

**REPORT ON TRAINING OF SPECIAL OPERATIONS FORCES**

**FOR THE PERIOD ENDING SEPTEMBER 30, 2009**

**UNCLASSIFIED (FOR OFFICIAL USE ONLY)**

## **U.S. SPECIAL OPERATIONS COMMAND (USSOCOM) FY 09 JOINT COMBINED EXCHANGE TRAINING PROGRAM ANNUAL 2011 REPORT TO CONGRESS**

U. S. Special Operations Forces (SOF) conduct an ever-increasing number of activities in more locations and under a broader range of diverse conditions. Among these many activities are Joint Combined Exchange Training (JCET) deployments of SOF units and personnel, which are conducted under the provisions of 10 U.S.C. 2011, in order to train U.S. SOF with friendly foreign nation forces. The primary purpose of these deployments is the training of U.S. Special Operations Forces.

These JCET events, along with many other operational deployments such as operations IRAQI FREEDOM in Iraq and ENDURING FREEDOM in Afghanistan among others, are part of an overall greater employment of SOF. These JCETs serve as a platform for ensuring persistent engagement in those countries designated as critical to Overseas Contingency Operations (OCO). Although not the primary purpose of the JCET program, the geographical combatant commands have integrated JCETs into their greater theater campaign plans. This integration not only maintains highly-trained SOF and increased counter-terrorism (CT) capabilities in partner nation forces, it also helps to ensure a consistent and persistent method of engaging those high priority GWOT countries in addition to the other conventional DOD engagement programs. The regional combatant commanders and U.S. Ambassadors appreciate SOF's unique capabilities and how these capabilities support U.S. policy goals and concerns, complementing their regional and country objectives. These SOF display the strategic flexibility to adapt throughout the world and maintain the tactical proficiency required for operations with far-reaching political consequences. Working closely with host nation counter-terrorist units, SOF utilize JCETs to improve the host nation's ability to combat terrorism and hone essential SOF skills. Annual JCETs continue to be an essential tool for ensuring SOF are fully trained in the languages, geographies, and cultural and communications skills necessary to support national security objectives. An incidental benefit of the JCET program for the geographical combatant commanders is a flexible, low-cost, low-signature complement to their regional strategies, which are based on the President's National Security Strategy and the Secretary of Defense's Security Cooperation Guidance. Special Operations Force units exchange ideas, techniques, and experiences in unconventional military operations with foreign counterparts, as well as actively seek JCET opportunities to perform regionally-focused training, based upon mission essential tasks, to sharpen critical SOF mission essential task list (METL) skills. The activities often enhance U.S. influence in the host countries, providing an invaluable means of establishing critical military-to-military relationships with these host countries.

Many aspects of the training available through JCETs prepare SOF for other types of missions, to include disaster relief operations and personnel recovery, which cannot be duplicated in a simulated training activity on a military base in the United States. Through JCET activities overseas, SOF can practice their skills in the geographic region and the cultural setting in which SOF may conduct operations. The cross-cultural knowledge and language skills gained through the conduct of JCETs enable SOF to achieve results far beyond what could be expected from their small numbers and low profile. Finally, JCET events with host nation military

forces improve joint and allied readiness and interoperability, facilitate the exchange of training techniques, and mutually enhance military professionalism.

This report provides an overall summary of section 2011 deployments for Fiscal Year 2009. Additionally, the report provides an overview of SOF activities within each combatant command and the relationship of these activities to the geographic combatant commander's regional strategy. Also included is a summary of the type of training conducted and detailed information for each country deployment.

### **U.S. Africa Command (USAFRICOM) and Special Operations Command, Africa (SOCAF)**

United States Africa Command (USAFRICOM), in concert with other U.S. government agencies and international partners, conducts sustained security engagement through military-to-military programs, military-sponsored activity, and other military operations as directed to promote a stable and secure African environment in support of U.S. foreign policy. With 55 countries comprising the African region, USAFRICOM stands ready to promote stability and thwart aggression throughout its AOR. To accomplish these theater strategic goals, the Commander, USAFRICOM relies on SOF to provide the unconventional military options essential to the theater strategy of military-to-military activities and operational support to OEF-HOA and OEF-TS.

Special Operations Command Africa (SOCAF), located at Kelly Barracks, Stuttgart, Germany, is USAFRICOM's headquarters for unconventional military operations. It is a joint military organization, consisting of members from all branches of military service resident in Europe or deployed from the continental United States. From these assets, SOCAFRICA forms multiple special operations task forces capable of conducting special operations throughout the USAFRICOM AOR. The command provides the tools to engage friends and confront adversaries, respond to crises, and prepare for the future, in areas that require the unconventional approach that only SOF can provide.

During fiscal year 2009, SOCAF participated in eighteen (18) JCET events in seven (7) countries.

### **U.S. Central Command (USCENTCOM) and Special Operations Command, Central (SOCCENT)**

United States Central Command (USCENTCOM) is assigned an area of responsibility (AOR) that covers 21 nations. The command pursues a multi-faceted theater strategy to defeat regional aggression, promote stability, deter conflict, and to meet the distinct regional challenges of the theater. The overall strategy takes into consideration the diverse cultural aspects of the region and

the varying capabilities of the region's militaries. The strategy capitalizes on mutual trust and working relationships forged over the last half century and compliments operations ENDURING FREEDOM and IRAQI FREEDOM. While USCENTCOM has the capability to act unilaterally to defend U.S. regional concerns, long-term U.S. goals are best achieved by working cooperatively by, with, and through our friendly regional populations in partnerships and coalitions.

