis, Missouri; Kay and Associates in Buffalo Grove, Illinois; Industrial Acoustics Company in Winchester, United Kingdom; and General Dynamics in Fairfax, Virginia. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-36

**Malaysia – AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, Nov. 8, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Malaysia for 20 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$52 million.

The Government of Malaysia has requested a possible sale of 20 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles, 8 CATM-9X-2 Captive Air Training Missiles, 4 CATM-9X-2 Block II Missile Guidance Units, 2 AIM-9X-2 Block II Tactical Guidance Units, 2 Dummy Air Training Missiles, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$52 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in East Asia.

The Royal Malaysian Air Force is modernizing its fighter aircraft to better support its own air defense needs. The proposed sale of AIM-9X-2 missiles will enhance Malaysia's interoperability with the U.S. and among other South East Asian nations, making it a more valuable partner in an increasingly important area of the world.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Malaysia on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-40

## **Peru – Refurbishment of Two C-130E Aircraft**

WASHINGTON, Nov. 8, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Peru for the modification and refurbishment of two C-130E aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$74 million.

The Government of Peru has requested a possible sale for the modification and refurbishment of two C-130E aircraft being provided as Excess Defense Articles (grant EDA notification submitted separately) to include: aircraft ferry, spare and repair parts, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$74 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, a close partner in countering illicit drug trafficking, a force for economic progress in South America, and a proponent of hemispheric cooperation.

This proposed sale will enable the Peruvian Air Force to modernize its aging aircraft and enhance its capacity to support humanitarian efforts in the region. Peru occupies a strategic location in South America, and the sale of refurbishment support for its EDA grant C-130 aircraft will improve Peru's efforts in conducting maritime interdiction operations, improve its ability to execute counter-narcotics and counterterrorism capabilities, and ensure Peru's overall ability to maintain the integrity of its borders. Additionally, this transfer will enhance the Peruvian Military's ability to support to Humanitarian Assistance and Disaster Relief (HA/DR) efforts. Peru, which already has C-130 and L-100 aircraft in its inventory, will have no difficulty absorbing these additional aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for the refurbishment is undetermined at this time. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Peru.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-49

## **Australia – C-17 GLOBEMASTER III Aircraft**

WASHINGTON, Nov. 15, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Australia for one C-17 GLOBEMASTER III aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$300 million.

The Government of Australia has requested a possible sale of one C-17 GLOBEMASTER III aircraft, up to four Pratt & Whitney F117-PW-100 engines, one AN/AAQ-24V(13) Large Aircraft Infrared Countermeasures (LAIRCM) System, spare and repair parts, supply and test equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, logistics, and technical support services, and other related logistics support. The estimated cost is \$300 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in Operation IRAQI and ENDURING FREEDOM, and peacekeeping, and humanitarian operations have made a significant impact on regional, political, and economic stability and have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

Australia currently has a heavy airlift capability comprised of five C-17As. This additional C-17 will further improve Australia's capability to rapidly deploy in support of global coalition operations and will greatly enhance its ability to lead regional humanitarian/peacekeeping operations such as its current response to the Queensland flooding, cyclone aftermath and the New Zealand earthquake.

Australia has the ability to absorb and employ the additional C-17. The C-17 fleet is based at Royal Australian Air Force (RAAF) Base Amberley. RAAF Base Amberley is the primary base for airlift and tanker aircraft and is currently undergoing the infrastructure upgrades required to support the C-17 and other large aircraft Australia already received or is under contract to purchase.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the McDonnell Douglas Corporation, a wholly owned subsidiary of the Boeing Company, in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

**United Kingdom – Electromagnetic Aircraft Launch System Long Lead Sub-Assemblies**

WASHINGTON, Nov. 15, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of the United Kingdom for one long lead sub-assemblies for the Electromagnetic Aircraft Launch System/Advanced Arresting Gear (EMALS/AAG) and associated equipment, parts, training and logistical support for an estimated cost of \$200 million.

The Government of the United Kingdom (UK) has requested the long lead sub-assemblies for the Electromagnetic Aircraft Launch System/Advanced Arresting Gear (EMALS/AAG). The EMALS long lead sub-assemblies include: Energy Storage System, Power Conditioning System, and Launch Control System. The AAG includes: Power Conditioning, Energy Absorption Subsystems, Shock Absorbers, and Drive Fairleads. Also proposed are other items for Aircraft Launch and Recovery Equipment, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, software support, U.S. Government and contractor engineering, technical, and logistics support services, and all other related elements of program support. The estimated cost is \$200 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to maintain and improve the security of a key NATO ally that has been, and continues to be, an important force for major political stability and economic progress throughout Europe.

