Transmittal No. 11-54

## **Poland – F-16 Follow-On Support and Additional Munitions**

WASHINGTON, Feb. 3, 2012 – The Defense Security Cooperation Agency notified Congress Feb. 2 of a possible Foreign Military Sale to Poland of F-16 support and munitions, as well as associated equipment, parts, training and logistical support for an estimated cost of \$447 million.

The Government of Poland has requested a possible sale of 93 AIM-9X-2 SIDEWINDER Block II Tactical Missiles, 4 CATM-9X-2 Captive Air Training Missiles, 65 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles, 42 GBU-49 Enhanced PAVEWAY II 500 lb Bombs, 200 GBU-54 (2000 lb) Laser Joint Direct Attack Munitions (JDAM) Bombs, 642 BLU-111 (500 lb) General Purpose Bombs, 127 MK-82 (500 lb) General Purpose Bombs, 80 BLU-117 (2000 lb) General Purpose Bombs, 4 MK-84 (2000 lb) Inert General Purpose Bombs, 9 F-100-PW-229 Engine Core Modules, 28 Night Vision Devices plus 6 spare intensifier tubes, 12 Autonomous Air Combat Maneuvering Instrumentation P5 pods, a Joint Mission Planning System, and five years of follow-on support and sustainment services for Poland's F-16 fleet, spare and repair parts, support and test equipment, publications and technical documentation, system overhauls and upgrades, personnel training and training equipment, U.S. Government and contractor technical support, and other related elements of program support. The estimated cost is \$447 million.

Poland is an important ally in Northern Europe, contributing to NATO activities and ongoing U.S. interests in the pursuit of peace and stability. Poland's efforts in peacekeeping operations in Iraq and Afghanistan continue to serve U.S. national security interests. It is vital to the U.S. national interest to assist Poland to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve Poland's capability to meet current and future operational needs. The upgrade will allow Poland to continue to bolster its regional leadership while increasing NATO interoperability. Poland already has these missiles and munitions in its inventory and will have no difficulty absorbing the additional systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Raytheon Corporation in Tucson, Arizona, Raytheon Corporation in Waltham, Massachusetts, The Boeing Company in St. Charles, Missouri, McAlester Army Ammunition Plant in McAlester, Oklahoma, and United Technologies Corporation in Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Poland. However, periodic travel to Poland will be required on a temporary basis in conjunction with program, technical, and management oversight and support requirements.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-11

## **Japan – KC-130R Aircraft**

WASHINGTON, Feb. 21, 2012 – The Defense Security Cooperation Agency notified Congress Feb. 16 of a possible Foreign Military Sale to Japan to provide regeneration, overhaul, modifications and support for 6 KC-130R aircraft and associated engines for an estimated cost of \$170 million.

The Government of Japan has requested a possible sale to provide 6 KC-130R and 30 T-56-A-16 engines being provided as Excess Defense Articles (EDA), along with the regeneration, overhaul, modifications, and logistics support for those engines. Also included are 6 non-EDA spare T-56-A-16 engines, 6 AN/APS-133 Radars, 9 AN/APX-119 Transponder Systems (6 installed and 3 spares), transportation, aircraft ferry support, repair and return, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$170 million. The EDA portion of this sale is also being notified separately as required by statute.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. This proposed sale is consistent with these U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The proposed sale of aircraft and support will help to modernize the Japanese Defense Force's aging cargo aircraft fleet. The KC-130 will provide Japan with an improved capability for the movement of cargo and personnel in humanitarian missions.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor for training will be CAE, Inc in Tampa, Florida. The regeneration, overhaul, and modifications will be accomplished by U.S. Government personnel. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government personnel to Japan on a temporary basis to support aircraft deliveries, technical assistance, technical and program reviews, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 11-53

**Kuwait – AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, Feb. 27, 2012 – The Defense Security Cooperation Agency notified Congress Feb. 24 of a possible Foreign Military Sale to Kuwait of 80 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$105 million.

The Government of Kuwait has requested a possible sale of 80 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles, 26 CATM-9X-2 Captive Air Training Missiles, 2 CATM-9X-2 Block II Missile Guidance Units, 8 AIM-9X-2 Block II Tactical Guidance Units, 2 Dummy Air Training Missiles, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$105 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Kuwait Air Force is modernizing its fighter aircraft to better support its own air defense needs. The proposed sale of AIM-9X-2 missiles will enhance Kuwait's interoperability with the U.S. and among other Central Command nations, making it a more valuable partner in an increasingly important area of the world.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Kuwait on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-14

## **United Kingdom – F117-PW-100 Engines**

WASHINGTON, March 7, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the United Kingdom of 20 F-117-PW-100 engines and associated equipment, parts, training and logistical support for an estimated cost of \$300 million.

The Government of the United Kingdom (UK) has requested the possible sale of 20 F-117-PW-100 engines, engine exchange kits, support equipment, Global Positioning Systems, communications equipment, spare and repair parts, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical, and logistics support services, and all other related elements of program support. The proposed sale supports the continued UK access to the United States Air Force/Boeing GLOBEMASTER III Sustainment Partnership program supporting the UK's fleet of eight Boeing C-17A GLOBEMASTER III aircraft. The estimated cost is \$300 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to maintain and improve the security of a key NATO ally that has been, and continues to be, an important force for major political stability and economic progress throughout Europe.

The UK was the first foreign customer for the C-17 GLOBEMASTER III cargo aircraft. Continued sustainment of this system by the UK helps alleviate the burden placed on U.S. forces supporting NATO operations. The C-17 provides the UK with an increased force protection capability that enhances regional and global stability. The UK will have no problem absorbing these additional engines and support into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Boeing Company in Long Beach, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of additional U.S. Government or contractor representatives to the UK.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-15

## **Japan – F-35 Joint Strike Fighter Aircraft**

WASHINGTON, May 1, 2012 – The Defense Security Cooperation Agency notified Congress April 30 of a possible Foreign Military Sale to the Government of Japan for a possible sale of an initial four F-35 Joint Strike Fighter Conventional Take-Off and Landing (CTOL) aircraft with an option to purchase an additional 38 F-35 CTOL aircraft. The estimated cost is \$10 billion.

All aircraft will be configured with the Pratt and Whitney F-135 engines, and 5 spare Pratt and Whitney F-135 engines. Other Aircraft Equipment includes: Electronic Warfare Systems, Command, Control, Communication, Computers and Intelligence/Communication, Navigational and Identifications (C4I/CNI), Autonomic Logistics Global Support System (ALGS), Autonomic Logistics Information System (ALIS), Flight Mission Trainer, Weapons Employment Capability, and other Subsystems, Features, and Capabilities, F-35 unique infrared flares, reprogramming center, and F-35 Performance Based Logistics. Also included: software development/integration, flight test instrumentation, aircraft ferry and tanker support, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$10 billion.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. This proposed sale is consistent with these U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The proposed sale of aircraft and support will augment Japan's operational aircraft inventory and enhance its air-to-air and air-to-ground self-defense capability. The Japan Air Self-Defense Force's F-4 aircraft will be decommissioned as F-35's are added to the inventory. Japan will have no difficulty absorbing these aircraft into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Lockheed Martin Aeronautics Company in Fort Worth, Texas, and Pratt and Whitney Military Engines in East Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Japan involving U.S. Government and contractor representatives for technical reviews/support, programs management, and training over a period of

15 years. U.S. contractor representatives will be required in Japan to conduct Contractor Engineering Technical Services (CETS) and Autonomic Logistics and Global Support (ALGS) for after-aircraft delivery.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-16

## **Singapore – F-15SG Pilot Training**

WASHINGTON, May 1, 2012 – The Defense Security Cooperation Agency notified Congress April 30 of a possible Foreign Military Sale to the Government of Singapore of a possible sale of follow-on support and services for Singapore’s Continental United States (CONUS) detachment PEACE CARVIN V (F-15SG) based at Mountain Home Air Force Base (AFB) for a five-year period. The estimated cost is \$435 million.

The Government of Singapore has requested a possible sale of follow-on support and services for Singapore’s Continental United States (CONUS) detachment PEACE CARVIN V (F-15SG) based at Mountain Home Air Force Base (AFB) for a five-year period. MDE includes: 40 GBU-10 PAVEWAY II Laser Guided Bomb Units, 40 MXU-651/B Air Foil Groups, 84 GBU-12 PAVEWAY II Laser Guided Bomb Units, 84 MXU-650/Bs Air Foil Groups, 124 MAU-169L/Bs Guidance Control Units, and 3 P5 Combat Training System Pods. Also included: commercial vehicles, publications and technical documentation, tactics manuals and academic instruction, clothing and individual equipment, execution and support of CONUS exercise deployments, airlift and aerial refueling, support equipment, spare and repair parts, repair and return, personnel training and training equipment, U.S. Government and contractor technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$435 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for economic progress in Southeast Asia.

Singapore needs this training and munitions to support its F-15 aircraft. This program will enable Singapore to develop mission-ready and experienced pilots to support its current and future F-15 aircraft inventory. The well-established pilot proficiency training program at Mountain Home Air Force Base will support professional interaction and enhance operational interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There is no prime contractor involved in this proposed sale. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will not require the assignment of any additional U.S. Government and contractor representatives to Singapore.

There will be no adverse impact on the U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-21

## **Korea – MH-60R SEAHAWK Multi-Mission Helicopters**

WASHINGTON, May 16, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of the Republic of Korea for eight MH-60R SEAHAWK Multi-Mission Helicopters, associated parts, equipment, training and logistical support for an estimated cost of \$1.0 billion.