Special Operations Command Central (SOCCENT), located at MacDill Air Force Base, Florida, supports the regional strategy of the Commander U.S. Central Command through a variety of initiatives and activities. The command possesses the regional focus that contributes to a mature insight into the people, the cultures and the issues of their AOR.

It is through SOCCENT regularly deployed and annually allocated SOF work by, with, and through other countries to enhance their combat skills to:

- increase their internal security and contribute to the overall AOR regional security;
- expound upon relationships with host nation counterparts;
- advise, assist or manage a variety of civil and military projects;
- effectively contribute to the achievement of the Commander USCENTCOM regional strategy and U.S. Ambassadors' country objectives;
- gain on the ground experience that will contribute to future successes.

During FY 2009, SOCCENT utilized theater-deployed and CONUS-based SOF throughout the AOR, conducting twenty-nine (29) JCET events in nine (9) countries.

#### **U.S. European Command (USEUCOM) and Special Operations Command, Europe (SOCEUR)**

United States European Command (USEUCOM) defends the homeland forward and supports U.S. strategic interests by maintaining ready forces for global operation (unilaterally or in concert with coalition partners), securing strategic access and enabling global freedom of action, enhancing transatlantic security through support of the North Atlantic Treaty Organization, promoting regional stability, and countering terrorism. USEUCOM assigned area of responsibility encompasses 51 nations.

Special Operations Command Europe (SOCEUR), located at Patch Barracks, Stuttgart, Germany, is USEUCOM's headquarters for unconventional military operations. SOCEUR is responsible to CDRUSEUCOM/SACEUR for:

- SOF readiness, targeting, exercises, plans, joint and combined training;
- NATO/partnership activities;
- execution of counterterrorism, peacetime and contingency operations.

During FY 2009, SOCEUR participated in fourteen (14) JCET events in thirteen (13) countries.

### **U.S. Northern Command (USNORTHCOM) and NORTHCOM Special Operations Division (SOD)**

United States Northern Command employs a defense-in-depth strategy against terrorism with the intent of defeating the threat before it reaches the homeland. This can only be achieved through a sustained collaborative effort with our partner nations of Canada and Mexico. Through the vehicle of low-visibility, discreet JCETs, U.S. SOF are able to develop these essential relationships, enhance the partner nations' ability to combat terrorism, and refine their own operational readiness in the USNORTHCOM AOR.

In FY 2009, USNORTHCOM did not execute any JCETs.

### **U.S. Pacific Command (USPACOM) and Special Operations Command, Pacific (SOCPAC) Special Operations Command, Korea (SOCKOR)**

The USPACOM area of responsibility (AOR) encompasses over one-half of the earth's surface – approximately 105 million square miles. The AOR traverses 14 time zones, from the west coast of the U.S. mainland to the western border of India; from the North Pole to Antarctic; and includes the states of Hawaii and Alaska. The 36 countries that comprise the Asia-Pacific region are home to more than 50% of the world's population, three thousand different languages, several of the world's largest militaries, and five nations allied with the U.S. through mutual defense treaties. Two of the four largest economies are located in the region along with ten of the fourteen smallest. Lastly, the AOR includes the most populous nation in the world, the largest democracy, and the largest Muslim-majority nation.

Special Operations Command, Pacific (SOCPAC), located in Hawaii, is a sub-unified command exercising operational control (OPCON) over Army, Navy, Marine Corps and Air Force SOF assigned and deployed to USPACOM. The command has theater-wide responsibility to train and employ joint SOF in support of USPACOM's operations and strategy, crisis response situations, deterrence or war fighting in a major theater war and smaller scale contingencies and remains the lead organization for the execution of Operation ENDURING FREEDOM – Philippines.

Special Operations Command, Korea (SOCKOR), located on the Korean Peninsula, is a functional component of US Forces Korea (USFK) and coordinates SOF activities and events in defense of the Republic of Korea (ROK).

The theater engagement strategy of SOCPAC supported U.S. SOF unit training in forty-five (45) JCET events in thirteen (13) countries during FY 2009. Of those JCET events, SOCKOR supported five (5) on the Korean Peninsula.

**United States Southern Command (USSOUTHCOM) and  
Special Operations Command, South (SOCSOUTH)**

The USSOUTHCOM AOR encompasses the entire land mass of Latin America south of Mexico, the waters adjacent to Central and South America, the Caribbean Sea, and a portion of the Atlantic Ocean. Thirty-one countries and ten dependencies (including territories over which the French, British, Dutch, and United States governments exercise sovereignty) comprise the AOR, which encompasses one-sixth of the world's land area and is home to over 390 million people.

Special Operations Command South (SOCSOUTH) is a sub-unified command headquartered at Homestead Air Reserve Base, Florida and is responsible for all SOF missions and activities in the USSOUTHCOM AOR. The Commander of USSOUTHCOM exercises OPCON of SOCSOUTH in order to provide the tools to interact with partner nations, confront adversaries, quickly respond to crises, and prepare for the future. The associated SOF are uniquely adapted to operate in the frequently remote, austere environments of the USSOUTHCOM AOR, in situations that require the unconventional approach only SOF can provide.

In 2009, USSOF executed twenty-one (21) JCETs in fifteen (15) countries in the SOUTHCOM AOR in support of unit training requirements.