The proposed sale will improve the UK's aircraft carrier capability to meet current and future threats of adversaries at sea. The sub-systems will introduce state-of-the-art technology in the areas of aircraft launch and recovery onboard the UK's future aircraft carrier program. The UK will have no problem absorbing these additional sub-systems and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Atomics in Rancho Bernardo, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of additional U.S. Government or contractor representatives to the UK.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Indonesia – Regeneration and Upgrade of F-16C/D Block 25 Aircraft**

WASHINGTON, Nov. 17, 2011 – The Defense Security Cooperation Agency notified Congress Nov. 16 of a possible Foreign Military Sale to the Government of Indonesia for the regeneration and upgrade of 24 F-16C/D Block 25 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$750 million.

The Government of Indonesia has requested a sale for the regeneration and upgrade of 24 F-16C/D Block 25 aircraft and 28 F100-PW-200 or F100-PW-220E engines being granted as Excess Defense Articles. The upgrade includes the following major systems and components: LAU-129A/A Launchers, ALR-69 Radar Warning Receivers, ARC-164/186 Radios, Expanded Enhanced Fire Control (EEFC) or Commercial Fire Control, or Modular Mission Computers, ALQ-213 Electronic Warfare Management Systems, ALE-47 Countermeasures Dispenser Systems, Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD), Situational Awareness Data Link, Enhance Position Location Reporting Systems (EPLRS), LN-260 (SPS version, non-PPS), and AN/AAQ-33 SNIPER or AN/AAQ-28 LITENING Targeting Systems. Also included are tools, support and test equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$750 million.

The proposed sale will contribute to the foreign policy and national security of the United States by improving the security of a strategic partner that has been, and continues to be, an important force for economic progress in Southeast Asia.

Indonesia desires the F-16 aircraft to modernize the Indonesian Air Force (IAF) fleet with aircraft more capable of conducting operations in the outermost border regions of Indonesia. The IAF's current fleet of F-16 Block 15 aircraft is not capable of fulfilling that role, and the aging F-5 aircraft are expensive to maintain and operate due to diminishing resources existing to support the aircraft. The avionics upgrade will provide the IAF an additional capability benefitting security by modernizing the force structure, and enhancing interoperability by greater use of U.S.-produced equipment. Indonesia, which already has F-16 Block 15 and F-5 aircraft in its inventory, will have no difficulty absorbing these upgraded systems.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Indonesia requested the regeneration be sole sourced to the 309<sup>th</sup> Maintenance Wing, Hill Air Force Base, in Ogden, Utah, and Pratt Whitney, in East Hartford, Connecticut for the engine overhaul. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Indonesia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 10-56

## **United Arab Emirates – Joint Direct Attack Munitions**

WASHINGTON, Nov. 30, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of the United Arab Emirates (UAE) for 4,900 JDAM kits and associated equipment, parts, training and logistical support for an estimated cost of \$304 million.

The Government of the UAE has requested a possible sale of 4,900 JDAM kits which includes 304 GBU-54 Laser JDAM kits with 304 DSU-40 Laser Sensors, 3,000 GBU-38(V)1 JDAM kits, 1,000 GBU-31(V)1 JDAM kits, 600 GBU-31(V)3 JDAM kits, 3,300 BLU-111 500lb General Purpose Bombs, 1,000 BLU-117 2,000lb General Purpose Bombs, 600 BLU-109 2,000lb Hard Target Penetrator Bombs, and four BDU-50C inert bombs, fuzes, weapons integration, munitions trainers, personnel training and training equipment, spare and repair parts, support equipment, U.S. government and contractor engineering, logistics, and technical support, and other related elements of program support. The estimated cost is \$304 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a key partner that has been, and continues to be, an important force for political stability and economic progress in the Middle East. The UAE Government continues vital host-nation support of U.S. forces stationed at Al Dhafra Air Base, plays an important role in supporting U.S. regional interests, and has proven to be a valued partner in overseas operations.

The proposed sale will improve the UAE's capability to meet current and future regional threats. The UAE Air Force and Air Defense (AF&AD) continue to operate the F-16 Block 60 aircraft. These additional munitions will ensure operational capability and will help the UAE AF&AD become one of the most capable air forces in the region, thereby serving U.S. interests by deterring regional aggression. These munitions will be used to complement the normal war-readiness reserve stockpile of munitions and provide munitions for routine training requirements. The UAE will have no difficulty absorbing these munitions into its air force.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Boeing Company in Chicago, Illinois, and McAlester Army Ammunition Plant in McAlester, Oklahoma. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of additional U.S. Government or contractor representatives to the UAE. The number of U.S. Government and contractor representatives required to support the program will be determined in joint negotiations as the program proceeds through the development, production and equipment installation phases.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-43

## **Hungary – UH-1N Helicopters**

WASHINGTON, Dec. 8, 2011 – The Defense Security Cooperation Agency notified Congress Dec. 6 of a possible Foreign Military Sale to the Government of Hungary for the modification and inspection of 32 UH-1N Utility Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$426 million.