The Government of the Republic of Korea has requested a possible sale of eight MH-60R SEAHAWK Multi-Mission Helicopters, 18 T-700 GE 401C Engines (16 installed and 2 spares), communication equipment, electronic warfare systems, support equipment, spare engine containers, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$1.0 billion.

The Government of the Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our Korean ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The proposed sale of the MH-60R SEAHAWK helicopter will improve South Korea's capability to meet current and future threats from enemy Anti-Surface Warfare (ASW) capabilities. The sale of these MH-60R helicopters will enhance interoperability with U.S. Naval forces, and add to the military stability of the region. Korea will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this system and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut; Lockheed Martin in Owego, New York; and General Electric in Lynn, Massachusetts. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Korea involving U.S. Government or contractor representatives on a temporary basis for program and technical support, and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Republic of Korea – UGM-84L HARPOON Missiles**

WASHINGTON, May 22, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Korea for 18 UGM-84L HARPOON Block II All-Up-Round Missiles and associated parts, equipment, logistical support and training for an estimated cost of \$84 million.

The Government of Korea has requested a possible sale of 18 UGM-84L HARPOON Block II All-Up-Round Missiles, 1 UGM-84L HARPOON telemetry exercise section, containers, Guidance Control Units (GCU) spares, recertification and reconfiguration support, spare and repair parts, tools and tool sets, support equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$84 million.

The Government of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our Korean ally in developing and maintaining a strong and ready self-defense capability, which will contribute to an acceptable military balance in the area.

The Republic of Korea (ROK) intends to use the HARPOON Block II missiles to supplement its existing HARPOON missile capability. This will enhance the capabilities of the ROK Navy and support its regional influence, a key factor in Overseas Contingency Operations. The acquisition of the HARPOON Block II missiles and support will supplement current weapon inventories and bring the ROK's Naval Anti-Surface Warfare performance up to existing regional baselines. The proposed sale will provide a defensive capability while enhancing interoperability with the U.S. and other allied forces. Korea will have no difficulty absorbing these additional missiles into its armed forces. The proposed sale of HARPOON missiles will not alter the basic military balance in the region.

The prime contractor will be the Boeing Company in St Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor personnel to Korea. However, U.S. Government or contractor personnel in-country visits will be required on a temporary basis for program, technical, and management oversight and support requirements.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-09

## **Bangladesh – C-130E Aircraft**

WASHINGTON, May 22, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Bangladesh to provide regeneration, overhaul, modifications, and logistics support for 4 Lockheed Martin C-130Es and associated parts, equipment, and training for an estimated cost of \$180 million.

The Government of Bangladesh has requested a possible sale to provide the regeneration, overhaul, modifications, and logistics support of 4 Lockheed Martin C-130E United States Air Force (USAF) baseline aircraft and 20 T56AA Rolls-Royce engines being provided as grant Excess Defense Articles (EDA). Also included are transportation, aircraft ferry support, repair and return, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$180 million

The proposed sale will contribute to the foreign policy and national security of the United States by enabling the Bangladesh Air Force (BAF) to use its C-130 fleet to respond more capably to humanitarian assistance and disaster relief needs in the region and support Bangladesh's significant contributions to United Nations Peacekeeping Operations, and support operations to counter violent extremist organizations. It will also improve the commonality and interoperability of the BAF and the U.S. Air Force. The proposed sale of support will help to modernize the BAF's aging cargo aircraft fleet. The C-130E will provide Bangladesh with an improved capability for the movement of cargo and personnel in humanitarian missions.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be determined via competitive bid. There are no known offset agreements proposed in connection with this potential sale

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Bangladesh.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-27

**Australia – EA-18G Airborne Electronic Attack (AEA) Aircraft Modification Kits**

WASHINGTON, May 22, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Australia for 12 EA-18G Modification Kits to convert F/A-18F aircrafts to the G configuration and associated parts, equipment, training and logistical support for an estimated cost of \$1.7 billion.

The Government of Australia has requested a possible sale of 12 EA-18G Modification Kits to convert F/A-18F aircrafts to G configuration, (34) AN/ALQ-99F(V) Tactical Jamming System Pods, (22) CN-1717/A Interference Cancellation Systems (INCANS), (22) R-2674(C)/A Joint Tactical Terminal Receiver (JTTR) Systems, (30) LAU-118 Guided Missile Launchers, Command Launch Computer (CLC) for High Speed Anti-Radiation Missile (HARM) and Advanced Anti-Radiation Guided Missile (AARGM, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government (USG) and contractor engineering, technical, and logistics support services, and other related elements of logistical and program support. The estimated cost is \$1.7 billion.

Australia is an important ally in the Western Pacific. The strategic location of this political and economic power contributes significantly to ensuring peace and economic stability in the region. Australia's efforts in peacekeeping and humanitarian operations have made a significant impact to regional political and economic stability and have served U.S. national security interests. This proposed sale is consistent with those objectives and facilitates burden sharing with our allies.

The proposed sale will improve Australia's capability in current and future coalition efforts. Australia will use the enhanced capability as a deterrent to regional threats and to strengthen its homeland defense. Australia will have no difficulty absorbing this new capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be The Boeing Corporation in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of additional U.S. Government or contractor representatives to Australia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-23

## **Republic of Korea – CBU-105D/B Sensor Fuzed Weapons**

WASHINGTON, June 4, 2012 – The Defense Security Cooperation Agency notified Congress June 1 of a possible Foreign Military Sale to the Government of the Republic of Korea for 367 CBU-105D/B Wind Corrected Munition Dispenser (WCMD) Sensor Fuzed Weapons and associated parts, equipment, logistical support and training for an estimated cost of \$325 million.

The Government of Republic of Korea has requested a possible sale of (367) CBU-105D/B Wind Corrected Munition Dispenser (WCMD) Sensor Fuzed Weapons (SFW), (28) Captive Air Training Missiles (CATM), (7) Dummy Air Training Missiles (DATM), and (18) spare tails kits for maintenance float, communication equipment, electronic warfare systems, support equipment, spare engine containers, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$325 million.

This proposed sale will contribute to the foreign policy goals and national security objectives of the United States by meeting the legitimate security and defense needs of an ally and partner nation. The Republic of Korea continues to be an important force for peace, political stability, and economic progress in North East Asia.

The Republic of Korea intends to use these CBU-105D/B Sensor Fuzed Weapons to modernize its armed forces and enhance its capability to defeat a wide range of enemy defenses including fortifications, armored vehicles, and maritime threats. Additionally, the munition's precision and low failure rate will reduce incidents of fratricide and increase overall effectiveness. The proposed sale will allow the Republic of Korea Air Force (ROKAF) to expand interoperability with US and other regional coalition forces. The Republic of Korea will have no difficulty absorbing these munitions into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Employment of the CBU-105D/B Sensor Fuzed Weapon will not result in more than one percent unexploded ordnance across the range of intended operational environments. The agreement applicable to the transfer of the CBU-105D/B and the CBU-105D/B integration test assets will contain a statement by the Government of the Republic of Korea that the cluster munitions and cluster munitions technology will be used only against clearly defined military targets and will not be used where civilians are known to be present or in areas normally inhabited by civilians.

The prime contractor will be Textron Systems Corporation of Wilmington, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to the Republic of Korea involving up to two U.S. Government and three contractor representatives for technical reviews/support, and program management for a period of approximately two years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-25

**Finland – Army Tactical Missile Systems M-39 Block 1A**

WASHINGTON, June 4, 2012 – The Defense Security Cooperation Agency notified Congress June 1 of a possible Foreign Military Sale to the Government of Finland for 70 M-39 Block 1A Army Tactical Missile System (ATACMS) T2K Unitary Missiles and associated parts, equipment, logistical support and training for an estimated cost of \$132 million.

The Government of Finland has requested a possible sale of 70 M-39 Block 1A Army Tactical Missile System (ATACMS) T2K Unitary Missiles, Missile Common Test Device software, ATACMS Quality Assurance Team support, spare and repair parts, tools and test equipment, support equipment, personnel training and training equipment, publications and technical data, U.S. government and contractor engineering and logistics support services, and other related elements of logistics support. The estimated cost is \$132 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in Europe.

Finland intends to use these defense articles and services to expand its existing army architecture and improve its self-defense capabilities. This will contribute to the Finnish Defense Forces' goal of modernizing its capability while further enhancing interoperability between Finland, the United States, and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Missiles and Fire Control in Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require up to two U.S. Government or contractor representatives to travel to Finland for up to one week for equipment de-processing/fielding, system checkout, and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Norway – C-130J-30 Aircraft**

WASHINGTON, June 7, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Norway for 2 C-130J-30 United States Air Force (USAF) baseline aircraft and associated parts, equipment, logistical support and training for an estimated cost of \$300 million.

The Government of Norway has requested a possible sale of 2 C-130J-30 United States Air Force (USAF) baseline aircraft, 9 Rolls Royce AE2100D3 Engines (8 installed and 1 spare), countermeasure systems, aircraft modifications, Government Furnished Equipment, communication equipment and support, tools and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$300 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally. Norway has been a strong partner in coalition operations in Libya, Iraq and Afghanistan, and has provided support in the Balkans, the Baltics, and the NATO training mission in Iraq (NTM-I). Norwegian efforts in peacekeeping and humanitarian operations have made a significant impact on regional political and economic stability and have served U.S. national security interests.