The Government of Hungary has requested a possible sale of the modification and inspection of 32 UH-1N Utility Helicopters and 20 T-400 spare engines being provided as grant Excess Defense Articles (EDA). Also provided are Forward Looking Infrared Radar, Night Vision Devices, simulators, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$426 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the military capabilities of Hungary and furthering NATO standardization and interoperability between United States and other NATO allies.

The proposed sale will help improve Hungary's overall ability to conduct humanitarian and search and rescue medical evacuation missions. The proposed sale would further enhance and enable interoperability with U.S. Armed Forces and other coalition partners in the region. Similar items have not previously been provided to Hungary.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be the U.S. Navy, Naval Air Systems Command. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple U.S. Government and contractor representatives to travel to Hungary for one week intervals, semi-annually, for a period of three years for program and technical reviews, and training and maintenance support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-46

## **Iraq F-16 Aircraft**

WASHINGTON, Dec. 12, 2011 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Iraq for 18 F-16IQ aircraft and associated equipment, parts, weapons, training and logistical support for an estimated cost of \$2.3 billion.

The Government of Iraq has requested a possible sale of 18 F-16IQ aircraft, 24 F100PW-229 or F110-GE-129 Increased Performance Engines, 120 LAU-129/A Common Rail Launchers, 24 APG-68(V)9 radar sets, 19 M61 20mm Vulcan Cannons, 100 AIM-9L/M-8/9 SIDEWINDER Missiles, 150 AIM-7M-F1/H SPARROW Missiles, 50 AGM-65D/G/H/K MAVERICK Air to Ground Missiles, 200 GBU-12 PAVEWAY II Laser Guided Bomb Units (500 pound), 50 GBU-10 PAVEWAY II Laser Guided Bomb Units (2000 pound), 50 GBU-24 PAVEWAY III Laser Guided Bomb Units (2000 pound), 22 ALQ-211 Advanced Integrated Defensive Electronic Warfare Suites (AIDEWS), or Advanced Countermeasures Electronic System (ACES) (ACES includes the ALQ-187 Electronic Warfare System and AN/ALR-93 Radar Warning Receiver), 20 AN/APX-113 Advanced Identification Friend or Foe (AIFF) Systems (without Mode IV), 20 Global Positioning Systems (GPS) and Embedded GPS/ Inertial Navigation Systems (INS), (Standard Positioning Service (SPS) commercial code only), 20 AN/AAQ-33 SNIPER or AN/AAQ-28 LITENING Targeting Pods, 4 F-9120 Advanced Airborne Reconnaissance Systems (AARS) or DB-110 Reconnaissance Pods (RECCE), 22 AN/ALE-47 Countermeasures Dispensing Systems (CMDS), 20 Conformal Fuel Tanks (pairs), 120 Joint Helmet Mounted Cueing Systems (JHMCS), 20 AN/ARC-238 Single Channel Ground and Airborne Radio Systems, 10,000 PGU-27A/B Ammunition, 30,000 PGU-28 Ammunition, 230 MK-84 2000 lb General Purpose Bombs, and 800 MK-82 500lb General Purpose Bombs. Also included: LAU-117 Maverick Launchers, site survey support equipment, Joint Mission Planning System, Ground Based Flight Simulator, tanker support, ferry services, Cartridge Actuated Devices/Propellant Actuated Devices (CAD/PAD), repair and return, modification kits, spares and repair parts, construction, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical, engineering, and logistics support services, ground based flight simulator, and other related elements of logistics support. The estimated cost is \$2.3 billion.

The proposed sale will contribute to the foreign policy and national security objectives of the United States by enhancing the capability of Iraq's Air Force. The proposed aircraft and accompanying weapon systems will greatly enhance Iraq's interoperability with the U.S. and other NATO nations, making it a more valuable partner in an important area of the world, as well as supporting Iraq's legitimate need for its own self-defense.

The proposed sale will allow the Iraqi Air Force to modernize its air force by acquiring western interoperable fighter aircraft, thereby enabling Iraq to support both its own air defense needs and coalition operations. The country will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be:

BAE Advanced Systems	Greenlawn, New York
Boeing Corporation	Seattle, Washington
Boeing Integrated Defense Systems (three locations)	St Louis, Missouri
	Long Beach, California
	San Diego, California
Raytheon Company (two locations)	Lexington, Massachusetts
Raytheon Missile Systems	Goleta, California
Lockheed Martin Aeronautics Company	Tucson, Arizona
Lockheed Martin Missile and Fire Control	Fort Worth, Texas
Lockheed Martin Simulation, Training and Support	Dallas, Texas
Northrop-Grumman Electro-Optical Systems	Fort Worth, Texas
Northrop-Grumman Electronic Systems	Garland, Texas
Pratt & Whitney United Technology Company	Baltimore, Maryland
General Electric Aircraft Engines	East Hartford, Connecticut
Goodrich ISR Systems	Cincinnati, Ohio
L3 Communications	Danbury, Connecticut
ITT Defense Electronics and Services	Arlington, Texas
Symetrics Industries	McLean, Virginia
	Melbourne, Florida

There are no known offset agreements in connection with this proposed sale.