Norway intends to use these aircraft in support of NATO-International Security Assistance Force (ISAF) missions in Afghanistan. Norway needs these aircraft to fulfill national and international airlift commitments and requirements, and to increase its capability to provide intra-theater lift for its forces. These aircraft will also increase Norway's ability to assist in disaster relief, humanitarian missions, and military deployments in the future. The Royal Norwegian Air Force, which already operates C-130Js in Norway and in support of operations worldwide, will have no difficulty absorbing these additional aircraft.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin-Aerospace in Marietta, Georgia. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Norway.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-19

## **Oman – AIM-9X Block II SIDEWINDER All-Up-Round Missiles**

WASHINGTON, June 13, 2012 – The Defense Security Cooperation Agency notified Congress on June 12 of a possible Foreign Military Sale to the Government of Oman for 55 AIM-9X Block II SIDEWINDER All-Up-Round Missiles, 36 AIM-9X Block II SIDEWINDER Captive Air Training Missiles, 6 AIM-9X Block II Tactical Guidance Units, 4 AIM-9X Block II Captive Air Training Missile Guidance Units, 1 Dummy Air Training Missile, and other related equipment. The estimated cost is \$86 million.

The Government of Oman has requested a possible sale of 55 AIM-9X Block II SIDEWINDER All-Up-Round Missiles, 36 AIM-9X Block II SIDEWINDER Captive Air Training Missiles, 6 AIM-9X Block II Tactical Guidance Units, 4 AIM-9X Block II Captive Air Training Missile Guidance Units, 1 Dummy Air Training Missile, containers, weapon support equipment, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical support services, and other related elements of logistics support. The estimated cost is \$86 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Oman is modernizing its F-16 fighter aircraft fleet to better support its own air defense needs. The proposed sale of AIM-9X Block II missiles will provide a significant increase in Oman's defensive capability while enhancing interoperability with the U.S. and other allies. Oman will have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this weapon system and support will not alter the basic military balance in the region.

The prime contractors will be Raytheon Missile Systems in Tucson, Arizona. There are no offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Oman involving U.S. Government or contractor representatives on a temporary basis for program and technical support, and management oversight. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-08

## **Qatar – UH-60M BLACK HAWK Helicopters**

WASHINGTON, June 13, 2012 – The Defense Security Cooperation Agency notified Congress on June 12 of a possible Foreign Military Sale to the Government of Qatar of 12 UH-60M BLACK HAWK Utility Helicopters, 26 T700-GE-701D Engines (24 installed and 2 spares), 15 AN/AAR-57 V(7) Common Missile Warning Systems, 15 AN/AVR-2B Laser Detecting Sets, 15 AN/APR-39A(V)4 Radar Signal Detecting Sets, 26 M240H Machine Guns, and 26 AN/AVS-6 Night Vision Goggles. The estimated cost is \$1.112 billion.

The Government of Qatar has requested a possible sale of 12 UH-60M BLACK HAWK Utility Helicopters, 26 T700-GE-701D Engines (24 installed and 2 spares), 15 AN/AAR-57 V(7) Common Missile Warning Systems, 15 AN/AVR-2B Laser Detecting Sets, 15 AN/APR-39A(V)4 Radar Signal Detecting Sets, 26 M240H Machine Guns, and 26 AN/AVS-6 Night Vision Goggles. Also included are M206 infrared countermeasure flares, M211 and M212 Advanced Infrared Countermeasure Munitions (AIRCМ) flares, M134D-H Machine Guns, system integration and air worthiness certification, simulators, generators, transportation, wheeled vehicles and organization equipment, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$1.112 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political and economic progress in the Middle East. Qatar is host to the U.S. AFCENT forces and serves as a critical forward-deployed location in the region. The proposed sale of the UH-60M BLACK HAWK helicopters will improve Qatar's capability to meet current and future threats and provide greater security for its critical oil and natural gas infrastructure, and significant national events. Qatar will use the enhanced capability to strengthen its homeland defense. Qatar will have no difficulty absorbing these helicopters into its armed forces. The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Company in Stratford, Connecticut, and General Electric Aircraft Company in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will require the assignment of two contractor representatives to Qatar for a minimum of three years to support delivery of the helicopters and provide support and equipment familiarization. In addition, Qatar has expressed an interest in a Technical Assistance Fielding Team for in-country pilot and maintenance training. To support the requirement, a team of 12 personnel (one military team leader and 11 contractors) would be deployed to Qatar for approximately three years. There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-28

**Kingdom of Morocco – M1A1 SA Abrams Tank Enhancement, Support and Equipment**

WASHINGTON, June 18, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of the Kingdom of Morocco for enhancement and refurbishment of 200 M1A1 Abrams tanks and associated parts, equipment, logistical support and training for an estimated cost of \$1.015 billion.

The Government of the Kingdom of Morocco has requested a possible enhancement and refurbishment of 200 M1A1 Abrams tanks, provided as part of a grant Excess Defense Article (EDA) transfer notified to Congress on 27 April 2011, to the M1A1 Special Armor (SA) configuration. The possible sale will also provide 150 AN/VRC-87E and 50 AN/VRC-89E Exportable Single Channel Ground and Airborne Radio Systems (SINCGARS), 200 M2 Chrysler Mount Machine Guns, and 400 7.62MM M240 Machine Guns. The possible sale also includes 12,049,842 Ammunition Rounds (including 1400 C785 SABOT, 1800 CA31 HEAT, and 5400 AA38 SLAP-T), 200 M250 Smoke Grenade Launchers, support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, communication support, U.S. Government and contractor technical assistance, and other related logistics support. The estimated cost is \$1.015 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a major Non-NATO ally that continues to be an important force for political stability and economic progress in Africa.

This package of M1A1 tank enhancements will contribute to the modernization of Morocco's tank fleet, enhancing its ability to meet current and future threats. These tanks will contribute to Morocco's goal of updating its military capability while further enhancing interoperability with the U.S. and other allies. The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be General Dynamics Land Systems in Sterling Heights, Michigan. Refurbishment work will be performed at Anniston Army Depot in Anniston, Alabama and the Joint Systems Manufacturing Center in Lima, Ohio. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require annual trips to Morocco involving up to 64 U.S. Government and 13 contractor representatives for a period of up to five years to manage the fielding and training for the program.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-18

## **Kuwait – Joint Helmet Mounted Cueing Systems (JHMCS)**

WASHINGTON, June 28, 2012 – The Defense Security Cooperation Agency notified Congress June 26 of a possible Foreign Military Sale to the Government Kuwait of 43 Joint Helmet Mounted Cueing System Cockpit Units and associated equipment and support. The estimated cost is \$51 million.

The Government of Kuwait has requested a possible sale of 43 Joint Helmet Mounted Cueing System Cockpit Units, Single Seat Electronic Units, Helmet Display Units, spare and repair parts, support equipment, tool and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics personnel services and other related elements of program and logistics support. The estimated cost is \$51 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The Government of Kuwait is modernizing its fighter aircraft fleet to better support its own air defense needs. This proposed sale will contribute to Kuwait's military goal of updating its capability while further enhancing its interoperability with the U.S. and other allies. The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractors will be Boeing Aerospace in St. Louis, Missouri. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Kuwait on a temporary basis for program, technical support, and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Kuwait – AGM-114R3 HELLFIRE Missiles**

WASHINGTON, June 28, 2012 – The Defense Security Cooperation Agency notified Congress June 26 of a possible Foreign Military Sale to the Government Kuwait of 300 AGM-114R3 HELLFIRE II missiles and associated equipment and support. The estimated cost is \$49 million.

The Government of Kuwait has requested a possible sale 300 AGM-114R3 HELLFIRE II missiles, containers, spare and repair parts, support and test equipment, repair and return support, training equipment and personnel training, U.S. Government and contractor logistics, Quality Assurance Team support services, engineering and technical support, and other related elements of program support. The estimated cost is \$49 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be an important force for political stability and economic progress in the Middle East.

Kuwait intends to use these defense articles and services to modernize its armed forces and expand its existing Air Force architecture to counter threats posed by potential attack. This proposed sale will also contribute to Kuwait's military goal of updating its capability while further enhancing its interoperability with the U.S. and other allies. This capability will serve to deter potential attacks against strategic targets across Kuwait, to include infrastructure and resources vital to the security of the U.S.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor is Lockheed Martin Corporation in Orlando, Florida. There are no known offset agreements proposed in connection with this sale.

Implementation of this proposed sale will not require the assignment of U.S. Government or contractor representatives to Kuwait.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-13

## **Qatar – MH-60R and MH-60S Multi-Mission Helicopters**

WASHINGTON, June 28, 2012 – The Defense Security Cooperation Agency notified Congress June 26 of a possible Foreign Military Sale to the Government Qatar of 10 MH-60R SEAHAWK Multi-Mission Helicopters, 12 MH-60S SEAHAWK Multi-Mission Helicopters with the Armed Helicopter Modification Kit, 48 T-700 GE 401C Engines (44 installed and 4 spare) with an option to purchase an additional 6 MH-60S SEAHAWK Multi-Mission Helicopters with the Armed Helicopter Modification Kit and 13 T-700 GE 401C Engines. The estimated cost is \$2.5 billion.

The Government of Qatar has requested a possible sale of 10 MH-60R SEAHAWK Multi-Mission Helicopters, 12 MH-60S SEAHAWK Multi-Mission Helicopters with the Armed Helicopter Modification Kit, 48 T-700 GE 401C Engines (44 installed and 4 spare) with an option to purchase an additional 6 MH-60S SEAHAWK Multi-Mission Helicopters with the Armed Helicopter Modification Kit and 13 T-700 GE 401C Engines (12 installed and 1 spare) at a later date, communication equipment, spare engine containers, support equipment, spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$2.5 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political and economic progress in the Middle East. Qatar is a strategic partner in maintaining stability in the region. The acquisition of these helicopters will allow for greater interoperability with U.S. forces, providing benefits for training and possible future coalition operations in support of shared regional security objectives.

The proposed sale of the MH-60R and MH-60S SEAHAWK helicopters will improve Qatar's capability to meet current and future anti-surface warfare threats. Qatar will use the enhanced capability to strengthen its homeland defense. The MH-60R and MH-60S helicopters will supplement and eventually replace the Qatar Air Force's aging maritime patrol helicopters. Qatar will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be Sikorsky Aircraft Corporation in Stratford, Connecticut, Lockheed Martin in Owego, New York, and General Electric in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of fifteen contractor representatives to Qatar on an intermittent basis over the life of the case to support delivery of the MH-60R and MH-60S helicopters and provide support and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-33

## **Brazil – Assault Amphibious Vehicles**

WASHINGTON, August 1, 2012 – The Defense Security Cooperation Agency notified Congress July 31 of a possible Foreign Military Sale to the Government of Brazil for 26 Assault Amphibious Vehicles and associated equipment, parts, training and logistical support for an estimated cost of \$233 million.

The Government of Brazil has requested the possible sale of 26 Assault Amphibious Vehicles (AAVs)/Reliability, Availability and Maintainability/Rebuild to Standard (RAM/RS), with ancillary equipment, and machine guns. Also included are the upgrade of Brazil's existing AAVs to the RAM/RS configuration, weapons and ammunition, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$233 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of Brazil, which has been, and continues to be, an important force for political stability and economic progress in South America.

Brazil will use this equipment to augment its current inventory of amphibious vehicles and to modernize and strengthen its naval operational amphibious capability in support of national defense objectives. Brazil will have no difficulty absorbing these vehicles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The AAVs will be procured through a competitive procurement. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Brazil.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **United Arab Emirates – F117-PW-100 Engines**

WASHINGTON, August 1, 2012 – The Defense Security Cooperation Agency notified Congress July 31 of a possible Foreign Military Sale to the Government of the United Arab Emirates for two F117-PW-100 engines for an estimated cost of \$35 million.

The Government of the United Arab Emirates (UAE) has requested a proposed sale of 2 spare F117-PW-100 engines in support of the UAE C-17 GLOBEMASTER III aircraft. The estimated cost is \$35 million.

The proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed sale will improve the UAE's readiness and capability to meet current and future strategic airlift requirements. The UAE will use its C-17s to provide humanitarian aid in the Middle East and Africa region and to support its troops in coalition operations. The C-17 will provide a heavy airlift capability and complement day-to-day operations of the UAE's existing C-130H fleet.

The proposed sale of this equipment and support will not alter the basic military balance in the region. The prime contractor will be Pratt and Whitney in East Hartford, Connecticut. There are no known offset agreements proposed in connection with this potential sale. Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Belgium – Javelin Missiles**

WASHINGTON, August 6, 2012 – The Defense Security Cooperation Agency notified Congress Aug. 3 of a possible Foreign Military Sale to the Government of Belgium for 240 Block I Javelin Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$88 million.

The Government of Belgium has requested a possible purchase of 240 Block I Javelin Missiles, 60 Command Launch Units (CLU) Missile Simulation Rounds (MSR), Battery Coolant Units (BCU), support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$88 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a NATO ally who continues to be an important force for the political stability and economic progress in Northern Europe.

The Belgium Army intends to use the Javelin system as part of its overall military modernization program. The Javelin system will replace the Belgian Army's existing MILAN missile system.

The proposed sale of the missiles and support will not alter the basic military balance in the region.

The principal contractors will be Joint Javelin Venture (JJV), a consortium of Raytheon, in Tucson, Arizona and Lockheed Martin, in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 6 U.S. Government or contractor representatives to travel to Belgium for a period of 2 weeks for equipment training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-36

**Kingdom of Saudi Arabia – Follow-On Support**

WASHINGTON, August 6, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of the Kingdom of Saudi Arabia for follow-on support and services for the Royal Saudi Air Force at an estimated cost of \$850 million

The Kingdom of Saudi Arabia has requested a possible sale of follow-on support and services for the Royal Saudi Air Force aircraft, engines and weapons; publications and technical documentation; airlift and aerial refueling; support equipment; spare and repair parts; repair and return; personnel training and training equipment; U.S. Government and contractor technical and logistics support services; and other related elements of logistical and program support. The estimated cost is \$850 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

Saudi Arabia needs this follow on support to continue to procure maintenance and logistical support in order to sustain the combat and operational readiness of its existing aircraft fleet.

The proposed sale of this support and services will not alter the basic military balance in the region.

There is no prime contractor involved in this proposed sale. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-34

**Thailand – Evolved SEASPARROW Missiles (ESSM)**

WASHINGTON, August 8, 2012 – The Defense Security Cooperation Agency notified Congress August 7 of a possible Foreign Military Sale to the Government of Thailand for nine Evolved SEASPARROW Missiles (ESSM) and associated equipment, parts, training and logistical support for an estimated cost of \$18 million.

The Government of Thailand has requested a possible sale of nine Evolved SEASPARROW Missiles (ESSM); three MK25 Quad Pack canisters; and four MK783 shipping containers; spare and repair parts; support and test equipment; publications and technical documentation; personnel training and training equipment; U.S. Government and contractor engineering; technical and logistics support services; and technical assistance and other related elements of logistical and program support. The estimated cost is \$18 million.

This proposed sale will contribute to the foreign policy and national security of the United States by increasing the ability of Thailand to contribute to regional security and improving interoperability with the U.S. Military in operational and exercise scenarios. It is consistent with U.S. national interests to assist Thailand in developing and maintaining a strong and ready ship self-defense capability which will contribute to the military balance in the area.

ESSM provides ship self-defense capability. The proposed sale will add to Thailand's capability to meet current and future threats from anti-ship weapons.

The proposed FMS case includes support equipment, training and technical assistance required for the RTN to effectively incorporate the ESSM into its fleet. With this support, the RTN will have no difficulty absorbing the ESSM into its frigates and being fully operational.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Thailand.

The prime contractors will be Raytheon Missile Systems in Tucson, Arizona and BAE Systems in Aberdeen, South Dakota.

There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale. This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-22

**Kingdom of Saudi Arabia –Intelligence, Surveillance, and Reconnaissance (ISR) Suites and Support**

WASHINGTON, August 15, 2012 – The Defense Security Cooperation Agency notified Congress August 9 of a possible Foreign Military Sale to the Government of the Kingdom of Saudi Arabia for ten Link-16 capable data link systems and Intelligence, Surveillance, and Reconnaissance (ISR) suites and associated equipment, parts, training and logistical support at an estimated cost of \$257 million

The Government of the Kingdom of Saudi Arabia (KSA) has requested a possible sale of ten Link-16 capable data link systems and Intelligence, Surveillance, and Reconnaissance (ISR) suites for four KSA-provided King Air 350ER aircraft and associated ground support, with an option to procure, via a Foreign Military Sales, an additional four King Air 350ER aircraft with enhanced PT6A-67A engines and spare parts equipped with the same ISR suites. The ISR suites include a Com-Nav Surveillance/Air Traffic Management cockpit, RF-7800M-MP High Frequency Radios with encryption, AN/ARC-210 Very High Frequency/Ultra High Frequency/Satellite Communication Transceiver Radios with Have Quick II and encryption, a High Speed Data Link, an AN/APX-114/119 Identification Friend or Foe Transponder, Embedded Global Positioning System/Inertial Navigations Systems (GPS/INS) with a Selective Availability Anti-spoofing Module (SAASM), AN/AAR-60 Infrared Missile Warning and AN/ALE-47 Countermeasures System, Electro-Optical Sensor, SIGINT System, Synthetic Aperture Radar. Also included are Ground Stations, Training Aids, C4I Integration, aircraft modifications, spare and repair parts, support equipment, publications and technical data, personnel training and training equipment, aircraft ferry, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics support. The estimated cost is \$257 million.

This proposed sale of airborne ISR assets to KSA will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The RSAF needs additional ISR capability to provide persistent, real-time route surveillance, facility, infrastructure and border security, counter-terrorism and smuggling interdiction, support for naval and coastal operations, internal defense and search and rescue operations. The King AIR 350ER-ISR aircraft will allow the RSAF to perform a portion of the RE-3 mission. All systems will be compatible with and will continue to supplement the capabilities of the RSAF RE-3 aircraft. The KSA will have no difficulties absorbing and using these King Air ISR aircraft.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be L-3 Communications, Mission Integration Division in Greenville, Texas; Hawker Beechcraft in Wichita, Kansas; Raytheon in Aberdeen Proving Grounds, Maryland; Rockwell Collins in Cedar

Rapids, Iowa; Harris in Rochester, New York; ATK in Ridgecrest, California; BAE Systems in Austin, Texas; and VIASAT in Carlsbad, California. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will involve annual Program Management Reviews in Saudi Arabia. Estimated U.S. participation will include up to six USAF personnel and four contractor personnel for a period of up to six weeks per year. There will be approximately six contractors in Saudi Arabia providing technical assistance on a full-time basis until these systems are delivered and integrated into the operational units.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-42

## **Iraq – Air Traffic Control and Landing System**

WASHINGTON, August 15, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to the Government of Iraq for commercially available Federal Aviation Administration Air Traffic Control and Landing System/Navigational Aids and associated equipment, parts, training and logistical support at an estimated cost of \$60 million

The Government of Iraq has requested a proposed sale of commercially available Federal Aviation Administration Air Traffic Control and Landing System/Navigational Aids. The system will include an ASR-11 Radar, Autotrac II simulator, Instrument Landing System, and Airfield Lighting System, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, site survey, installation, U.S. Government and contractor engineering and logistics support services, and other related elements of logistics and program support. The estimated cost is \$60 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country.