Implementation of this proposed sale will require multiple trips to Iraq involving U.S. Government and contractor representatives for technical reviews/support, program management, and training over a period of 15 years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-45

**United Arab Emirates – JAVELIN Anti-Tank Missiles**

WASHINGTON, Dec. 16, 2011 – The Defense Security Cooperation Agency notified Congress Dec. 14 of a possible Foreign Military Sale to the Government of the United Arab Emirates of 260 JAVELIN Anti-Tank Guided Missiles and associated equipment, parts, weapons, training and logistical support for an estimated cost of \$60 million.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 260 JAVELIN Anti-Tank Guided Missiles, tripods, JAVELIN Weapon Effects Simulators, enhanced basic skills trainers, containers, rechargeable and non-rechargeable batteries, battery chargers and dischargers, battery coolant units, support equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$60 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale of these missiles will provide the United Arab Emirates with a medium-range, man-portable, shoulder-launched, fire and forget anti-armor weapon system. The proposed sale will enhance UAE's existing anti-tank capability to meet current and future threats. UAE, which already has JAVELIN Anti-Tank missiles in its inventory, will have no difficulty absorbing these additional missiles into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor is a JAVELIN joint venture of Lockheed-Martin in Orlando, Florida, and Raytheon in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-51

## **Australia – C-27J Aircraft and Related Support**

WASHINGTON, Dec. 19, 2011 – The Defense Security Cooperation Agency notified Congress Dec. 16 of a possible Foreign Military Sale to the Government of Australia for 10 C-27J aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$950 million.

The Government of Australia requested a possible sale of 10 C-27J aircraft; 23 AE2100D2 Rolls Royce engines; 12 Electronic Warfare Self Protection Suites; 12 AAR-47A(V)2 Missile Warning Systems; 12 ALE-47(V) Threat Adaptive Countermeasures Dispensing Systems; 12 APR-39B(V)2 Radar Warning Receivers; 13 AN/APN-241 Radar Systems; 44 AN/ARC-210 Warrior Very High Frequency/Ultra High Frequency Communication Systems; 12 KY-100 Units; 12 HF 9550 Radios; 12 APX-119 Identification Friend or Foe (Mode 4); 14 Blue Force Trackers; 12 Portable Flight Mission Planning Systems; support and test equipment; repair and return; spare and repair parts; aircraft ferry and tanker support; personnel training and training equipment; publications and technical data; Operational Flight Simulator, Fuselage, and Maintenance trainers; U.S. Government and contractor representative engineering, logistics, and technical support services; and other related elements of logistics and program support. The estimated cost is \$950 million.

Australia is one of our most important allies in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia views interoperability with U.S. Forces as an important goal and objective for equipment acquisition. Accordingly, and in line with the overall procurement strategy, Australia seeks an acquisition FMS case that supports the procurement of the C-27J aircraft.

The proposed sale will allow the Australian Defense Force (ADF) to improve its capability to meet current and future air mobility needs and humanitarian operations and disaster relief efforts in Southeast Asia. The ADF retired its fleet of 14 DHC-4 Caribou aircraft in 2009 and will soon retire 12 C-130H aircraft. The proposed sale of C-27J's will provide the capability needed to meet operational needs and emerging requirement. Australia will have no difficulty absorbing the C-27J and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be L3 Integrated Systems Group in Waco, Texas. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-50

**Saudi Arabia - Engineering Services Program (ESP)**

WASHINGTON, Dec. 23, 2011 – The Defense Security Cooperation Agency notified Congress Dec. 22 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia of the continuation of services for the PATRIOT Systems Engineering Services Program (ESP) and associated equipment, parts, training and logistical support for an estimated cost of \$120 million.

The Kingdom of Saudi Arabia has requested a possible sale of the continuation of services for the PATRIOT Systems Engineering Services Program (ESP). Also included: modification kits, engineering changes, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$120 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will facilitate the continuation of existing services that Saudi Arabia has had under the Shared Engineering Services Program (SESP) for the past 20 years. The ESP provides material support to Saudi's defense and serves U.S. interests in the region.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Integrated Defense in Andover, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