The proposed sale will contribute to Iraq's continued efforts toward rebuilding their airfield systems at Tikrit Air Base for near-term basing of multiple aircraft. The renovations and upgrades to the airfield and its systems will allow for greater ease in launch and recovery of aircraft and will benefit the overall sustainment of aircraft and affiliated systems over time. This equipment aids Iraq's continuing reconstruction effort that directly improves Iraq's ability to control its own airspace.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor is unknown and will be selected through competitive process. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Iraq.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Defense Security Cooperation Agency

Transmittal No. 12-44

## **Indonesia – AGM-65K2 MAVERICK Missiles**

WASHINGTON, August 22, 2012 – The Defense Security Cooperation Agency notified Congress August 21 of a possible Foreign Military Sale to the Government of Indonesia for 18 AGM-65K2 MAVERICK All-Up-Round Missiles and associated equipment, parts, training and logistical support at an estimated cost of \$25 million

The Government of Indonesia has requested a possible sale of 18 AGM-65K2 MAVERICK All-Up-Round Missiles, 36 TGM-65K2 Captive Air Training Missiles, 3 TGM-65D Maintenance Training Missiles, spare and repair parts, support equipment, tool and test equipment, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics personnel services and other related elements of program and logistics support. The estimated cost is \$25 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in Southeast Asia.

The Indonesian Air Force (IAF) needs these missiles to train its F-16 pilots in basic air-to-ground weapons employment. The quantities in the proposed sale will support the IAFs existing fleet of 10 F-16s, as well as the 24 F-16s being provided as Excess Defense Articles. The proposed sale will foster continued cooperation between the U.S. and Indonesia, making Indonesia a more valuable regional partner in an important area of the world.

The proposed sale of this equipment will not alter the basic military balance in the region.

The principal contractors will be Raytheon Missile Systems in Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of additional U.S. Government or contractor representatives to Indonesia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Indonesia – AH-64D APACHE Block III LONGBOW Attack Helicopters**

WASHINGTON, Sept. 21, 2012 – The Defense Security Cooperation Agency notified Congress September 19 of a possible Foreign Military Sale to the Government of Indonesia of 8 AH-64D APACHE Block III LONGBOW Attack Helicopters and associated equipment, parts, training and logistical support. The estimated cost is \$1.42 billion.

The Government of Indonesia has requested a possible sale of 8 AH-64D APACHE Block III LONGBOW Attack Helicopters, 19 T-700-GE-701D Engines (16 installed and 3 spares), 9 Modernized Target Acquisition and Designation Sight/Modernized Pilot Night Vision Sensors, 4 AN/APG-78 Fire Control Radars (FCR) with Radar Electronics Units (Longbow Component), 4 AN/APR-48A Radar Frequency Interferometers, 10 AAR-57(V) 3/5 Common Missile Warning Systems (CMWS) with 5<sup>th</sup> Sensor and Improved Countermeasure Dispenser, 10 AN/AVR-2B Laser Detecting Sets, 10 AN/APR-39A(V)4 Radar Signal Detecting Sets, 24 Integrated Helmet and Display Sight Systems (IHDSS-21), 32 M299A1 HELLFIRE Missile Launchers, and 140 HELLFIRE AGM-114R3 Missiles. Also included are Identification Friend or Foe transponders, 30mm guns and ammunition, communication equipment, tools and test equipment, training devices, simulators, generators, transportation, wheeled vehicles, organizational equipment, spare and repair parts, support equipment, personnel training and training equipment, U.S. government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$1.42 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in Southeast Asia.

The proposed sale provides the Government of Indonesia with assets vital to protect and deter both external and other potential threats. Indonesia will use these APACHE helicopters to defend its borders, conduct counter-terrorism and counter-piracy operations, and control the free flow of shipping through the Strait of Malacca. The materiel and services under this program will enable Indonesia to become a more capable defensive force and will also provide key elements required for interoperability with U.S. forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in Mesa, Arizona; Lockheed Martin Corporation in Orlando, Florida; General Electric Company in Cincinnati, Ohio; Lockheed Martin Millimeter Technology in Owego, New York; and Longbow Limited Liability Corporation in Orlando, Florida.

Implementation of this proposed sale may require the assignment of five U.S. contractor representatives and three U.S. Government representatives in country full-time for equipment checkout, fielding, and technical support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-54

## **Mexico – C-130J-30 Aircraft**

WASHINGTON, September 25, 2012– The Defense Security Cooperation Agency notified Congress September 21 of a possible Foreign Military Sale to the Government of Mexico for two C-130J-30 aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$412 million.

The Government of Mexico has requested a sale of 2 C-130J-30 aircraft, 10 AE2100D3 engines (8 installed and 2 spares), aircraft modifications, Government Furnished Equipment, communication equipment, spare and repair parts, support and test equipment, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of logistical and program support. The estimated cost is \$412 million.

This proposed sale will contribute to the foreign policy and national security of the United States by providing presidential support and potentially supporting missions in Mexico's fight against criminal organizations, drugs, and gang activities. This proposed sale directly supports the Mexican government and serves the interests of the Mexican people and the United States.

The proposed sale of C-130Js to Mexico will primarily be used for presidential support, but may also be used to support drug interdiction and other security missions by providing airlift support for its forces. Mexico, which already operates a mix of legacy C-130s, will have no difficulty absorbing these additional aircraft into its inventory. Mexico has also requested that the sale include three years of training and sustainment support.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin-Aerospace in Marietta, Georgia. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require the assignment of four contractor representatives and four Field Service Representatives (two from Lockheed Martin and two from Rolls Royce) for a period of three years. Also, U.S. government personnel will be assigned to for a period of three years to assist the purchaser in establishing a supply system in support of flight operations, supply management, inventory control, and documentation procedures.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-32

## **Republic of Korea (ROK) – AH-64D APACHE Attack Helicopters**

WASHINGTON, September 25, 2012 – The Defense Security Cooperation Agency notified Congress September 21 of a possible Foreign Military Sale to the Government of Korea for 36 AH-64D APACHE Longbow Block III Attack Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$3.6 billion.

The Republic of Korea has requested a possible sale of:

- 36 AH-64 D APACHE Longbow Block III Attack Helicopters
- 84 T-700-GE-701D Engines (72 installed and 12 spares)
- 42 Modernized Target Acquisition and Designation Sight/Modernized Pilot Night Vision Sensors
- 36 AN/APG-78 Fire Control Radar (FCR) with Radar Electronics Unit (Longbow Component)
- 36 AN/APR-48A Radar Frequency Interferometers
- 42 AN/APR-39 Radar Signal Detecting Sets
- 45 AN/AVR-2B Laser Warning Sets
- 43 AAR-57(V) 3/5 Common Missile Warning Systems (CMWS) with 5<sup>th</sup> Sensor and Improved Countermeasure Dispensers
- 42 AN/APX-123 Transponders
- 120 Improved Helmet Display Sight Systems (IHDS-21)
- 81 Embedded Global Positioning Systems with Inertial Navigation
- 38 30mm Automatic Chain Guns (Aircraft Component)
- 90 AN/ARC-201E Single Channel Ground and Airborne Radio System (SINCGARS) Radios
- 90 AN/ARC-231 Radios
- 42 AN/ARC-220 Radios
- 80 M299 HELLFIRE or Missile Launchers
- 400 AGM-114R1 HELLFIRE Missiles Semi-Active Lasers (SAL)
- 438 STINGER Block I 92H Missiles
- 774,144 30 mm Cartridge HEDP High Explosive Dual Purpose M789s
- 11,020 2.75 Inch HYDRA Rockets (Unguided)
- 108 APACHE Aviator Integrated Helmets (AAIH)

Also included are training devices, simulators, generators, transportation, wheeled vehicles and organizational equipment, tools and test equipment, communication equipment, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering, technical and logistics support services, and other related elements of program support. The estimated cost is \$3.6 billion.

The ROK is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our Korean ally in developing and maintaining a strong and ready self-defense capability.

The ROK intends to use new attack helicopters to more effectively secure its borders and littoral waters, as well as conduct counter-terrorism/counter-piracy operations. The proposed sale will improve the Republic of Korea Army's close air support, air interdiction, armed reconnaissance, strike coordination/reconnaissance, forward air control (airborne), and aerial escort capabilities while enhancing interoperability with U.S. forces. Korea will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractors will be The Boeing Company in Mesa, Arizona; Lockheed Martin Corporation in Orlando, Florida; General Electric Company in Cincinnati, Ohio; Lockheed Martin Millimeter Technology in Owego, New York; and Longbow Limited Liability Corporation in Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale may require the assignment of additional U.S. contractor and U.S. Government representatives in country full-time. Contractor Field Service Representatives will be in country for post production support for an estimated three years with anticipation of a future follow on support contract or an additional Foreign Military Sales contract for support. Also, U.S. Government representatives will include a U.S. Army Aviation and Missile Life Cycle Management Command (AMCOM) field office for technical and logistical support for three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-26

**Korea – 36 AH-1Z COBRA Attack Helicopters**

WASHINGTON, September 25, 2012 – The Defense Security Cooperation Agency notified Congress September 21 of a possible Foreign Military Sale to the Government of Korea for 36 AH-1Z COBRA Attack Helicopters and associated equipment, parts, training and logistical support for an estimated cost of \$2.6 billion.

The Government of the Republic of Korea has requested a possible sale of 36 AH-1Z COBRA Attack Helicopters, 84 T-700 GE 401C Engines (72 installed and 12 spares), 288 AGM-114K3 HELLFIRE Missiles, 72 AIM-9M-8 SIDEWINDER Missiles, integrated missile launchers, AN/AAQ-30 Target Sighting Systems (TSS) and AN/ALQ-136 Radar Frequency Jammers. The electronic warfare systems include the AN/AAR-47 Missile Warning System, AN/ALQ-144 Infrared Jammer, APX-123 Identify Friend or Foe (IFF) Mode-4 and AN/ALE-47 Chaff and Flare Decoy Dispenser, communication and support equipment, spare engine containers spare and repair parts, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical and logistics support services, and other related elements of logistics and program support. The estimated cost is \$2.6 billion.

The Government of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region. It is vital to the U.S. national interest to assist our Korean ally in developing and maintaining a strong and ready self-defense capability.

The proposed sale of the AH-1Z COBRA helicopters will improve South Korea's capability to meet current and future threats. The sale of these AH-1Z helicopters will improve its close air support, air interdiction, armed reconnaissance, strike coordination/reconnaissance, forward air control (airborne), and aerial escort capabilities while enhancing interoperability with U.S. forces. Korea will have no difficulty absorbing these helicopters into its armed forces.

The proposed sale of this system and support will not alter the basic military balance in the region.

The prime contractors will be Bell-Textron Corporation in Amarillo, Texas, and General Electric in Lynn, Massachusetts. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Korea involving U.S. Government or contractor representatives on a temporary basis for program and technical ort, and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Netherlands –AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, October 17, 2012 – The Defense Security Cooperation Agency notified Congress October 16 of a possible Foreign Military Sale to the Government of the Netherlands for 28 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$60 million.

The Government of the Netherlands has requested a possible sale of 28 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles, 20 CATM-9X-2 Captive Air Training Missiles, 2 AIM-9X-2 NATM Special Air Training Missiles, 2 CATM-9X-2 Block II Missile Guidance Units, 2 AIM-9X-2 Block II Tactical Guidance Units, 2 Dummy Air Training Missiles, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$60 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve security of a NATO ally which has been, and continues to be, an important force for political stability and economic progress in Northern Europe.

The Royal Netherlands Air Force (RNAF) is modernizing its fighter aircraft to better support the Netherlands' air defense needs. This proposed sale of AIM-9X missiles will improve the RNAF's capability to conduct self defense and regional security missions, and enhance its interoperability with the U.S. and other NATO members. The Netherlands will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of these missiles and related support will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset proposed in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to the Netherlands on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-49

**Qatar – Terminal High Altitude Area Defense (THAAD)**

WASHINGTON, November 5, 2012 – The Defense Security Cooperation Agency notified Congress November 2 of a possible Foreign Military Sale to the Government of Qatar for two Terminal High Altitude Area Defense (THAAD) Fire Units and associated equipment, parts, training and logistical support for an estimated cost of \$6.5 billion.

The Government of Qatar has requested a possible sale of 2 Terminal High Altitude Area Defense (THAAD) Fire Units, 12 THAAD Launchers, 150 THAAD Interceptors, 2 THAAD Fire Control and Communications, 2 AN/TPY-2 THAAD Radars, and 1 Early Warning Radar (EWR). Also included are fire unit maintenance equipment, prime movers (trucks), generators, electrical power units, trailers, communications equipment, tools, test and maintenance equipment, repair and return, system integration and checkout, spare/repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor technical and logistics personnel support services, and other related support elements. The estimated cost is \$6.5 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been and continues to be an important force for political stability and economic progress in the Middle East.

This proposed sale will help strengthen U.S. efforts to promote regional stability by enhancing regional defense capabilities of a key U.S. partner. The proposed sale will help strengthen Qatar's capability to counter current and future threats in the region and reduce dependence on U.S. forces. Qatar will have no difficulty absorbing this weapon system into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors are Lockheed Martin Space Systems Corporation in Sunnyvale, California, and the sub-contractor is Raytheon Corporation in Andover, Massachusetts.

There are no known offset agreements proposed in connection with this potential sale at this time.

Implementation of this proposed sale will require periodic travel of up to 13 U.S. Government and contractor representatives to Qatar for an undetermined period for delivery, system checkout, and training as determined by the schedule. There is no known adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-40

**United Arab Emirates – Terminal High Altitude Area Defense  
System Missiles (THAAD)**

WASHINGTON, Nov. 5, 2012 – The Defense Security Cooperation Agency notified Congress November 2 of a possible Foreign Military Sale to the Government of the United Arab Emirates (UAE) for 48 Terminal High Altitude Area Defense (THAAD) missiles and associated equipment, parts, training and logistical support for an estimated cost of \$1.135 billion.

The Government of the United Arab Emirates (UAE) has requested a possible sale of 48 Terminal High Altitude Area Defense (THAAD) missiles, 9 THAAD launchers; test components, repair and return, support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance, and other related logistics support. The estimated cost is \$1.135 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

This proposed sale will help strengthen the UAE's capability to counter current and future threats in the region and reduce dependence on U.S. forces.

The proposed sale of these missiles and equipment will not alter the basic military balance in the region. The principal contractors will be Lockheed Martin Space Systems Corporation in Sunnyvale, CA and Raytheon Corporation in Andover, MA. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to the UAE.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-58

## **Qatar – PATRIOT Missile System and Related Support and Equipment**

WASHINGTON, November 7, 2012 – The Defense Security Cooperation Agency notified Congress Nov. 6 of a possible Foreign Military Sale to the Government of Qatar for the sale of 11 PATRIOT Configuration-3 Modernized Fire Units and associated equipment, parts, training and logistical support for an estimated cost of \$9.9 billion.

The Government of Qatar has requested a possible sale of 11 PATRIOT Configuration-3 Modernized Fire Units, 11 AN/MPQ-65 Radar Sets, 11 AN/MSQ-132 Engagement Control Systems, 30 Antenna Mast Groups, 44 M902 Launching Stations, 246 PATRIOT MIM-104E Guidance Enhanced Missile-TBM (GEM-T) with canisters, 2 PATRIOT MIM-104E GEM-T Test Missiles, 768 PATRIOT Advanced Capability 3 (PAC-3) Missiles with canisters, 10 PAC-3 Test Missiles with canisters, 11 Electrical Power Plants (EPPII), 8 Multifunctional Information Distribution Systems/Low Volume Terminals (MIDS/LVTs), communications equipment, tools and test equipment, support equipment, publications and technical documentation, personnel training and training equipment, spare and repair parts, facility design, U.S. Government and contractor technical, engineering, and logistics support services, and other related elements of logistics and program support. The estimated cost is \$9.9 billion.

This proposed sale will contribute to the foreign policy and national security of the United States by improving the security of an important ally which has been, and continues to be, a force for political stability and economic progress in the Middle East. This sale is consistent with U.S. initiatives to provide key allies in the region with modern systems that will enhance interoperability with U.S. forces and increase security.

Qatar will use the Patriot Missile System to improve its missile defense capability, strengthen its homeland defense, and deter regional threats. The proposed sale will enhance Qatar's interoperability with the U.S. and its allies, making it a more valuable partner in an increasingly important area of the world. Qatar should have no difficulty absorbing this system into its armed forces.

The proposed sale of these missiles and equipment will not alter the basic military balance in the region.

The prime contractors will be Raytheon Corporation in Andover, Maryland, and Lockheed-Martin in Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require approximately 30 U.S. Government and 40 contractor representatives to travel to Qatar for an extended period for equipment de-processing/ fielding, system checkout, training and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-55

**Saudi Arabia – C-130J-30 and KC-130J Aircraft**

WASHINGTON, November 9, 2012 – The Defense Security Cooperation Agency notified Congress Nov. 8 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia for 20 C-130J-30 Aircraft and 5 KC-130J Air Refueling Aircraft, as well as associated equipment, parts, training and logistical support for an estimated cost of \$6.7 billion.

The Kingdom of Saudi Arabia (KSA) has requested a possible sale of 20 C-130J-30 Aircraft, 5 KC-130J Air Refueling Aircraft, 120 Rolls Royce AE2100D3 Engines (100 installed and 20 spares), 25 Link-16 Multifunctional Information Distribution Systems, support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance, and other related logistics support. The total estimated cost is \$6.7 billion.

This proposed sale of C-130J-30 and KC-130J assets will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

Saudi Arabia needs these aircraft to sustain its aging fleet, which faces increasing obsolescence. The proposed sale of C-130J and KC-130J aircraft will provide a modern configuration, improve reliability and enhance the Royal Saudi Air Force's ability to effectively field, support, and employ these aircraft.

The proposed sale of these aircraft and support will not alter the basic military balance in the region.

Implementation of this sale will require the assignment of U.S. Government and contractor representatives to the Kingdom of Saudi Arabia for delivery, system checkout, and logistics support for an undetermined period of time.

The prime contractors will be Lockheed-Martin in Bethesda Maryland; General Electric Aviation Systems in Sterling Virginia; and Rolls Royce Corporation in Indianapolis, Indiana. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-56

**Indonesia – Javelin Missiles**

WASHINGTON, November 19, 2012 – The Defense Security Cooperation Agency notified Congress November 15 of a possible Foreign Military Sale to the Government of Indonesia for 180 Block I Javelin Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$60 million.

The Government of Indonesia has requested a possible purchase of 180 Block I Javelin Missiles, 25 Command Launch Units (CLU), Missile Simulation Rounds (MSR), Battery Coolant Units (BCU), Enhanced Basic Skills Trainer, Weapon Effects Simulator, batteries, battery chargers, support equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$60 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for the political stability and economic progress in Southeast Asia.

The proposed sale provides Indonesia with assets vital to protect its sovereign territory and deter potential threats. The acquisition of the Javelin system is part of the Indonesia Army's overall military modernization program. The proposed sale will foster continued cooperation between the U.S. and Indonesia, making Indonesia a more valuable regional partner in an important area of the world.

The proposed sale of the missiles and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon/Lockheed Martin Javelin Joint Venture (JJV) in Tucson, Arizona and Orlando, Florida. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Indonesia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-64

## **Oman – Javelin Missiles**

WASHINGTON, November 19, 2012 – The Defense Security Cooperation Agency notified Congress November 15 of a possible Foreign Military Sale to the Government of Oman for 400 Javelin Guided Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$96 million.

The Sultanate of Oman has requested a possible sale of 400 Javelin Guided Missiles, Javelin Weapon Effects Simulator (JAVWES), containers, spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor representative logistics and technical support services, and other related elements of logistics and program support. The total estimated cost is \$96 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political and economic progress in the Middle East.

The proposed sale of the JAVELIN Anti-Tank Weapon System will improve Oman's capability to meet current and future threats and provide greater security for its critical oil and natural gas infrastructure. Oman will use the enhanced capability to strengthen its homeland defense. Oman will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon/Lockheed Martin Javelin Joint Venture in Orlando, Florida and Tucson, Arizona. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Oman.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-65

**Saudi Arabia – PATRIOT PAC-2 Guided Enhanced Missiles (GEM)**  
**Recertification**

WASHINGTON, November 28, 2012 – The Defense Security Cooperation Agency notified Congress November 26 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia for technical services to recertify the functional shelf life of up to 300 PATRIOT Advanced Capability-2 (PAC-2) (MIM-104D) Guidance Enhanced Missiles and associated equipment, parts, training and logistical support for an estimated cost of \$130 million.

The Government of Saudi Arabia has requested a possible sale of technical services to recertify the functional shelf life of up to 300 PATRIOT Advanced Capability-2 (PAC-2) (MIM-104D) Guidance Enhanced Missiles (GEM), modernization of existing equipment, spare and repair parts, support equipment, U.S. Government and contractor representatives logistics, engineering, and technical support services, and other related elements of logistics and program support. The estimated cost is \$130 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of an important partner which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed recertification program will allow the Royal Saudi Air Defense Forces to extend the shelf life of the PAC-2 missiles in its inventory for an additional twelve years.

The proposed recertification program will not alter the basic military balance in the region.

The principal contractor will be Raytheon Corporation in Andover, Massachusetts. The recertification process will be performed by Letterkenny Army Depot in Chambersburg, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require one contractor representative to travel to the Missile Assembly Disassembly Facility in Jeddah, Saudi Arabia on an extended basis for missile assembly/disassembly support, system checkout, training and technical and logistics support.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-61

**Saudi Arabia – Cooperative Logistics Supply Support Arrangement**

WASHINGTON, November 26, 2012 – The Defense Security Cooperation Agency notified Congress Nov 26 of a possible Foreign Military Sale to the Kingdom of Saudi Arabia for a Foreign Military Sales Order II to provide funds for blanket order requisitions under the Cooperative Logistics Supply Support Arrangement for an estimated cost of \$300 million.

The Government of the Kingdom of Saudi Arabia has requested a possible sale of a Foreign Military Sales Order II to provide funds for blanket order requisitions under the Cooperative Logistics Supply Support Arrangement, for spare parts in support of M1A2 Abrams Tanks, M2 Bradley Fighting Vehicles, High Mobility Multipurpose Wheeled Vehicles, equipment, support vehicles and other related logistics support. The estimated cost is \$300 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country that has been, and continues to be, an important force for political stability and economic progress in the Middle East.

This proposed sale will allow the Royal Saudi Land Forces Ordnance Corps to continue to purchase needed repair parts to maintain their fleet of M1A2S Abrams Tanks, M2 Bradley Fighting Vehicles, and High Mobility Multipurpose Wheeled Vehicles (HMMWVs), construction equipment, and support vehicles and equipment.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

There are no prime contractors involved with this sale. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Saudi Arabia.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Japan – AEGIS WEAPON SYSTEM UPGRADE**

WASHINGTON, December 10, 2012 – The Defense Security Cooperation Agency notified Congress today of a possible Foreign Military Sale to Japan for the upgrade of previously provided AEGIS Combat Systems, as well as associated equipment, parts, training and logistical support for an estimated cost of \$421 million.

The Government of Japan has requested a possible sale for the upgrade of previously provided AEGIS Combat Systems as part of the modernization of two Atago Class Ships (DDG-177 ATAGO and DDG-178 ASHIGARA) with Integrated Air Missile Defense capability. The modifications/replacements consist of the following components: J6 AEGIS Weapon System Computer Program, 2 Multi-Mission Signal Processors for existing AN/SPY-1D(V) radar, 2 Common Processor Systems, 2 ship sets Common Display Systems (44 OJ-827(V)1 Tri Screen Display Consoles, 8 Display Processor Cabinets, 2 Video Wall Screen and Projector Systems, 46 Flat Panel Displays, and 2 Distributed Video Systems), 2 ship sets AN/SPQ-15 Digital Video Distribution Systems, 2 ship sets Operational Readiness Test Systems hosted in AEGIS Weapon Systems computing infrastructure, Ballistic Missile Defense (Mission Planner Blade server processors hosted in CPS, and 2 Kill Assessment Systems/Weapon Data Recording Cabinets), Vertical Launching System MK41 upgrade to Baseline 7 (24 Motor Control Panels MK 448 Mod 1, 48 Programmable Power4 Supplies MK 179 Mod 0, and 24 Launch Sequencers MK 5 Mod 1, 4 Fiber Optic Distribution Boxes, and 24 Single Module Junction Boxes), 4 Launch Control Units MK 235 Mod 7 with Global Positioning System Integrator, 2 ship sets Gun Weapon Systems MK 34, and 2 ship sets MK 20 Electro-Optical Sensor Systems. Also included: software updates, ordnance alterations and engineering changes, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. Government and contractor engineering, technical, and logistics support services, and other related elements of logistics support. The estimated cost is \$421 million.

Japan is one of the major political and economic powers in East Asia and the Western Pacific and a key ally of the United States in ensuring the peace and stability of this region. The U.S. Government shares bases and facilities in Japan. This proposed sale is consistent with U.S. objectives and with the 1960 Treaty of Mutual Cooperation and Security.

The proposed sale of AEGIS components to Japan will contribute to U.S. security objectives by providing a significantly improved Air Warfare capability. This sale will enhance Japan's Ballistic Missile Defense (BMD) capabilities by modernizing and upgrading the AEGIS technology on its two Atago-class destroyers. The Government of Japan can easily integrate the capabilities of these upgraded AEGIS Weapon Systems into its concept of operations. Japan will have no difficulty absorbing these systems into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin MS2 in Moorestown, New Jersey. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Japan involving six U.S. Government and ten contractor representatives for technical reviews/support, programs management, and training over a period of three years.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

## **Oman – F-16 A/C Weapon Systems**

WASHINGTON, December 12, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 11 of a possible Foreign Military Sale to Oman for a number of F-16 A/C weapon systems, as well as associated equipment, parts, training and logistical support for an estimated cost of \$117 million.

The Sultanate of Oman has requested a possible sale of 27 AIM-120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM), 162 GBU-12 PAVEWAY II 500-lb Laser Guided Bombs, 162 FMU-152 bomb fuzes, 150 BLU-111B/B 500-lb Conical Fin General Purpose Bombs (Freefall Tail), 60 BLU-111B/B 500-lb Retarded Fin General Purpose Bombs (Ballute Tail), and 32 CBU-105 Wind Corrected Munitions Dispensers (WCMD). Also included are 20mm projectiles, Aerial Gunnery Target System (AGTS-36), training munitions, flares, chaff, containers, impulse cartridges, weapon support equipment and components, repair and return, spare and repair parts, publications and technical documentation, personnel training and training equipment, U.S. Government and contractor representative logistics and technical support services, site survey, and other related elements of logistics support. The estimated cost is \$117 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country which has been, and continues to be, an important force for political stability and economic progress in the Middle East.

The proposed purchase of munitions will improve Oman's capability to meet current and future regional threats and will provide a significant increase in the Royal Air Force of Oman's (RAFO) capability to support both its own air defense needs as well as those of coalition operations. This potential sale is in support of RAFO's current twelve F-16s as well as its ongoing acquisition of twelve additional F-16s. Oman should have no difficulty absorbing this additional capability into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors will be Raytheon Company in Waltham, Massachusetts; Textron Defense Systems in Wilmington, Massachusetts; General Dynamics in Falls Church, Virginia; and McAlester Army Ammunition Plant in McAlester, Oklahoma. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require multiple trips to Oman involving many U.S. Government or contractor representatives over a period of up to or over 15 years for program and technical support and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-69

## **Israel – Munitions**

WASHINGTON, December 20, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 14 of a correction to a possible Foreign Military Sale to Israel of 6,900 Joint Direct Attack Munitions (JDAM) tail kits and associated equipment, parts, training and logistical support for an estimated cost of \$647 million.

In a release of Dec. 10, the primary contractors were misidentified. They are correctly identified below.

The Government of Israel has requested a possible sale of 6,900 Joint Direct Attack Munitions (JDAM) tail kits (which include 3,450 JDAM Anti-Jam KMU-556 (GBU-31) for MK-84 warheads; 1,725 KMU-557 (GBU-31) for BLU-109 warheads and 1,725 KMU-572 (GBU-38) for MK-82 warheads); 3,450 MK-84 2000 lb General Purpose Bombs; 1,725 MK-82 500 lb General Purpose Bombs; 1,725 BLU-109 Bombs; 3,450 GBU-39 Small Diameter Bombs; 11,500 FMU-139 Fuses; 11,500 FMU-143 Fuses; and 11,500 FMU-152 Fuses. Also included are spare and repair parts, support equipment, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor engineering and technical support, and other related elements of program support. The estimated cost is \$647 million.

The United States is committed to the security of Israel, and it is vital to U.S. national interests to assist Israel to develop and maintain a strong and ready self-defense capability. This proposed sale is consistent with those objectives.

The proposed sale of munitions will enable Israel to maintain operational capability of its existing systems. Israel, which already has these munitions in its inventory, will have no difficulty absorbing these additional munitions into its armed forces.

The proposed sale of munitions will not alter the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Israel.

The principal contractors will be The Boeing Company in St. Charles, Missouri; KDI Precision Products in Cincinnati, Ohio; ATK (Alliant Tech Systems, Inc.) in Edina, Minnesota; Kaman Dayron in Orlando, Florida; General Dynamics in Garland, Texas; and Elwood National Forge Co. in Irvine, Pennsylvania. There are no known offset agreements proposed in connection with this potential sale.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-02

**Republic of Korea – RQ-4 Block 30 (I) Global Hawk Remotely Piloted Aircraft**

WASHINGTON, December 24, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 21 of a possible Foreign Military Sale to the Republic of Korea for four RQ-4 Block 30 (I) Global Hawk Remotely Piloted Aircraft and associated equipment, parts, training and logistical support for an estimated cost of \$1.2 billion.

The Republic of Korea (ROK) has requested a possible sale of four (4) RQ-4 Block 30 (I) Global Hawk Remotely Piloted Aircraft with the Enhanced Integrated Sensor Suite (EISS). The EISS includes infrared/electro-optical, synthetic aperture radar imagery and ground moving target indicator, mission control element, launch and recovery element, signals intelligence package, an imagery intelligence exploitation system, test equipment, ground support, operational flight test support, communications equipment, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical and logistics support services, and other related elements of logistics support. The estimated cost is \$1.2 billion.

The Republic of Korea is one of the major political and economic powers in East Asia and the Western Pacific and a key partner of the United States in ensuring peace and stability in that region.

The Republic of Korea needs this intelligence and surveillance capability to assume primary responsibility for intelligence gathering from the U.S. led Combined Forces Command in 2015. The proposed sale of the RQ-4 will maintain adequate intelligence, surveillance, and reconnaissance capabilities and will ensure the alliance is able to monitor and deter regional threats in 2015 and beyond. Korea will have no difficulty absorbing these systems into its armed forces.

The principal contractor will be Northrop Grumman Corporation in Palmdale, California. There are no known offset agreements proposed in connection with this potential sale.

The proposed sale of this system will not alter the basic military balance in the region.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Korea.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-12

**Turkey – AIM-9X-2 SIDEWINDER Missiles**

WASHINGTON, December 24, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 21 of a possible Foreign Military Sale to the Government of Turkey for SIDEWINDER missiles and associated equipment, parts, training and logistical support for an estimated cost of \$140 million.

The Government of Turkey has requested a possible sale of 117 AIM-9X-2 SIDEWINDER Block II All-Up-Round Missiles, 6 AIM-9X-2 Block II Tactical Guidance Units, 6 Dummy Air Training Missiles, 130 LAU-129 Launchers, containers, missile support and test equipment, provisioning, spare and repair parts, personnel training and training equipment, publications and technical data, U.S. Government and contractor technical assistance and other related logistics support. The estimated cost is \$140 million.

Turkey is a partner of the United States in ensuring peace and stability in the region. It is vital to the U.S. national interest to assist our North Atlantic Treaty Organization (NATO) ally in developing and maintaining a strong and ready self-defense capability that will contribute to an acceptable military balance in the area. This proposed sale is consistent with those objectives.

The Turkish Air Force is modernizing its fighter aircraft to better support its own air defense needs. The proposed sale of AIM-9X-2 missiles will improve Turkey's capability for self defense, modernization, regional security, and interoperability with the U.S. and other NATO members, making it a more valuable partner in an increasingly important area of the world. Turkey will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of this weapon system will not alter the basic military balance in the region.

The prime contractor will be Raytheon Missile Systems Company in Tucson, Arizona. There are no known offset agreements in connection with this potential sale.

Implementation of this proposed sale will require travel of U.S. Government or contractor representatives to Turkey on a temporary basis for program technical support and management oversight.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

Transmittal No. 12-63

**Government of Iraq – VSAT Operations and Maintenance Support  
and Services**

WASHINGTON, December 24, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 21 of a possible Foreign Military Sale to the Government of Iraq for Very Small Aperture Terminal (VSAT) operations and maintenance services and associated equipment, parts, training and logistical support for an estimated cost of \$125 million.

The Government of Iraq has requested a possible sale of Very Small Aperture Terminal (VSAT) operations and maintenance services, equipment installation services, upgrade VSAT managed and leased bandwidth, video teleconferencing equipment, 75 VSAT Equipment Suites (consisting of 1.8m VSAT terminals, block up converters (BUCs), low-noise down converters (LNBS), required cables and components, iDirect e8350 modem, network operation and dynamic bandwidth equipment, and iMonitor software), spares and repair parts, tools, personnel training and training equipment, publications and technical documentation, U.S. Government and contractor representative technical support services, and other related elements of logistics and program support. The estimated cost is \$125 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

This proposed sale will continue U.S. support to the development of Iraqi Defense Network (IDN) VSAT terminals. Iraq intends to use these defense articles and services to provide command and control for its armed forces. The purchase of this equipment will enhance the Iraqi military's foundational capabilities, making it a more valuable partner in an important area of the world and supporting its legitimate needs for its own self-defense.

The proposed sale of this support and services will not alter the basic military balance in the region.

The principal contractors will be 3Di Technologies and L-3 Communications Company in Hanover, Maryland. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require U.S. Government or contractor representatives to travel to Iraq for delivery of operations and maintenance services, installation of new sites for each year of required operations and maintenance services, and field services to install and move VSAT sites and training for a period of one year.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.

**Qatar – HIMARS, ATACMS, and GMLRS**

WASHINGTON, December 24, 2012 – The Defense Security Cooperation Agency notified Congress Dec. 21 of a possible Foreign Military Sale to the Government of Qatar for rocket and missile systems and associated equipment, parts, training and logistical support for an estimated cost of \$406 million.

The Government of Qatar has requested a possible sale of 7 M142 High Mobility Artillery Rocket System (HIMARS) Launchers with the Universal Fire Control System (UFCS); 60 M57 Army Tactical Missile System (ATACMS) Block 1A T2K Unitary Rockets (60 pods, 1 rocket per pod); 360 M31A1 Guided Multiple Launch Rocket System (GMLRS) Unitary Rockets (60 pods, 6 rockets per pod); 180 M28A2 Reduced Range Practice Rockets (30 pods, 6 rockets per pod); 7 M68A2 Trainers, 1 Advanced Field Artillery Tactical Data System (AFATDS); 2 M1151A1 High Mobility Multipurpose Wheeled Vehicles (HMMWV); and 2 M1152A2 HMMWVs. Also included are simulators, generators, transportation, wheeled vehicles, communications equipment, spare and repair parts, support equipment, tools and test equipment, technical data and publications, personnel training and training equipment, U.S. government and contractor engineering, technical and logistics support services, and other related elements of logistics support. The estimated cost is \$406 million.

This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of an important partner which has been, and continues to be an important force for political stability and economic progress in the Middle East.

The proposed sale will improve Qatar's capability to meet current and future threats and provide greater security for its critical infrastructure. It will also enhance Qatar's interoperability with the U.S. and its allies, making it a more valuable partner in an increasingly important area of the world. Qatar will have no difficulty absorbing these launchers into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The prime contractor will be Lockheed Martin Missile and Fire Control in Dallas, Texas. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require the assignment of two contractor representatives to Qatar for a minimum of one year to support delivery of the HIMARS and to provide support and equipment familiarization.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

This notice of a potential sale is required by law and does not mean the sale has been concluded.
